

Full Moon of Gemini, third Full Moon of this Astrological Year, on Tuesday, June 14, 2022 at 14:51:35 in Romania:

The main Keynote or phrase to consider for all Gemini Full Moons (each year): **“I recognise my other self and in the waning of that self, I grow and glow.”** The Gemini Full Moon Keynote of Light each year is: **“The Light of Interplay.”** Consider the Keynotes at, or as close to, the time of the Full Moon as possible and what it might mean as a Group. Each of the constellations also have at least one, but also as many as five, Ray determining energies by which they rule and of which they rule. **The main Ray energy of Gemini is Ray 3.** So, Gemini has a main energy of Intelligent Activity or having to do with knowledge (based on what is right or true). It is a recommendation to consider the Gemini Keynotes as Ray 3 Keynotes. This is a direct correspondence to the information of our Color Consultations and the way this same Ray determining effects us. So, our Color Consultation information can be reviewed and related to each of the Full Moon determining energies to determine the possible effects and opportunities each Full Moon offers each of us in the group. This is explained and expanded upon from Esoteric Astrology (EA) in general in Addendum 1 from the past Aries Full Moon report (from April 2021). This year we will add information on how each constellation works as a quaternary in what are called the 3 Crosses. Addendum 1 from the April 2022 Full Moon report (two months ago) is a general introduction about the 3 Crosses, formed by the 12 Astrological signs, taken from EA. Addendum 1, below, relates specifically to Gemini and how it fits into the Crosses. Gemini is the third sign of the new Astrological year and the third of the three building energy and consciousness Full Moons of the year. It is part of the Mutable Cross. It helps bring a culmination to the highest impulse cycle for the year after the past two months of Aries (two months ago) and Taurus (last month).

A. Notes on this coming Full Moon of June/Gemini:

- 1. Watch for any impressions** that may come to you before the Full Moon that may relate to the Ray 3 Keynotes and your specific Rays (from your Color Consultations), especially two days before the Full Moon, the day of the Full Moon and two days after the Full Moon. **If you want to share** any of your impressions with us please do. If you want any impressions shared with the group let us know and we will include them in the next month's meditation notes.
- 2. This is the third of twelve Full Moons of this Astrological year** and is the third of the three different 'Building Consciousness and Energy' full moons of this astrological year. The energy which is built and gathered during these first three 'Building' Full Moons at the beginning of the astrological year, which is also called the 'higher interlude', is then distributed over the last nine Full Moons at the end of the astrological year, which is also called the 'lower interlude'.
- 3. Addendum 1 from last year's Full Moon report of Aries (from April 2021) gives reference into more insight and inspiration for how to** view some of the expanded awareness of these monthly and yearly Full Moon cycles as we enter into the forth Astrological Year of this group formation and the group's beginning functioning.
- 4. Addendum 1 from April 2022's Full Moon report of Aries (two months ago)** is a general introduction about the 3 Crosses, formed by the 12 Astrological signs, taken from EA.
- 5. Addendum 1 below will give this month's expansion of how the qualifying energies of the monthly astrological sign, Gemini,** fit into the three 'Crosses' or quaternaries of constellations formed by the 12 signs which may be effecting us and how to respond to the various opportunities these Crosses of energies present to our group including each individual.
- 6. The 2022-3 astrological year Annual Keynote is,** “LET THE LIGHT OF THE SEVEN RAYS BLEND WITH THE SEVENTH RAY, AND LIGHT SUPERNAL USHER IN THE NEW CIVILIZATION.”
- 7. The Summer Solstice will be on Tuesday June 21, 2022 at 12:13:09 in Romania. The Summer Solstice is** considered the greatest growth of the growing cycle before beginning a new cycle on the fall equinox. We will be holding a Hindu Puja cleansing and nourishing ceremony on Sunday June 19, 2022 at noon if anyone in the group is interested in attending please let us know. Also all of the crystals will be out and available for people who come.

B. Notes and Activities on or since the last Full Moon May/Taurus:

- 1. SuonAngelMiriam meditated at the time of the new and full moon together. We had what we consider again** more subtle meditations of positive building of this astrological year's Higher Interlude cycle.

2. **SuonAngel are talking with 2023 Timisoara Cultural Capital office about a cooperative event possibly named 'SAMatate'** between Favisan, BFL/SolarCity (The Natural Way Assoc. - TNWA), the Hemp Museum, SAM2013 and possibly Anatacor and Aurellian's or other groups for the Cultural Capital celebrations rescheduled to 2023. We are organizing information for possibly submitting an application or by possibly joining in the Asociatia Cries project next year in 2022 and for the main event in 2023.
3. **The Group Central Pillar Crystal from Scotland, UK on a bronze stand plus:** A. Phase 1 Esoteric Directive Group Crystal, meant mainly for assistance to Suon in the group with Virginia and Remus; B. Phase 3 Occult Instructive Group Crystal, meant mainly to assist Instructors of triangles, such as, Mircea, Leontina, and Remus; and C. Phase III Exoteric Educative Group Crystal, meant for Leontina have all arrived. Again these 'Group Central Pillar Crystals' and your personally reserved Monadic Manifestation Group crystals are available to group members to come and meditate. With these crystals the Esoteric and Occult crystal sets are now finalized along with any rearranging of the other crystals of the set for the 2025 impulse. Please let us know if you would like to explore any of these crystals or have any other input (see photo below).

4. **The three natural triple pointed crystal clusters** are always available for any group members who would like to meditate with them as another way to tune into group consciousness (see previous photo from March 2022 Pisces report).

5. **Three new 'Circumcentral' crystals have been put on a Lay-Away plan** to be here by the Summer Solstice of 2025 for the Hierarchical Group Impulse year of 2025 (see photo below).

6. **Poppy research at BioFarmland (BFL)** at Virginia's suggestion. New organic seeds have arrived and were planted for the 2022 season.
7. **Revised and renewed Hemp Museum suggestion** presented to Zoli, Virginia, and Leontina as a possible group project. More discussions with Leontina last month in Timisoara.
8. **Based on Leontina's previous intentions to establish an educational location near her home further discussions are going on about** a location, financing, possible links to other hemp projects and people. An initial estimate to get a small workshop space built on her land, for materials with mainly voluntary labor or construction, is 3,000 Euros. Anyone wanting a more specific update or to help with initial financing please either contact Leontina or us.
9. **SuonAngelMiriam have met personally with Georghe Piperea** and joined his class action law suit against the constitutionality of mandates which is moving forward as discussed in the Full Moon cover letter for Capricorn (2021). Hearing set for September 2022. Let us know if you have additional comments or questions.
10. **SuonAngelMiriam are continuing our interaction with Katharina documenting** how to manage and implement new and better ways of herb growing, drying, processing, etc. Meeting last month with Aviram the head of Sadhana Forest projects and received input on various topics.
11. **SuonAngelMiriam are interacting with Virginia on her Bio-Resonance course, consultations** and treatments along with the production of the SAM2013 Synthesis Tri-Level Color Set as liquids. Updated at meeting during Esoteric Fest May 2022 and continuing.
12. **SuonAngelMiriam are working with Remus and others on updating and expanding** one of his personal spirituality courses as an Esoteric Group project. Anyone interested in knowing more or helping in this group project please let us know.
13. **SuonAngelMiriam are working with Aurellian on how some of the concepts of his book and course** on "The Numerology of the Soul" might relate and correspond to the SAM2013 Synthesis Tri-Level Color System numerology. Both Aurellian and Suon have had direct contact with Yogi Bahjan who taught the numerology of the soul concepts.
14. **SuonAngelMiriam are working with Mircea on ways of distributing SAMfume** and other products and working more closely together on the other projects listed above.

C. **Previous Activities Archive:**

1. **Hemp** for cooperative research at BioFarmland (BFL) on hold after 3 years of testing.

D. General Notes and considerations about the group, cycles, meditation and information flow:

- 1. We are happy to get to know each other better**, or other ways that we may cooperate either personally, or as organizations. Please let us know if you would like any other meetings or if you have any other comments or questions.
- 2. 2022 continues the new seven year cycle started in 2020.** The final major group 'impact' has been made in 2019 prior to the next 100 year 'impulse' which happens during 2025.
- 3. It might be considered that these Group Meditations seek** to make use of the spiritual opportunities that the cycles of full moons, solstices and equinoxes, Group Festival Weeks and Centennial Impulse years provide. The unique energies associated with each constellation, season and longer cycles are directed into the consciousness as trans-formative qualities that can lift and expand our hearts and minds.
- 4. It might be considered that Group Living tends to the fulfillment of free will in service** and, as this is gradually understood, coming together to co-operate on issues for the benefit of the whole without intentions to dominate, interfere or impose on others. The vision is there, the future is assured, but the key to its successful implementation is that co-operation has to be based on intentions that are based on the good of the whole rather than a focus on self-interest.
- 5. In all meditation it is of value for the student to remember that**, from the standpoint of permanent benefit, it is easier to meditate effectively during the period from the new moon to the full moon, than from the full moon to the new moon. The first half of the lunar cycle is one of intensification, absorption and accretion; the second half is one of assimilation and distribution. More real progress over a long period can be made by observing this cyclic law.
- 6. Wisely utilizing newly acquired energies keeps inflowing and out flowing channels open** and prevents Sycal (psychical), Astral (emotional), Mental (intellectual) congestions, which may otherwise be experienced, with their accompanying physical consequences.
- 7. The following regular monthly cycle is for the group information flow:**
 - a. Full Moon (five days): Two days before, the day of (meditation), and two days after Full Moon for getting impressions.
 - b. The week after the 5 days of the Full Moon: For letting us know or sharing of any impressions during the preceding 5 days. Plus us transcribing our own impressions.
 - c. Second week after Full Moon for 'Anchoring' or 'Grounding' impressions through gathering other information or following up on activities based on the impressions. Possible New Moon meditation by those who want and ending that Full Moon Cycle.
 - d. Third week after Full Moon (just after the New Moon): Starting to build up to the next Full Moon having any questions to impressions shared and answered and any activities based on impressions started or completed.
 - e. Fourth week after the Full Moon (just before the next Full Moon): Coming out with the Keynote and information and timing of the next Full Moon, including the shared impressions or activity from the last Full Moon.

Addendum 1: Gemini - The Twins, constellation hypothesizes and considerations on the 3 Crosses from EA:

In the consideration of the remaining signs there will be relatively less to say than before, because I have already pointed out many facts and points when dealing with their polar opposites. Much, therefore, that can be said about the sign Gemini has been dealt with under Sagittarius; Virgo and Pisces have also been considered in relation to this sign, because all these four signs form together the Mutable Cross...

THE MUTABLE CROSS:

In this world cycle, Gemini, Taurus and Aries are three subjective energies or the three conditioning signs which lie behind manifestation. They lie behind the form-taking experience in Cancer and they also lie behind manifestation in Pisces. Pisces is the sign with which the modern world (and by that I refer to an immense long period of time) is primarily concerned, for Pisces is the starting point on the clockwise wheel at this time for the greater zodiacal round of approximately 25,000 years—the date of which beginning is not yet revealed to the modern astrologer or subject to revelation through his science. As we study Gemini and Taurus (Aries we have already considered) let us bear in mind their cause-initiating nature and the fact that they have a more specifically psychic effect and subjective influence than their strictly phenomenal and physical effects would lead one to imagine.

You will find, I think, that it is these hints and suggestions which are of the most importance in launching and in utilising the new esoteric astrology. Students would do well to isolate first of all the broad general statements anent the zodiacal signs and influence before they take up the intensive study of the detailed and new informative suggestions which I may have given. A grasp of the universals, prior to a study of the particulars, is ever a wise occult procedure.

In each of the Crosses of the Heavens there is one sign and influence which, in any world cycle, dominates the other three. Such dominating effects necessarily change when a world cycle changes, but for the present cycle, Gemini determines the paramount influence within the fourfold influence of the Mutable Cross. The main objective of these four energies is to produce that constant flux and periodic change in time and space which will provide a field of adequate experience for the unfoldment of the Christ life and consciousness. This is the case cosmically speaking, and also from the standpoint of a solar system, of a planet and of a human being. The field of development for the lower three kingdoms is dependent upon the status and energy-distributing power of humanity as a whole. We might, therefore, recognise the following facts anent the Mutable Cross:

Gemini.—This is the force which produces the changes needed for the evolution of the Christ consciousness at any particular point in time and space. It is always compatible to the requirement.

Virgo.—This is the nurturing force of substance itself, subject to the nine cyclic changes of the cosmic gestation period; it fosters and protects the embryonic Christ life, preparing for manifestation or a divine incarnation.

Sagittarius.—Is the energetic activity of the life force, demonstrating at the sixth month, when—esoterically speaking—the three aspects of the form nature and the three aspects of the soul are integrated and functioning. It is this integration which sometimes makes the sixth month of physical human gestation so critical.

Pisces.—This is the life expression and active appearance of the Christ consciousness in form; it is also the energetic appearance (symbolically speaking) of a world saviour.

This Mutable Cross is, therefore, peculiarly a Christian symbol and significantly connected with the Christ life and with the unfoldment of a world saviour and is particularly potent during the anti-clockwise turning of the Great Wheel. This fact will emerge more clearly when astrologers are able to determine accurately the point of development and the spiritual status of the subject whose horoscope is under consideration. The formless nature of the influences of Gemini is strikingly borne out if the significance of Masonry is studied. This world-wide institution was—as I have earlier told you—organised under the influence and impulse of this sign and is governed by it in a most unusual manner. The format or exoteric symbolism of Masonry has frequently been changed during the millenia of years through which it has been active. Its present Jewish colouring is relatively modern and not necessarily enduring, but its significance and its history of unfoldment are the history of the indwelling Christ consciousness and of that inner light, and this must unalterably be continued. That which has entered through the two pillars of Hercules, the disciples (Jachin and Boaz), and through the sign Gemini, has entered to stay.

Apart from the importance of the influences of Gemini as the dominant power in the Mutable Cross, it is one of the paramount zodiacal signs in that it is the major symbol of duality in the zodiac. It is the constellation Gemini and its inherent second ray influence which control every one of the pairs of opposites in the Great Wheel. Gemini, therefore, forms with each of the pairs of opposites in the Zodiac a third factor, powerfully influencing the other two constellations, and thus forms, with them, certain great zodiacal triangles. These only become of importance when considering the horoscopes of advanced human beings or esoteric groups, but eventually—when casting the horoscope of a disciple or an initiate—the esoteric astrologer will have to consider their potency. For instance, in the case of an initiate whose Sun is in Leo, the triangle of constellation energies determining the interpretation of the horoscope would be Leo-Aquarius-Gemini. When dealing with a subject whose Sun is in Gemini itself, the conditioning triangle would be Gemini-Sagittarius and Pisces—the latter forming a part of this triangle because it marks both the end and the beginning and is, for this great cycle of the zodiac, the Alpha and the Omega. These points I will endeavour to elucidate in greater detail when taking up with you the basic astrological Science of Triangles. The generalisations and the hints in connection with the twelve signs of the zodiac which have formed the subject matter of our past instructions have been primarily intended to lay the ground and to prepare your minds for the later section upon triangles; this will be far the most important aspect of the teaching on esoteric astrology and the one which will be the first to be grasped by modern astrology.

This sign is sometimes called the "constellation of the resolution of duality into a fluid synthesis." Governing as it does all the pairs of opposites in the zodiac, it preserves the magnetic interplay between them, keeping them fluid in their relations, in order eventually to facilitate their transmutation into unity, for the two must finally become the One. It should be remembered that—from the angle of the final development of the twelve zodiacal potencies—the twelve opposites must become the blended six, and this is brought about by the fusion in consciousness of the polar opposites. Pause and consider this phrasing. The opposites eternally remain from the point of view of human reason, but to the initiate whose intuition is functioning they constitute but six great potencies, because he has achieved "the freedom of the two," as it is sometimes called. For instance, the Leo subject who has an initiated consciousness preserves the individuality, developed in Leo, as well as the universality of Aquarius; he can function, if he so chooses, as a fully self-identified individual, yet possesses simultaneously a fully awakened universal awareness; the same thing can be said of balanced activity and consequent fusion in all the signs. This analysis constitutes in itself an interesting and far-reaching field of speculation.

Gemini is, therefore, one of the most important of the twelve signs and its influence lies behind everyone of them—a fact but little realised as yet by astrologers. This will be more fully understood when the triangle of Gemini and two opposing signs is studied. Because the Ray of Love-Wisdom, the second ray, pours through Gemini it becomes apparent how true is the occult teaching that love underlies the entire universe. God is love, we are assured, and this statement is both an exoteric and an esoteric truth. This underlying love of Deity reaches our solar system primarily through Gemini, which forms, with the constellation of the Great Bear and the Pleiades, a cosmic triangle. This is the triangle of the cosmic Christ and is the esoteric symbol lying behind the cosmic Cross. There is ever the eternal triangle to be found behind the fourfold phenomenal appearance. Speaking symbolically and in the words of the Old Commentary:

"Upon the golden triangle, the cosmic Christ appeared; His head in Gemini; one foot upon the field of the Seven Fathers and the other planted in the field of the Seven Mothers (these two constellations are sometimes called the Seven Brothers and the Seven Sisters. A.A.B.). Thus for aeons, the Great One stood, His consciousness in-turned, aware of three but not of four. Intent, with suddenness, He heard a sound go forth.... Arousing to that cry, He stretched Himself, reached forth both arms in understanding love, and, lo, the Cross was formed.

"He heard the cry of the Mother (Virgo), of the Seeker (Sagittarius), and of the submerged Fish (Pisces). Then, lo, the Cross of change appeared, though Gemini remained the head. This is the mystery."

In this occult statement is hidden one reason why Gemini is regarded as an air sign, for it is cosmically related (as are Libra and Aquarius, the other two points of the airy triplicity) in a most peculiar way to the Great Bear, to the Pleiades and to Sirius. The relation is essentially a sixfold one, and here you will find a hint as to the resolution of the pairs of opposites—involving as these three constellations do the three ideas of opposition-equilibrium-synthesis or universal fusion. It might be stated that:

1. Gemini—forms a point of entrance for cosmic energy from Sirius.
2. Libra—is related to and transmits the potencies of the Pleiades.
3. Aquarius—expresses the universal consciousness of the Great Bear.

It might be profitable to you to bear in mind at this point what I have often told you, that the great White Lodge on Sirius is the spiritual prototype of the great White Lodge on Earth, of which modern Masonry is the distorted reflection, just as the personality is a distorted reflection of the soul. I would also remind you again of the relation between Gemini and Masonry to which reference has frequently been made.

A close consideration of what I have said above will serve to emphasise in your consciousness the importance of this constellation, Gemini, and the inner significance of the Mutable Cross. All the constellations on this Cross mark points of change or are the custodians of those energies which produce the needed periods of re-orientation, preparatory to fresh developments and new activities. It might be of interest if I pointed out that:

1. The Mutable Cross—brings about those conditions which will produce great periods of change in the life of the planet, of a kingdom in nature or of a human being. Mercury plays a part in this.
2. The Fixed Cross—brings about, as a sequence, to these inner changes, certain great points of crisis which are unavoidable and present definite opportunity. Saturn is dominant in bringing this about.
3. The Cardinal Cross—is responsible for bringing about certain great points of synthesis, as a consequence of both change and crisis. Jupiter is responsible for the focussing of energies at this point.

For more information of Gemini and the crosses go back to the 2022 Aries and 2021 Gemini Full Moon Meditation Reports. If you need the reports sent to you again please let us know.

Conclusion (at this point):

May we consider together entering into that higher state of (group/soul) 'bewilderment' yet strength and unity from our lower state of personal certitude and isolation.
