

Full Moon of Leo, Sixth Full Moon of this Astrological Year, on Sunday, August 22, 2021 at 15:01:48 in Romania:

The main Keynote or phrase to consider for all Leo Full Moons (each year): **“I am That and That am I.”** The Leo Full Moon Keynote of Light each year is: **“The Light of the Soul.”** Consider the Keynotes at, or as close to, the time of the Full Moon as possible and what it might mean as a Group. Each of the constellations also have at least one, but also as many as five, Ray determining energies by which they rule and of which they rule. The main Ray energy of Leo is Ray 2. So, Leo has a main energy of Loving Wisdom and is Educational. It is a recommendation to consider the Leo Keynotes as Ray 2 Keynotes. This is a direct correspondence to the information of our Color Consultations and the way this same Ray determining energy affects us. So, our Color Consultation information can be reviewed and related to each of the Full Moon determining energies to determine the possible effects and opportunities each Full Moon offers each of us in the group. This is explained and expanded upon from Esoteric Astrology in general in Addendum 1 from the past Aries Full Moon report (from April 2021) and for the constellation Leo in the Addendum below (repeated from last month since there are two Full Moons in Leo this year).

A. Notes on this coming Full Moon of August/Leo:

1. **Watch for any impressions** that may come to you before the Full Moon that may relate to the Ray 2 Keynotes and your specific Rays (from your Color Consultations), especially two days before the Full Moon, the day of the Full Moon and two days after the Full Moon. **If you want to share** any of your impressions with us please do. If you want any impressions shared with the group let us know and we will include them in the next month's meditation notes.
2. **This is the sixth of twelve Full Moons of this Astrological year** and is the third of nine ‘Distributing Consciousness and Energy’ full moons of this astrological year. The energy which is distributed during these last nine ‘Distributing’ Full Moons at the end of the astrological year, which is also called the ‘lower interlude’, is distributed from the consciousness and energy built over the first three Full Moons of the astrological year, which is also called the ‘higher interlude’.
3. **Addendum 1 from the past Full Moon report of Aries (from April 2021) gives reference into more insight and inspiration for how to** view some of the expanded awareness of these monthly and yearly Full Moon cycles as we enter into the third Astrological Year of this group formation and the group's beginning functioning.
4. **The Addendum (repeated from last month) below will give this month's expansion of how the qualifying energies of the monthly astrological sign, Leo,** and the determining or ruling energies of the Rays coming through this sign and the planetary rulers may be effecting us and how to respond to the various opportunities these energies present to our group including each individual.
5. **This is the second of two Full Moons that will occur in the sun sign of Leo this year.** This implies that this more personally orientated energy of Leo has a larger or at least longer and double influence as in other years.

B. Notes and Activities on or since the last Full Moon July/Leo:

1. **SuryaAngel meditated at the time of the full moon together. We had what we consider was** another energetic meditation and another positive distributing of this astrological year's cycle. There was also consciousness and an energetic sense about the Nirvana III₄ crystal that was being faceted leading up to this Full Moon.(see Item 7 below).
2. **Surya, Angel are talking with 2023 Timisoara Cultural Capital office about a cooperative event possibly named ‘SAMatate’** between Favisan, BFL/SolarCity (The Natural Way Assoc. - TNWA), the Hemp Museum, SAM2013 and possibly Anatacor and Aurellian's or other groups for the Cultural Capital celebrations rescheduled to 2023. We are organizing information for possibly submitting an application or by possibly joining in the Asociatia Cries project next year in 2022 and for the main event in 2023.
3. **The second of three ‘Group Central Pillar Crystals’ is a quartz cluster and has been purchased from a mine in Arkansas, USA and is in the process of having a custom cast bronze lighted stand made for it and**

should be available to the group later this year (see picture above). Again the first 'Group Central Pillar Crystal' and your personally reserved Monadic Manifestation Group crystals are available to group members to come and meditate.

4. **Poppy research at BioFarmland (BFL)** at Virginia's suggestion. New 'unwashed' seeds have been procured and planted April 2021 but still have not sprouted. New organic seeds have been ordered and have arrived for planting next year.
5. **Revised and renewed Hemp Museum suggestion** presented to Zoli, Virginia, and Leontina as a possible group project. Discussions are moving forward.
6. **Based on Leontina's previous intentions to establish an educational location near her home further discussions are going on about** a location, financing, possible links to other hemp projects and people. An initial estimate to get a small workshop space built on her land for materials with mainly voluntary labor or construction is 3,000 Euros. Anyone wanting a more specific update or to help with initial financing please either contact Leontina or us.
7. **We were very glad to be able to finish another of the crystals** for the group crystal set expansions hoped to be completed by the 2025 impulse year. It is the Central Esoteric Group Crystal and is meant mainly for assistance to Suon, Virginia and Remus in that group but should have an effect of bringing the whole group into more cohesiveness. Please let us know if you have had any other sensitivities about this (see picture with two views).

C. Previous Activities Archive:

1. **Hemp** for cooperative research at BioFarmland (BFL) on hold after 3 years of testing.

D. General Notes and considerations about the group, cycles, meditation and information flow:

1. **We are happy to get to know each other better**, or other ways that we may cooperate either personally, or as organizations. Please let us know if you would like any other meetings or if you have any other comments or questions.
2. **2021 continues the new seven year cycle started last year**. The final major group 'impact' has been made last year prior to the next 100 year 'impulse' which happens during 2025.
3. **It might be considered that these Group Meditations seek** to make use of the spiritual opportunities that the cycles of full moons, solstices and equinoxes and Group Festival Weeks provide. The unique energies associated with each constellation, season and longer cycles are directed into the consciousness as trans-formative qualities that can lift and expand our hearts and minds.
4. **It might be considered that Group Living tends to the fulfillment of free will in service** and, as this is gradually understood, coming together to co-operate on issues for the benefit of the whole without intentions to dominate, interfere or impose on others. The vision is there, the future is assured, but the key to its successful implementation is that co-operation has to be based on intentions that are based on the good of the whole rather than a focus on self-interest.
5. **In all meditation it is of value for the student to remember that**, from the standpoint of permanent benefit, it is easier to meditate effectively during the period from the new moon to the full moon, than from the full moon to the new moon. The first half of the lunar cycle is one of intensification, absorption and accretion; the second half is one of assimilation and distribution. More real progress over a long period can be made by observing this cyclic law.
6. **Wisely utilizing newly acquired energies keeps inflowing and outflowing channels open** and prevents Sycal (psychical), Astral (emotional), Mental (intellectual) congestions, which may otherwise be experienced, with their accompanying physical consequences.
7. **The following regular monthly cycle is for the group information flow:**
 - a. Full Moon (five days): Two days before, the day of (meditation), and two days after Full Moon for getting impressions.
 - b. The week after the 5 days of the Full Moon: For letting us know or sharing of any impressions during the preceding 5 days. Plus us transcribing our own impressions.
 - c. Second week after Full Moon for 'Anchoring' or 'Grounding' impressions through gathering other information or following up on activities based on the impressions. Possible New Moon meditation by those who want and ending that Full Moon Cycle.
 - d. Third week after Full Moon (just after the New Moon): Starting to build up to the next Full Moon having any questions to impressions shared and answered and any activities based on impressions started or completed.
 - e. Fourth week after the Full Moon (just before the next Full Moon): Coming out with the Keynote and information and timing of the next Full Moon, including the shared impressions or activity from the last Full Moon.

Addendum:

Leo the Lion constellation hypothesizes and considerations from EA (same as last month):

Passing as we are into the Aquarian Age in which the spirit of Aquarius will be exemplified in its universality and its sense of "general distribution," it is inevitable that a point of crisis should be reached. The true Leo type must react in a new and unique manner to the proffered opportunity, and when I say type, I refer to those people whose sun is in Leo or who have Leo rising. The reason for this is that Leo is the polar opposite of Aquarius, and the interplay of energies between these two is far more potent than at any previous time in racial history. This is a fact which you are not in a position to verify, but I make it as a statement of fact. It is because of this fact that you have the appearance of the dictators in different countries at this time, and it is because of this fact also that in this present cycle (the ante-chamber of the New Age) you have the pronounced attitude of these dictators—an attitude which is so often ignored but which has real racial value. It is the attitude which leads to a synthesis of the national life, aims and intentions. A typical instance of this attitude is that of Hitler. No matter what may be our personal opinion of him, there is no question that he has unified, produced fusion and blended together the various elements in the German race. This activity is Aquarian in nature but in its lowest and most undesirable aspect. It is also of the nature of Leo, for the people who can produce these results have necessarily to be intensely self-aware. This is the major characteristic of the Leo person. What part Leo may play in the personal horoscope of Hitler I do not know, for I have not investigated it, but it plays a very prominent part in the horoscope of his soul.

I would suggest to modern astrologers that they cast the horoscopes of the dominant world figures at this time, with the planets which I have given you as the esoteric rulers; all advanced people and those of major importance are on or nearing the path of discipleship and the influence of the esoteric planets is becoming, therefore, increasingly powerful. It might prove most illuminating and teach them much. The tendency to fusion, blending, amalgamation, and the spiritual counterpart of this unity is stronger today than heretofore and the types which produce this exoterically must have Leo somewhere in a prominent position in their horoscopes or the Sun controlling in some important house. If the horoscopes do not prove this, it is because the exact hour, moment and day of birth has not been accurately ascertained.

This sign, Leo, is the fifth sign of the zodiac which indicates that it is part of the mysterious number, ten—the number of perfection, a relative perfection, prior to entering into a new cycle of progress. This links Leo consequently with Capricorn, the tenth sign of the zodiac, for it is the processes of initiation which make the self-conscious person the group conscious individual. I am choosing these words with care and forethought. Upon the reversed wheel, this is the eighth sign, the sign of the Christ and of the indwelling Reality; it therefore marks—in this manner—a new cycle. When self-consciousness is born (as at the moment of individualisation) a new cycle begins. This numerical significance links Leo with Scorpio (the eighth sign of the Zodiac) in an effective manner and you have, therefore, the triangle of Leo-Scorpio-Capricorn involving humanity and indicating the three important crisis points in man's career:

1. Self-consciousness or human awareness. Unity—Leo.
2. Consciousness of warring dualities. Discipleship—Scorpio.
3. Group consciousness as an initiate. Unity—Capricorn.

This sign is a fire sign, and it is the pre-eminent fire sign at this time. The Sons of Mind, the self-conscious Sons of God, are above everything else the Sons of Fire, for our "God is a consuming Fire." There is in them that peculiar quality which can burn and destroy and so eradicate all that hinders their essentially divine expression. I would have you bear in mind the purificatory nature of fire. There are two elements in nature which are connected in the public consciousness with the thought of purification—one is water and the other is fire. It is in this connection that the water signs, Cancer—Scorpio—Pisces, are interesting, and the fire signs, Aries—Leo—Sagittarius, warrant study. Fire always carries forward esoterically that which water has begun.

In Cancer, the purificatory waters of experience begin their beneficent work. This is begun upon the Cardinal Cross because that cross deals only with wholes and, therefore, with mass experience.

In Scorpio, the purificatory waters of testing and trials are applied. This takes place upon the Fixed Cross and their effect is drastic in the extreme.

In Pisces, the waters of purification are applied through daily life and the processes of incarnation; they apply to the "fish swimming in the waters of matter and finding there its sustenance." This is upon the Mutable Cross of ordinary material existence and experience. Thus the influence of the three crosses is

brought to bear upon the incarnated Son of God upon the wheel of ordinary life and in the usual order. Upon the wheel reversed, the fire takes the place of water and burns away all dross. Purification of the entire nature is thus achieved gradually, and the man becomes sensitive to the influences which can be brought to bear upon him when the fiery triplicity plays its part and the influence of Aries-Leo-Sagittarius begins to re-orient him towards universality, self-consciousness and one-pointed attitudes. As we go on with our study, the significance of this statement will increasingly appear. I am hinting at matters of spiritual and esoteric importance because this sign, Leo, is of paramount control in the life of the aspirant. He has to know himself through true self-awareness before he can know that divine spirit which is his true Self and know also his fellowmen.

Leo is a part of the Sphinx, and upon this I need not enlarge as we have touched upon this elsewhere. This is a great mystery. Virgo and Leo together stand for the whole man, for the God-man as well as for spirit-matter. It is important to have this in mind, for when the nature of the world is revealed, then the mystery of the Sphinx will no longer exist.

The keynotes of this sign are exceedingly well known. They sound out the note of individuality and of true self-consciousness. Many people are convinced that they are self-conscious when they are only swayed by desire and are oriented towards the satisfaction of that desire or when they recognise themselves as the dramatic centre of their universe. Yet the only truly self-conscious person is the man who is aware of purpose, of a self-directed life and of a developed and definite life plan and programme. Where these are present, the inference is that there is mental perception and some measure of integration. To be motivated only by emotion and actuated by desire is no indication of true self-consciousness. In the undeveloped man, it is far more instinctual than is self-awareness. In the truly developed self-conscious man not only is direction, purpose and plan present, but also a consciousness of the active agent of the plan and action. Ponder on this.

There are two subsidiary yet potent keynotes of the Leo person upon which I should touch at this point if the nature of the influences wielded by Leo are to be clearly perceived. These are the will-to-illumine, which constitutes the driving urge towards self-knowledge, self-perception and intellectual positivity, and also the will-to-rule and to dominate, which is of such a controlling nature in this sign and such a subtle potency in the Leo type. It is this will-to-rule which leads a person born in this sign eventually to achieve self-mastery and the control of the personality (for either a good motive or a selfish one), and it is also the same tendency which leads him finally to the control by the personality, ruled by Leo, of groups and large or small bodies of people. This—at an advanced stage—is an expression of the fusion of Leo energy and Aquarian potency. It is inevitable in the long run for men and races; for this all experience in Leo is preparatory. The will-to-illumine is that which drives all Leo people on to experiment and so to gain knowledge; it is this which links them with Taurus, which "carries the fair jewel which gives light upon its forehead." In the relationship of Taurus-Leo-Aquarius, you have a significant and important zodiacal triangle as far as man is concerned and it is peculiarly significant to the fourth Creative Hierarchy, the human Hierarchy. You have, therefore:

1. Taurus.—The incentive towards experience in order to gain knowledge.
2. Leo.—The expression of experience in order to justify knowledge.
3. Aquarius.—The use of experience in order to make the gained knowledge a factor in service.

This triangle expresses the life of humanity and it demonstrates finally the perfection or consummation of the human way. Another triangle is of a somewhat similar nature, Leo-Virgo-Pisces, but these three produce a still more subtle expression of consciousness.

1. Leo.—The self-conscious man. Personality. Lower unity.
2. Virgo.—The latent Christ life or principle. Duality.
3. Pisces.—The group conscious soul. The world Saviour. Unity.

You will note how consistently the emphasis is laid upon consciousness and its progressive unfoldment, and not upon the form or the aggregate of forms which veil the conscious entity of whatever nature or grade of being. Just as *A Treatise on Cosmic Fire* endeavoured to give the psychological key to *The Secret Doctrine* and to interpret the underlying consciousness which the Beings (considered in *The Secret Doctrine*) express, so in *A Treatise on the Seven Rays*, I am carrying on the same idea and, at the same time, seeking to give the needed key to modern exoteric psychology and also some indications as to the astrological key to *The Secret Doctrine* to which H.P.B. refers. The Entities dealt with in her masterpiece of

esoteric truth are here revealed as cosmic, solar and planetary influences evoking—in response to Their outpoured energy or vibratory activity—an awakening of consciousness in the form so that it becomes aligned to or closely related to Their Own. All revelations appear to emerge into the consciousness of the race in their lowest or most material form because the "ascent of knowledge towards wisdom" is always the key to progress, and, therefore, exoteric psychology and exoteric mundane astrology had to precede the revelation of their significance; the nature of the form had to be made apparent and man accustomed to it before the meaning behind the form could be revealed.

You may ask what is the reason for this mode of procedure? I can give you one among many which, with a little intuitive reflection, should be convincing to you. The understanding and the reasoning powers of the soul are complete and developed. But souls—oriented towards incarnation and the will-to-sacrifice—have not, as yet, the necessary forms in the three worlds which are adequate for the expression of the knowledge which the soul has on its own plane and level of awareness. If the inner meanings of the outer symbolic forms of existence were registered by an unprepared form (the response apparatus of the soul in the three worlds and, in the case of man, involving an unprepared and undeveloped nervous system, glandular system and brain) the destruction of the form by soul energy would naturally supervene and a shattering of the lower expression would take place. It is here that the significance and purpose of time can be noted and intelligently employed, but this involves a most definite development of the esoteric sense. There are other reasons, but this one will suffice. In the evolutionary process there is, therefore, first the form, gradually prepared, adjusted, aligned and oriented during many aeons of time; behind this active form, as it steadily improves and becomes more responsive to environment and contact, stands the slowly awakening consciousness. This is the thinking, intuiting, loving soul, which tightens its hold over its response apparatus, avails itself upon every possible occasion of every advance made by the form, and employs every influence for the perfecting of the great work which it undertook under the Law of Sacrifice.

It is for this reason that I have not attempted in this Treatise to prove—scientifically and in the modern exoteric sense—the natural response to the inner psychological factors and to the esoteric astrological influences. These can be easily demonstrated and instantly made apparent once modern science accepts the occult premises, even if only in an experimental and hypothetical manner. I am confining myself entirely to the theme of the unfoldment of consciousness, of meaning and of significances and of the response of this conscious entity to the many influences and vibratory impacts to which it is subjected on account of its being an integral part of other and greater Lives. Ponder on this. This is my frequent injunction, given because the activity of reflection is a potent means to revelation.

I have sought to bring the above thoughts to your attention because the sign we are now studying is one in which the theme of self-consciousness lies open to the investigator. Mass consciousness in Cancer gives place to individual consciousness in Leo. Out of the mass or the herd emerges the self-sufficient unit which becomes increasingly aware of its oneness, its aloneness and its isolated attitude as the "one in the centre" of its small cosmos. This attitude continues to develop and to become emphatic and dynamic (I use these words with intent), leading to the pronounced ego-centric consciousness of the selfish, intelligent man and to the ambitious display of selfish power of the man who desires place and position. But eventually the time comes when the nature of the Fixed Cross begins to dawn upon the consciousness of the man and the influence of Aquarius (the polar opposite of Leo) begins to balance that of Leo. Then there comes the gradual shift of the focus of attention away from the "one who stands alone" to the environing group, and an equally important shift away from selfish interests to group requirements. This gives concisely the objective which is attained by the man upon the Fixed Cross; the effect of that Cross is to bring light and liberation. This can be clearly seen if we contrast the energies of the four arms of the Cross as they are demonstrated by the man both before and after the long and drastic experience upon the Cross.

1. Taurus.—The Bull of Desire. The light of aspiration and knowledge.
2. Leo.—The Lion of Self-assertion. The Light of the Soul.
3. Scorpio.—The Agent of Deception. The Light of Liberation.
4. Aquarius.—The Chalice of Self-service. The Light of the world.

The Fixed Cross is the cross of light. And playing through this Cross all the time, and emanating from Leo, are the "fires of God"—cosmic, solar and planetary—producing purification, the intensification of the light and eventual revelation to the purified man who stands in light. From Aries comes cosmic fire; from Sagittarius comes planetary fire; and from Leo comes solar fire; and each of these fires "clears the way by burning" for the expression of the three divine aspects: spirit (Aries), soul (Leo) and body (Sagittarius). Such is the scientific basis for the yoga of fire, applied by the fully self-conscious man to the reflection of

[Page 294] the three divine aspects in the three worlds; these are the three modes of divine expression in these three worlds. Such is the significance of the fact that it will be found that before the Door of Initiation lies the burning ground which all disciples and initiates must tread. The Leo subject treads this burning ground with will and self-effacement. When he has reached full self-consciousness and mental integration and when he has attained personality effectiveness, then he treads it—undeterred by pain.

A little thought will make it apparent to you why the Sun is the ruler of all the three conditions of Leo—exoteric, esoteric and hierarchical. It is a correct surmise that the purpose of this solar system is the unfoldment of consciousness, and if for the strictly human being self-consciousness is the goal, then the Sun must obviously rule, for it is the source of physical consciousness (exoteric and symbolic of the personality), of soul awareness (esoteric), and of spiritual life (hierarchical). I am reiterating the necessity to recognise the stimulation of consciousness as the objective of all the astrological influences because the outstanding theme of Leo is the activity of the self-conscious unit in relation to its environment or the development of sensitive response to surrounding impacts by the one who stands—as the Sun stands—at the centre of its little universe. The whole story and function of Leo and its influences can be summed up in the word "sensitivity," and this sensitivity can be studied in four stages:

1. Sensitivity to conditioning impacts from the environment, i.e., to the impacts of the world of human evolution, the three worlds or planes, through the medium of the three aspects of the response apparatus of the soul;
2. Sensitivity to the will, wishes and desires of the personality, [Page 295] the integrated self-conscious man, the lower self;
3. Sensitivity to the soul as the conditioning factor instead of sensitivity to the environing world as the conditioning factor;
4. The spiritual sensitivity of the God-Man (the soul and personality fused) to the environment. At this stage of unfoldment, the liberated man is not conditioned by his environment but begins the arduous task of conditioning it in relation to the divine plan and purpose and at the same time to cultivating sensitivity to the higher impacts of those worlds which lead to the final goal.

I want you to have this innate spiritual sensitivity and this outer material sensitivity most carefully in mind if you want truly to understand the influences of Leo upon human beings and especially upon the person born in this sign or who has this sign rising, as well as its influences upon the planet. Throughout the universe, it is the soul which is the conscious, sensitive theme of the divine plan—the soul as the anima mundi, or the soul of the world, animating all forms of life below the animal kingdom; the soul as the animal soul and the extension of this to the bodies of all animals, including the human physical body; the soul as the human soul, which is a still further expansion of the same sensitive factor but augmented or stimulated by the principle of self-awareness or of focussed personal sensitivity to all sub-human soul expression, plus awareness (conscious or unconscious) of the immortal or divine soul; the soul as the ego or spiritual soul on its own plane—the source of consciousness as far as the three worlds of evolution are concerned, and the goal of all present evolutionary processes.

The three aspects of the Sun (as dealt with in *The Secret Doctrine*) are of importance at this point, because influences flowing through and from them bring the entire subjective and latent world consciousness to the fore and produce eventually (at the final revelation and liberation) the full expression of the consciousness of Deity. This can be called divine sensitivity, the universal mind or the divine plan or purpose. Words are inadequate to express that of which the highest initiate as yet knows but little. These three aspects of the Sun are the factors which bring consciousness to the birth and make the ultimate goal attainable; they make all forms of consciousness possible because these are rooted in the Sun (symbolically speaking) and are an inherent aspect of the greater whole.

1. The physical Sun—the anima mundi; the animal soul. Multiplicity.
2. The heart of the Sun—the human soul and the divine ego. Duality.
3. The central, spiritual Sun—the divine consciousness. The will of the whole. The awareness of God. Unity.

As you have been told, the Sun veils certain hidden planets, and in the case of Leo, the two planets through which the Sun focusses its energy or influences (like a lens) are Neptune and Uranus. The "heart of the Sun" employs Neptune as its agent, whilst the central, spiritual Sun pours its influences through Uranus. The activity of Uranus is, however, only registered at a very advanced stage of development upon

the Path and is analogous to that point in the unfoldment of consciousness wherein, by an act of the will, the conscious and illumined man (focussed in the highest head centre) arouses the centre at the base of the spine and draws the kundalini fire upwards. Making a broad and consequently [Page 297] somewhat inaccurate generalisation, it might be said that this process is followed upon the three Crosses:

1. Upon the Mutable Cross, it is the physical Sun and its influences which affect the man, stimulate the bodily cells and sustain the form nature, affecting the centres below the diaphragm.
2. Upon the Fixed Cross, it is the "heart of the Sun" which is called into activity and which pours its energies through Neptune upon man. These stimulate and affect the heart, the throat and the ajna centres.
3. Upon the Cardinal Cross, it is the central, spiritual Sun which is called into play, and Uranus is then the distributing agency and the head centre becomes the centre in the initiate's body through which direction and control come.

In connection with the Mutable Cross, the rays of the Sun in a threefold form (combining the lowest energies of the threefold Sun) pour into and through the man, via Jupiter. Jupiter is the agent of the second ray which the Sun expresses—cosmically and systemically.

Hence the triple relation of the Sun to Leo which is unique in our solar system, and hence the importance of the triangle which controls the man born under Leo—the Sun, Uranus and Neptune. The energy of Leo is focussed through the Sun, and is distributed to our planet via the Sun and the two planets which it veils.

Neptune, being the sign of the Deity of the waters, is related to the sixth ray which governs the astral or emotional plane of desire. When Neptune is thus active in the advanced Leo subject, then emotion-desire have been transmuted into love-aspiration and are dedicated to and oriented to the soul; the entire emotional or sensitive nature is responsive to energies coming from "the heart of the Sun," and when this is the case, it indicates that the disciple is now ready for the second initiation. This orientation is brought about by what is called "the sublimation of the influence of the Moon" which is, as you know, the mother, symbolically speaking, of the form nature and reflects the Sun, or the Father aspect. The above statement is exceedingly occult in its significance. Esoterically speaking, you have the emergence of an interesting triangle of force which affects the Leo subject—the Sun, the Moon and Neptune; these are an expression of Rays 2.4.6 and, where these three are dominantly active, you have the establishing of that "inner alignment and attitude which forces open the Door into the Holy Place." I use these old phrases here because they express concisely what it would take many pages to elucidate and because they have that note of esoteric stimulation which awakens, in the disciple, the power of abstract thought.

In connection with the horoscope of the Leo subject and the theme of initiation, I would point out that when the Sun, the Moon (hiding a planet) and Saturn are all combined in a certain house in the horoscope you have what is called the "sign" of the man who is to take initiation. Leo, being the fifth sign of the zodiac, counting from Aries via Taurus, and also the eighth sign, counting from Aries via Pisces, is closely connected through numerical affinity with Mercury, who is esoterically called "the Messenger at the eighth gate"; Mercury was active at the time of individualisation when the "eighth gate" was opened and a major initiation of our planetary Logos took place, producing, in the human kingdom, the process of individualisation.

From another angle, as might be anticipated, Leo is related to Scorpio, whose numbers upon the zodiacal wheel are the same as those of Leo, being five and eight. You have, therefore, the formation of the triangle to which I earlier referred: Leo-Scorpio, leading to initiation in Capricorn.

As we are upon the subject, one other point might be touched upon here. August, which is ruled by Leo, is the month of the Dog-star, or of Sirius, which thus brings Sirius into close relation to Leo. Leo, in the cosmic sense (and apart from our solar system altogether) is ruled by Sirius. Sirius is the home of that greater Lodge to which our fifth initiation admits a man and to which it brings him, as a humble disciple. Later, when the new world religion is founded and is working, we shall find that the major, monthly festival in August, held at the time of the full moon, will be dedicated to the task of making contact, via the Hierarchy, with Sirian force. Each of the months of the year will later be dedicated (through accurate astrological and astronomical knowledge) to whichever constellation in the heavens governs a particular month, as Sirius governs Leo. This I shall later elaborate in the papers to be written anent the new "Approaches" to spiritual reality.

Mercury again comes, at this point, into our discussion, and you thus have the formation of an esoteric quaternary, affecting powerfully the major quaternary of man—spirit, soul, mind and brain. This energy

brings about an inter-relation and an inner awakening which prepares the aspirant for initiation. This higher quaternary is Sirius-Leo-Mercury-Saturn. You have, therefore:

Sirius	Leo	Mercury	Saturn
Spirit	Soul	Mind	Brain.
Life	Quality	Illumination	Appearance.
Inhalation	Interlude	Exhalation	Interlude.

The above tabulation gives you the clue to the basic reality and necessity of meditation as practised by the disciple and the initiate. This may not be apparent to you at first sight and I may not further expand these suggestions, but the directed reflection of the illumined mind may bring insight to you in time. The influence of Sirius is not consciously felt until after the third initiation when the true nature of the spirit aspect begins to dawn upon the liberated, intuitive perception of the initiate. For the advanced initiate in this sign, and after the third initiation, Sirius becomes a major life factor. He begins to respond to its vibration because he now rules the Sun and the Moon and is controlling those two planets, for that is what the Sun and the Moon have become to him—simply planets to be ruled. This is a great mystery and I simply state the fact. Sirius, Leo, the Sun, the Moon and Mercury are now the influences with which the initiate is concerned. The influences of Sirius, three in number, are focussed in Regulus, which is, as you know, a star of the first magnitude and which is frequently called "the heart of the Lion." There is more real occultism hidden in the names given to the various stars by astronomers down the ages than has yet been realised, and here you have a case in point.

It will be apparent to you (given a little thought) that the Sun, as it veils Neptune, produces a potent effect upon the personality, symbolised for us here by the astral body, whilst Uranus (which is also veiled by the Sun) symbolises the effect of the soul upon the personality. Hence the activity of the seventh ray, which is—from one angle—the lowest aspect of the first ray. Hence you have also the underlying idea of:

1. The awakening of the personality to soul control and contact, with a true expression eventually, in the three worlds, of soul-will, desire and intent.
2. The awakening of the seventh centre, the centre at the base of the spine, by the soul working through the first or highest head centre and producing (as a consequence) the surging upwards of the kundalini fire. This, in its turn, produces fusion with the higher forces. When this takes place the three major centres in the body are:

The Head	The Heart	The base of Spine
Central spiritual Sun	The heart of the Sun	The physical Sun.
Sirius	Mercury	Saturn.
The Sun	Uranus	Neptune.

As the above alignment corresponds to a very high stage of initiation, it will not be possible to grasp all the implications, but enough may be apparent to reveal the underlying theme and purpose of the great work.

Several major triangles of force were active when individualisation took place and the "Lions, the divine and tawny orange Flames" came into being and thus humanity arrived upon the planet. I would touch here briefly upon one triangle: The Sun (second ray), Jupiter (second ray) and Venus (fifth ray). It will be apparent to you that we here have another sphere of influence of major importance, governed by Leo. It is a triangle to which H.P.B. refers in *The Secret Doctrine*, the influence of which she was endeavouring to elucidate. So potent was the influence of this triangle that its effect upon the Moon was to denude her of life by drawing out all the "seeds of life," thus destroying her influence, for it was undesirable where humanity was concerned.

Through Uranus, Leo is related to three other signs of the zodiac: Aries, Libra and Aquarius, and these three constellations, with Leo, form what has been called "the subjective quaternary of the reincarnating soul" because they are related to the permanent atoms which persist from life to life and which form—during the cycle of reincarnation—the repositories or the storing houses of the experiences undergone during life in the three worlds.

1. Aries—is connected with soul intention, the vibratory activity of which (under impulse from the Monad) initiates the successive involutionary periods which produce appearance upon the physical plane.

2. Libra—is related to the mental unit and, as we saw when studying the sign Libra, produces eventually a balance between the pairs of opposites. This is brought about upon the astral plane. It is the attainment of this balance which produces the reversal of the mode of passing around the zodiacal wheel and it takes place when integration has occurred, and the man is focussed upon the mental plane. He can, then, through right use of the mind, discriminate between the pairs of opposites and find the narrow razor-edged path which passes between them and keep his balance upon it.

3. Leo—is connected with the astral permanent atom, for the reason that desire or the power to go forth and occultly touch that which is desired is the basis of all sense of awareness or responsiveness and the underlying cause of progress or evolutionary movement forward; it is the keynote of the man who has achieved that true "self-centred" attitude which makes him an individual. Later, as responsiveness grows and the world of small affairs is converted into the world of ever larger [Page 303] values and reality, the desires change into aspiration and finally into spiritual will, purpose and intent.

4. Aquarius—is eventually connected with the physical permanent atom which is, as you know, upon the etheric level. It is this individual web which is the medium of relationship to the whole. The universal consciousness of Aquarius becomes expressive just in so far as the individual etheric body is in conscious relation with the etheric body of humanity, the solar system and—of course—the planet.

I would here point out that the term "permanent atom" is essentially symbolic and that what we call the permanent atom is in reality only a unit of energy within the sphere of influence of the soul ray which can at any time "pick it up" (if I may use so un-euphonious a phrase). In these atoms the past memory of the personal self is stored; these are in the nature of "memory cells" and are the repositories of past experience, of gained quality, and of the particular note which the body of which it is the nucleus has achieved. They are material in nature, are connected only with the form aspect, and are imbued with as much of the quality of consciousness as the soul has succeeded in developing in the three worlds. The whole subject is most abstruse and will be only understood, and the symbolism involved rightly interpreted, when clairvoyance is a normal attribute of average man. Then the focus of the substance in any form (its galvanising centre) can be seen. I do not here advise much reflection on the subject, as it is an exceedingly difficult one, constituting, in itself, a very advanced science, and embodying the mystery of the first solar system, the past—again the memory cells give their contribution. It is through the permanent atoms that the Forces of Materialism can work; the Great White Lodge works through the seven centres.

Aries begins the process and is the "initiator of the process which leads to progress" and—at the end of the age (as it is now at the final or seventh initiation)—the Initiator of the Mysteries will work under instructions and with energies which emanate from the Lord of the Constellation Aries. In the last analysis and esoterically speaking, fire is the great liberator and Aries is the leading fire sign which will eventually "fuse the beginning and the end, blend the opposites and dispel both time and space." At present, the Initiator of the Mysteries acts under inspiration and with energies emanating from Capricorn—an earth sign—because humanity is, as yet, earth-bound. The forces of initiation produce their major effects upon the physical plane, for it is there that the initiate has to demonstrate his liberation, his understanding and his divinity.

Because of its position upon the Fixed Cross, Leo comes under the influence, direct or indirect, of six planets: The Sun; Neptune; Uranus; Jupiter; Venus; Mars. All of these are potent in expression in this sign, achieving a determined point of revelation and producing, through their united activity and interplay, the six-pointed star of humanity. They condition the man's consciousness but not events, except in so far as his consciousness assumes control at a certain point in his evolution. Connected with the esoteric science of astrology are subsidiary sciences, such as the Science of Triangles, to which I have frequently referred; there is also the Science of Relationship, which concerns the relations between the many quaternaries which can be discovered in the planetary interrelation, the relation between four constellations, plus many human and divine quaternaries. There is again the Science of Stars of Energy, [Page 305] such as I have here noted when referring to the six-pointed star of humanity, and of this Science King Solomon's Seal is the well known symbol. These stars, triangles and squares are found in all horoscopes—human, planetary, systemic and cosmic—and constitute the life pattern of the particular Being under investigation; they determine the time of manifestation and the nature of the emanations and influences.

The squares or quaternaries relate to material appearance or form expression; the stars concern the states of consciousness, and the triangles are related to spirit and to synthesis. In the archives of the esoteric astrologers connected with the Hierarchy, charts are kept of those members of the human family who have achieved adeptship and upwards. They are composed of superimposed squares, stars and triangles,

contained within the zodiacal wheel and mounted upon the symbol of the Cardinal Cross. The squares, having each of their four angles and points in one or other of four zodiacal constellations, are depicted in black; the five-pointed star is depicted yellow or golden colour and its five points are in contact with five of the constellations on the great wheel; the triangles are in blue and have, above each point of the triangle, an esoteric symbol, standing for the constellations of the Great Bear, Sirius and the Pleiades. These symbols may not here be revealed but indicate the point of spiritual consciousness achieved and the responsiveness of the initiate to these major cosmic influences. A glance at these geometrical charts will indicate in a moment the status of the initiate, and also the point towards which he is striving. These charts are fourth dimensional in nature and not flat surfaces as are our charts. This is an interesting piece of information but of no value, except in so far that it indicates synthesis, the fusion of spirit, soul and body, and the point of development. It proves also the fact that "God geometrises" where the soul is concerned. These charts are most interesting.

The relation of Leo to Cancer, through Neptune, has already been touched upon above and is, of course, easily apparent to you if you have the slightest understanding of the consciousness aspect of evolution. There is, first of all, the mass consciousness; then the consciousness of the dramatic, isolated self, and finally again group consciousness, which is, in reality, the highest forms of group consciousness and individual consciousness combined together in the service of the Plan. Reflect on this definition, for it will stimulate you to understanding.

The peculiar significance of Leo in the general evolution of consciousness, particularly in the human family, is determined by the control of those two mysterious planets, Uranus and Neptune; in the man who is ready for initiation you have, therefore, a dual control, i.e., the Sun itself and also the Sun as it veils the influences of these two planets, or rather, as it focusses and transmits them with intensity. This produces the following developments:

1. The Sun—Full self-consciousness. This—through the influence of the physical Sun and the "heart of the Sun"—produces awareness of the relation of the higher self and the lower self. Man becomes aware of his essential duality.
2. Uranus—Occult consciousness or that intelligent, fusing condition which produces the scientific at-one-ment of the two factors, higher and lower self, through the intelligent use of the mind.
3. Neptune—Mystical consciousness or that innate sensitivity which leads unerringly to the higher vision, to the recognition of the inter-relation involved in man's [Page 307] essential duality during the process of manifestation, plus the activity of the mediator.

You have, therefore, the conscious, integrated Self, functioning with full occult knowledge and also with mystical perception when the influences of Leo, focussed through the Sun, Uranus and Neptune, have been carried adequately forward in the life of the advanced disciple. This is one of the reasons why Leo is a sign of such paramount importance and why the intelligent Leo subject can usually attain his goal, once he accurately perceives that objective.

This sign has frequently been described as the "battlefield of the Forces of Materialism and the Forces of Light." It is occultly regarded as one of the most material signs, in-as-much as selfish desire for possession of material objectives can be peculiarly present and the display of the possessive spirit can violently control; yet, at the same time, the advanced Leo person can function as the "inspired spiritual Sacrifice." He is then sensitive to world conditions and freed from personal desires.

Before individual man can achieve initiation, he must be fully self-conscious, mystically oriented and occultly developed. He must be aware of himself as he essentially is—a soul involved in form which is itself developed and unfolded through soul activity; he must be a developed mystic, capable of pure vision, motivated by spiritual intent and able to perceive the uses of inherent sensitivity; he must also be a trained occultist, mentally polarised and profoundly aware of the realities, forces and energies of existence and, therefore, free from the ordinary glammers and illusions which colour the reactions and life of the average man. He is then governed by the physical Sun, motivated by the energies pouring from "the heart of the Sun" (via Neptune) and bringing about at-one-ment through the forces which are reaching him (via Uranus).

Beyond these two distant planets, lies another planet as yet undiscovered, though speculation is rife about it, owing to certain unexplained movements of the planet Neptune. It is through this planet that the Forces (as they are related to Leo and Aquarius) are focussed in one potent stream of force; these pour into our planetary life during the month of August, and distribute themselves, via Uranus and Neptune. You have, therefore, in this connection:

LEO AND AQUARIUS

The physical Sun Heart of the Sun Central spiritual Sun.

/

The undiscovered planet.

/

Uranus and Neptune.

/

The human Hierarchy.

/

The animal Kingdom.

Charts of the cosmic lines of directed forces such as the above can be given for all the energies of the constellations and planetary forces, but this is the only one I choose, at this time, to indicate, because it is of major importance to humanity; the others might prove misleading, given man's present point of intelligent understanding and influence.

I would here call to your attention that, through these directing planets, the following rays are controlling factors in the chart of the Leo subject:

1. The Sun—2nd ray—love-wisdom.
2. Uranus—7th ray—organisation or directed manifestation.
3. Neptune—6th ray—idealistic one-pointedness. Devotion to an objective.

In the perfected Leo, the loving self-conscious soul (2nd ray) carries its power of expression straight through from its own plane to the plane of exterior manifestation, but preserves at the same time its interior control (Uranus) and from that point of achievement, proceeds to make its ideal objective (Neptune) a fact in consciousness, through sensitivity to the higher vibration and directed intelligent service of the Plan. Ponder on this summation.

When Uranus controls, the Leo person is significantly the true observer, detached from the material side of life, but utilising it as he pleases. His spiritual consciousness is capable of great expression and he can be (as has oft been pointed out by astrologers) both an electric, dynamic leader, a pioneer in new fields of endeavour and also a magnetic centre of a group whether the group is small, as in a home, or vast as in a nation. He is then polarised above the diaphragm, for the lower more material aspects of life have really no great appeal to him; he is then profoundly conscious of his own identity, and this makes him dwell definitely in a state of self-awareness, with its consequently abstracting powers. He is instantly aware, once he is spiritually awakened, of his motivating impulses, and this leads him to an imposed self-discipline—the thing the Leo subject sorely needs and which must always be self-imposed and self-applied for he brooks no disciplinary measures which others may seek to impose. Discipline imposed by people upon the Leo person leads invariably to revolt and rebellion and the expression of that which the discipline is intended to eradicate. Discipline imposed by himself leads to the perfection of which he is notably capable. It is this innate ability to control which frequently gives the Leo subject an apparently negative attitude to life; he inevitably believes that his destiny is determined and that all that he has to do is simply to be; he refuses often then to change or to take action, and when this is carried too far it leads to an unexpectedly futile life. The "lion must emerge from its lair," and this injunction is badly needed by Leo aspirants. It will, when followed, lead the self-centred Leo consciousness into the decentralised, selfless Aquarian awareness. It will alter the self-service of Leo into the group service of its polar opposite, Aquarius. It might appropriately be added here that the prayer or voiced aspiration of the true Leo person can be expressed in the words of Christ, so well known to all of us: "Father, not my will but thine be done."

I would also call your attention to another interesting fact in connection with this sign. No planet falls in Leo and no planet is exalted in this sign, whilst the power of both Uranus and Saturn is somewhat lessened, except in the case of the initiate who responds powerfully to the esoteric influence of Uranus. The same basic teaching is here conveyed as was taught by the Sun ruling exoterically, esoterically and hierarchically. Leo in its consciousness is the dominant self-aware agent and has therefore the control and can—because of this—remain uninfluenced. This fact will be increasingly understood as the advanced Leo subject makes his appearance. He will be distinguished by his personal freedom from outside control. He knows innately that he is king of himself, the ruler of his own life and, therefore, no planet is exalted and likewise no planet falls. The power of the mind, as symbolised by Uranus, is lessened, for it is not the mind which in reality controls but the Self, or Soul, using and controlling the mind. The man is not then conditioned by his surroundings or life events but rules them with deliberation, bringing out of

circumstances and environment that which he requires. Saturn, therefore, the Lord of Karma, has his power lessened in this sign.

Self-rule through initial conflict, carried to a successful issue and blessed by the beneficence of Jupiter, is the true history of the advanced Leo aspirant, and this thought and the objective result of this realisation is summed up for us in the two word mottoes of this sign:

1. And the Word said: Let other forms exist. I rule because I am.
2. I am That and That am I.

I Am—the Word of the self-conscious, selfish, individual Leo.

I Am That—the Word of the Leo subject who is rapidly gaining the higher consciousness and preparing for fresh and universal expression in Aquarius.

Conclusion (at this point):

May we consider together entering into that higher state of (group/soul) 'bewilderment' from our lower state of personal certitude.

Although this addendum is almost the whole Leo specific text from EA we felt it was good to include so much hypothetical information since it summarizes and ties so many aspects of esoteric astrology and the other constellations together in a way that relates to every individual since we all have an individual aspect of mind to which we are hopefully striving to orient more towards a higher group purpose.
