

## 1. Full Moon of Gemini on Monday, June 17, 2019 at 11:30:

1. The main Keynote or phrase to consider for all Gemini Full Moons (each year): **“I recognise my other self and in the waning of that self, I grow and glow.”** Consider the Keynote at, or as close to, the time of the Full Moon as possible and what it might mean as a Group.

### A. Notes on this coming Full Moon of June/Gemini:

1. **Watch for any impressions** that may come to you before the Full Moon that may relate to the Keynote (especially the two days before the Full Moon, the day of the Full Moon and the two days after the Full Moon). **If you want to share** any of your impressions with us please do. If you want any impressions shared with the group let us know and we will include them in the next month's meditation notes.
2. **This is the Third 'building consciousness and energy' Full Moon of the Astrological year.** This is the continuation of the first and second 'building' Full Moons of the Astrological year of Aries and Taurus in March and April. The energy for the new astrological year will continue building, during this Full Moon of Gemini. The energy which is built during the three 'Building' Full Moons at the beginning of the astrological year, which is also called the 'higher interlude', is then distributed over the remaining following Full Moons of the astrological year, which is also called the 'lower interlude'.
3. **This is the Full Moon closest to the Summer Solstice** which will be on June 21, 2019 at 18:54.

### B. Notes and Activities on or since the last Full Moon May/Taurus:

1. **Surya and Angel had significant impressions during the short Full Moon meditation** that they did at the exact time of the Full Moon. As Angel entered the meditation she saw herself flying above the Earth zooming in above India-Nepal-China area. As she was doing that she realised she didn't know exactly where Tibet is on the map. She saw herself zoom in and then was in what looked like a room with a lotus shaped table. Each person around the table was sitting on a lotus petal. In front there was a master sitting on a lotus shaped chair/throne that was pulsating radiant shades of red, from a dark strong blood red at the base of the chair to an almost white red. She wanted to look around for Surya and the other members of the group but got the very strong impression that she was supposed to stop and just take in waves of energy. After a few short minutes she heard a message "just remember that the number 12 is very important. You're done now." Surya's meditation focused on calling each member of the group by name to the Full Moon meditation.
2. **The 2 hectare of hemp** for cooperative research between Leontina, Katharina & Christian and SuryaAngel at BioFarmland (BFL) this year is growing. The crop has had its first weeding and is growing well (see Attachment 1 below).
3. **Surya, Angel is talking with 2021 Timisoara Culteral Capital office about possible cooperative events** between Favisan, BFL/SolarCity (The Natural Way Assoc.), the Hemp Museum, SAM2013 and possibly Anatoacor and Aurellian's or other groups for the Cultural Capital celebrations in 2021. We will give more information as we learn more of the application requirements.
4. **A metallic lighted stand is being made for the 'Group Central Pillar Crystal'** which should be completed by the Festival Meditations December 21 – 18, 2019.
5. **We met with Virginia, Katharina and Christian, her brother, about starting some poppy research at BioFarmland (BFL) this year at Virginia's suggestion.** Favisan and possibly BFL has product interest and Favisan has specialized research facilities with additional time to test these plants. The plot at BFL was chosen. The seeds were purchased from a local grower. The maximum non-regulated amount of poppies was planted on May 31<sup>st</sup> (see Attachment 1 below).

### C. General Notes and considerations about the group and group cycle and schedule:

1. **We are happy to continue to get to know each other better**, to talk more about these meditations, or other ways that we may cooperate either personally, or as associations or organizations. Please let us know if you would like any other meetings or if you have any other comments or questions as we move into this group formation year. We were happy to meet briefly with Virginia and Aurellian at EsotericFest in May and hope to have more of these meetings and communications.

2. **We are ending a seven year cycle this year** and therefore are now astrologically three months into a Festival year (Festival celebrated from December 21 – 28, 2019). This will be the start of a new seven year cycle and are looking forward to what this will bring to us and the group at the end of this year.
3. **It might be considered that these Group Meditations seek** to make use of the spiritual opportunities that the cycle of full moons (and solstices and equinoxes) provide. The unique energies associated with each constellation are directed into the consciousness as transformative qualities that can lift and expand our hearts and minds.

4. **It might be considered that Group Living tends to the fulfillment of free will in service** and, as this is gradually understood, coming together to co-operate on issues for the benefit of the whole without intentions to dominate, interfere or impose on others. The vision is there, the future is assured, but the key to its successful implementation is that co-operation has to be based on intentions that are based on the good of the whole rather than a focus on self-interest.

5. **The following regular monthly cycle is for the group information flow:**

- a. Full Moon (five days): Two days before, the day of (meditation), and two days after Full Moon for getting impressions.
- b. The week after the 5 days of the Full Moon: For letting us know or sharing of any impressions during the preceding 5 days. Plus us transcribing our own impressions.
- c. Second week after Full Moon for 'Anchoring' or 'Grounding' impressions through gathering other information or following up on activities based on the impressions. Possible New Moon meditation by those who want and ending that Full Moon Cycle.
- d. Third week after Full Moon (just after the New Moon): Starting to build up to the next Full Moon having any questions to impressions shared and answered and any activities based on impressions started or completed.

- e. Fourth week after the Full Moon (just before the next Full Moon): Coming out with the Keynote and information and timing of the next Full Moon, including the shared impressions or activity from the last Full Moon.
