

## Full Moon of Libra, seventh Full Moon of this Astrological Year, on Friday, September 29, 2023 at 12:57:20 in Romania:

The main Keynote or phrase to consider for all Libra Full Moons (each year): **“I choose the way which leads between the two great lines of force.”** The Libra Full Moon Keynote of Light each year is: **“The Light that moves to rest. (Hint 1: This is the light that oscillates until a point of balance is achieved. Hint 2: It is the light which is distinguished by a moving up and down.)”** Consider the Keynotes at, or as close to, the time of the Full Moon as possible and what it might mean as a Group. Each of the constellations also have at least one, but also as many as five, Ray determining energies by which they rule and of which they rule. **The main Ray energy of Libra is Ray 3.** So, Libra has a main energy of Intelligent Activity. It is a recommendation to consider the Libra Keynotes as Ray 3 Keynotes. This is a direct correspondence to the information of our Color Consultations and the way this same Ray determining affects us individually and in our relationship to our group. So, our Color Consultation information can be reviewed and related to each of the Full Moon determining energies to determine the possible effects and opportunities each Full Moon offers each of us personally and in relationship with the group. This was explained and expanded upon from Esoteric Astrology (EA) in general in Addendum 1 from the past Aries Full Moon report (from April 2021). This year we are adding information on how each constellation works as a Triangle in what are called the Astrological or Galactic Triangles. Addendum 1 from the last Aries Full Moon report (from April 2023) is a general introduction about the triangles formed with the 12 Astrological signs and other more distant stars and galactic constellations, taken from EA. Addendum 1, below, relates specifically to Libra and how it fits into the galactic triangles. Libra is the seventh sign of the Astrological year and the fourth of the nine distributing or ‘grounding’ energy and consciousness Full Moons of the year. It continues and helps to distribute or ‘ground’ the higher building cycle consciousness from the first three months of the astrological year of Aries, Taurus, and Gemini (April, May, and June). Addendum 3 from the last Aries Full Moon report (from April 2023) is some additional information on the full moons and possible meditation forms.

### A. Notes on this coming Full Moon of September/Libra:

1. **Watch for any impressions** that may come to you before the Full Moon that may relate to the Ray 3 Keynotes and your specific Rays (from your Color Consultations), especially two days before the Full Moon, the day of the Full Moon and two days after the Full Moon. **If you want to share** any of your impressions with us please do. If you want any impressions shared with the group let us know and we will include them in the next month's meditation notes.
2. **This is the seventh of twelve Full Moons of this Astrological year** and is the fourth of the nine different ‘Distributing Consciousness and Energy’ full moons of this astrological year. The energy which was built and gathered during the first three ‘Building’ Full Moons at the beginning of the astrological year (of April, May June), which is also called the ‘higher interlude’, will now be distributed over the next last nine Full Moons during the end of the astrological year, which is also called the ‘lower interlude’.
3. **Addendum 1 from the Full Moon report of Aries (from April 2021) gives reference into more insight and inspiration for how to** view some of the expanded awareness of these monthly and yearly Full Moon cycles as we enter into the fifth Astrological Year of this group formation and the group's beginning functioning.
4. **Addendum 1 below** relates specifically to Libra and how it fits into the galactic triangles. taken from EA.
5. **The 2023-4 astrological year Annual Keynote is,** “LET THE GROUP AFFIRM THE WILL AS AN EXPRESSION OF THE LAW OF SACRIFICE.”

### B. Notes and Activities on or since the last Full Moon August/Virgo:

1. **SuonAngelMiriam meditated at the time of the new and full moon and Fall Equinox, together with Safi (when she wanted).** We had what we consider very good meditations of positive grounding of this astrological year's continuing of the Lower Interlude especially at the time of the Virgo New moon.

Since the first and highest of the Golden Light Presence crystals, ‘MilkyWay’ has arrived we are also tuning in to our respective Nirvana IV<sub>1&2</sub> occult group of crystals during our meditations and sensing an increase of energy due to these crystals.

2. **SuonAngel are talking with 2023 Timisoara Cultural Capital office about a cooperative event possibly named 'SAMatate'** between Favisan, BFL/SolarCity (The Natural Way Assoc. - TNWA), the Hemp Museum, SAM2013 and possibly Anatacor and Aurellian's or other groups for the Cultural Capital celebrations rescheduled to 2023. See the previous meditation report for April for past historical information about this event.
3. **The Group Central Pillar Crystals** and the Esoteric and Occult crystal sets are now finalized along with any rearranging of the other crystals of the set for the 2025 impulse. Please let us know if you would like to explore any of these crystals or have any other input (see photo in previous FM report of Gemini of June 2022). **The three natural triple pointed crystal clusters** are always available for any group members who would like to meditate with them as another way to tune into group consciousness (see previous photo from March 2022 Pisces report). **Of three new 'Circumcentral' crystals two are still on a Lay-Away plan** to be here by the Summer Solstice of 2025 for the Hierarchical Group Impulse year of 2025 and the first has arrived before the recent past Full Moon of Taurus (see photo below).
4. **Poppy research at BioFarmland** (BFL) at Virginia's suggestion. Seeds from this year's wild Poppy harvest were collected and planted in last June for growing during the 2024 season.
5. **Revised and renewed Hemp Museum suggestion** presented to Zoli, Virginia, and Leontina as a possible group project. There was similar input about local, village or household museums from the "Socio-Economico-Cultural Rebirth of the Romanian Village" conference in Item 2 above.
6. **Based on Leontina's previous intentions to establish an educational location near her home further discussions are going on about** a location, financing, possible links to other hemp projects and people. An initial estimate to get a small workshop space built on her land, for materials with mainly voluntary labor or construction, is 3,000 Euros.

Leontina has created the Sopronul Cultural ( The Cultural Shack) which is a roof on the spot where people camped last time and where she is holding events together with Pamantul Stramosesc. She has organized there markets, courses for children, seeds exchanges, concerts, etc. The idea of the cultural space for the moment has moved there and she is focused on Pamantul Stramosesc where she is a founder member together with Calin Georgescu. There was an event now with the occasion of 1<sup>st</sup> of May, held at the Sopronul Cultural together with Pamantul Stramosesc which consisted of a Plasma and Plasmatic water making and another of hemp soap making.

Following the event all present together with Leontina discussed about the possibility of building a geodesic dome structure, 9 meters in diameter and 4.5 meters high, as a protected space for the Sopronul Cultural workshops, courses etc. For the moment the period agreed upon for the beginning of the structure is the end of July, exact dates following to be settled together with Pamantul Stramosesc. Anyone who is interested in helping the building of this structure please contact us or Leontina directly. Due to challenges encountered with the political system at her home location, Leontina has decided to stop for the moment Sopronul Cultural and the building of the dome until the environment becomes more friendly to her projects.

7. **SuonAngelMiriam have met personally with Georghe Piperea** and joined his class action law suit against the constitutionality of mandates which is moving forward as discussed in the Full Moon cover letter for Capricorn (2021). September 2022 hearing produced a change in how and who the law suit will be claiming as the defendants and is continuing. Recent meetings at Singfest in September and December 2022. Let us know if you have additional comments or questions. Next meetings scheduled for June 30 to July 2, 2023 at Singfest 2023 were not able to be attended but the law suit is continuing now at the appeal stage of litigation.

8. **SuonAngelMiriam are continuing our interaction with Katharina documenting** how to manage and implement new and better ways of herb growing, drying, processing, soil regeneration, etc.
9. **SuonAngelMiriam are interacting with Virginia on her Bio-Resonance and Herbal and Aromatherapy courses, consultations** and treatments along with the consideration of the SAM2013 Synthesise Tri-Level Color Set as liquids. Updated at meetings in September and October 2022, continuing with Virginia's Certified Herbal and Aroma Therapy courses #1 and now #2 which was in March 2023 and had another meeting at EsotericFest in June 2023 (also see Item #2 above). The next meetings are planned for this Summer and Autumn.
10. **SuonAngelMiriam are working with Remus and others on updating and expanding** one of his personal spirituality courses on Self Esteem as an Esoteric Group project. Anyone interested in knowing more or helping in this group project please let us know. Latest update was at EsotericFest in June 23 with another meeting being planned for this autumn.
11. **We participated in Remus' course about Stress Management** held through anatecor which is related to Virginia's fitotherapy course. We also attended the prayer zoom meeting he and Anatecor organized for the professor Mircea Stefea who passed recently.
12. **SuonAngelMiriam are working with Aurellian on how some of the concepts of his book and course** on "The Numerology of the Soul" might relate and correspond to the SAM2013 Synthesis Tri-Level Color System numerology. Both Aurellian and Suon have had direct contact with Yogi Bahjan who taught the numerology of the soul concepts.
13. **SuonAngelMiriam are working with Mircea on ways of distributing SAMfume** and other products and working more closely together on the other projects listed above. Recent meetings held in September Singfest and at the Singureni Christmas Fair 2022 and then in June 2023 also.

**C. Previous Activities Archive:**

1. **Hemp** for cooperative research at BioFarmland (BFL) on hold after 3 years of testing.

**D. General Notes and considerations about the group, cycles, meditation and information flow:**

1. **We are happy to get to know each other better**, or other ways that we may cooperate either personally, or as organizations. Please let us know if you would like any other meetings or if you have any other comments or questions.
2. **2023 continues the new seven year cycle started in 2020**. The final major group 'impact' has been made in 2019 prior to the next 100 year 'impulse' which happens during 2025.
3. **It might be considered that these Group Meditations seek** to make use of the spiritual opportunities that the cycles of full moons, solstices and equinoxes, Group Festival Weeks and Centennial Impulse years provide. The unique energies associated with each constellation, season and longer cycles are directed into the consciousness as trans-formative qualities that can lift and expand our hearts and minds.

4. **It might be considered that Group Living tends to the fulfillment of free will in service** and, as this is gradually understood, coming together to co-operate on issues for the benefit of the whole without intentions to dominate, interfere or impose on others. The vision is there, the future is assured, but the key to its successful implementation is that co-operation has to be based on intentions that are based on the good of the whole rather than a focus on self-interest.
5. **In all meditation it is of value for the student to remember that,** from the standpoint of permanent benefit, it is easier to meditate effectively during the period from the new moon to the full moon, than from the full moon to the new moon. The first half of the lunar cycle is one of intensification, absorption and accretion; the second half is one of assimilation and distribution. More real progress over a long period can be made by observing this cyclic law.
6. **Wisely utilizing newly acquired energies keeps inflowing and out flowing channels open** and prevents Sycal (psychical), Astral (emotional), Mental (intellectual) congestions, which may otherwise be experienced, with their accompanying physical consequences.
7. **The following regular monthly cycle is for the group information flow:**
  - a. Full Moon (five days): Two days before, the day of (meditation), and two days after Full Moon for getting impressions.
  - b. The week after the 5 days of the Full Moon: For letting us know or sharing of any impressions during the preceding 5 days. Plus us transcribing our own impressions.
  - c. Second week after Full Moon for 'Anchoring' or 'Grounding' impressions through gathering other information or following up on activities based on the impressions. Possible New Moon meditation by those who want and ending that Full Moon Cycle.
  - d. Third week after Full Moon (just after the New Moon): Starting to build up to the next Full Moon having any questions to impressions shared and answered and any activities based on impressions started or completed.
  - e. Fourth week after the Full Moon (just before the next Full Moon): Coming out with the Keynote and information and timing of the next Full Moon, including the shared impressions or activity from the last Full Moon.

**Addendum 1: Libra, The Balance, constellation hypothesizes and considerations on the Galactic Triangles from EA:**

**LIBRA, THE BALANCE:**

This study will fall into three parts as earlier indicated:

1. Triangles of Energy—constellations.
2. Triangles of Force—planetary triplicities.
3. The Triangles and the Centres—planetary and human.

**First Triangle:**

The Pleiades . . . Cancer . . . Venus.  
Humanity.

**Second Triangle:**

The Great Bear . . . Aries . . . Pluto.  
Shamballa.

**Third Triangle:**

Sirius . . . Leo . . . Jupiter.  
Hierarchy.

**TABULATION IX - A COSMIC SERIES OF INTERRELATED TRIANGLES**

(The Rays, Constellations and Planets)

**Ray (only Ray III shown because it has Libra in the triangles)**

	<u>Constellations</u>	<u>Planets</u>	
		<u>Orthodox</u>	<u>Esoteric</u>
III. Active Intelligence	Cancer	The Moon	Neptune
	<b>Libra</b>	Venus	Uranus
	Capricorn	Saturn	Saturn

All these appearances, expressions of qualities and material evidences of life are the symbols or outer and visible signs of inner and spiritual realities or of Life, whatever you may mean by that term...

...Again and repeatedly, students must remind themselves that we are considering the impact of energy upon energy units (all qualified and producing appearance) and with the response of those energy units to the streams of force which reach them from "the furthest centre." It is in the development of response to

distant points of contact and emanating sources of energy that the needed sensitivity is produced. Sensitivity, generally speaking, is of a threefold nature:

1. Sensitivity to that which is found within oneself. This, when the consciousness is adequately self-sufficient, opens a door for the entrance of energies coming from the "middle centre." I speak in symbols and for those whose knowledge of cosmic location and of points in time and space will enable them to comprehend; to the uninitiate, I simply say, "Respond to soul impact."
2. Sensitivity to that which emanates from the "centres left behind" or to those streams of vital energy which lie active and focussed below the threshold of the waking consciousness. They stir the threads of memory; they draw backward the glances (and there lies magic in the energy of the eye) of the onward moving Point, the Pilgrim on his way; they condition through ancient habit the responsiveness of the units in the form.
3. A developed sensitivity which emerges from the "furthest centre" at first unconsciously employed and later consciously directed and attuned - a fully magnetic and attractive sensitivity. Forget not that true interplay imposes the condition of reciprocity and that the two points or termini of a line eventually vibrate in unison.

...Five constellations are not so intimately concerned with the mass human crises but are more definitely and specifically related to the unfoldment of the individual disciple. These are: Sagittarius, Libra, Taurus, Pisces and Aquarius. Pisces has, however, at this time a unique relation to the seven constellations which produce the great human crises; it also completes the final united effort of the Triangle: Leo, Virgo, Pisces. It has been the steady impact of Piscean force which has at long last brought humanity, the world disciple, to the very door of initiation. For over two thousand years, Piscean influence has been playing upon mankind; it has brought about the demand for world adjustment; it has developed the international spirit and has led to the formation of groups in every department of human living and so laid the foundation for the future synthesis in Aquarius. The influence of this triangle finds symbolic expression in the life of the self-conscious individual who reaches self-awareness in Leo; in the culturing care of Virgo and the final self-release in Pisces.

At this point I would like to pause for a moment and interpolate a word in answer to a perfectly normal question which is liable to arise in the minds of thinking students and aspirants today. Of what use is all this abstruse and abstract information to a world in agony and a world distressed? The major usefulness of this imparted information which will condition the astrology of the future lies far ahead in the period after the war when again the field of world service opens and men have time for thought and due reflection. World service is going on now perhaps in greater volume than ever before but it is restricted to the field of releasing from slavery and alleviation of pain and suffering, and, therefore, to the more strictly physical forms of help. The service to which I here refer is that educational process which will produce the coming civilisation and its attendant culture. This will be based on all the cultural processes of the past and of the present, but will discard all that has produced the disasters of today, as far as may be possible. That means a gradual future usefulness for the knowledge of the underlying potencies, for they can indicate the lines of least resistance to the emerging good and the developing crises which inevitably lie ahead in the period of reconstruction. But one potent good can emerge even at this time from a study of these matters, provided the student of esotericism rests not content with study (using it as an escape from the disastrous present) but parallels his understanding of the causes and conditions by a strenuous effort to be of aid in a practical and a definitely physical sense.

This is the dominant emerging fact to which all that I have said bears testimony: world conditions today - precipitated as they are by human greed and ignorance - are nevertheless basically conditioned by the will-to-good which is the primary quality of the energies and forces coming forth from the great Lives in which all that exist live and move and have their being. The Law of the Universe (and what is law but the working out of the purposes of these all-embracing Lives, of Their impulses and Their plans?) is to all eternity the good of the whole and naught can arrest this happening; for who can arrest the impact of these energies which play upon and through our planet. When I say this, I would at the same time point out that the attitude of many students, inevitably participants in world events, that "such is the Law and such is the Karma of people and nations and such is the pre-determined destiny" is far from right. They believe - sometimes sincerely - that all that should be done is simply to wait for results to appear and for karma and destiny to fulfil itself. Then and not till then, all will be well. But they forget that karma fulfils itself in relation to the form nature upon which it expends its energy and that where there is a static condition and a quiescent attitude, the process moves but slowly; the life then within the form fails to experience the

needed, forceful awakening; inevitably then there lies ahead a repetition of the process until the time comes when activity and response is evoked. This then leads to resistance to the apparent karmic necessity and this brings about liberation. Only through resistance to evil (and in this world period and in this kali-yuga, as the Eastern teachers call it, it is an essential basic attitude) can karma be brought to an end. The law of matter still governs in the three worlds of human experience and "fire by friction" must burn up that which veils the steadily increasing brilliance of solar fire. It is the recognition of "solar fire"—as it shows itself in a transcendental idealism and radiance—by the unintelligent idealist, and his simultaneous refusal to cooperate in this period of karmic necessity, that is prolonging the difficult and cruel situation and leading him individually to sink deep into glamour. The simplification of the world's problem in terms of matter comes through a recognition of the essential dualism underlying events. I commend this thought to all students, suggesting that they base optimism on the long range vision, endorsed by the Heavens and corroborated by the activity of the stars, and thus feel sure of the ending of this immediate tragic situation.

...We might consequently state that the forces of:

3. Aries—Libra—The Sun (which are an expression of the Great Bear) bring about that focussing of energy in the life of the disciple which makes it possible for him to function consciously and with intention upon the Path of Initiation. He enters the realm of the formless worlds because Aries, the sign of beginnings makes this possible; through the potency of Libra, he has succeeded in achieving that point of balance which makes the final escape from the pairs of opposites possible. He now [Page 467] knows, through transcended feeling and from identification with the seen Vision, the true meaning of being.

This threefold process can also be covered by the three words: Sensitivity, Illumination and Inspiration.

...Five constellations are not so intimately concerned with the mass human crises but are more definitely and specifically related to the unfoldment of the individual disciple. These are: Sagittarius, Libra, Taurus, Pisces and Aquarius...

... It must be remembered that only through much repetition and frequent focussed effort are these results attained. A crisis is brought about by a certain habit of mind, developed in the vehicle; it is surmounted in time only by a certain habit and rhythm of the spiritual content of the man's nature. It is the establishing of a certain objective rhythm which produces a crisis; it is the emergence of a particular subjective rhythm which enables a man to surmount the crisis and to capitalise on the opportunity. Please bear this in mind...

...We have reached a point in our consideration of the Science of Triangles wherein we can pause for a minute to consider our next approach to this subject and choose the theme by means of which we can throw more light upon it. It should by now be obvious to you that this Science of Triangles concerns the beneficence of Deity and that, through the intricate combinations of cosmic, systemic and planetary triangles, the purposes of God are working out. Those purposes are motivated by love. It is through these relationships that love expresses itself, brings about the needed changes for that expression, and human consciousness is brought into the required state of inclusiveness.

...It is through the squares or the quaternial relation that the form aspect is brought into relation and adequacy to the will of Deity, expressing itself through the gradually unfolding consciousness aspect. I am explaining this situation in these simple words because it must be apparent to you that only as the soul illumines the mind can the significance of the teaching be grasped. It is only when the stage of initiation is reached that the true meaning will emerge. In the meantime, I have sought to awaken in your minds a reaction to the abstract truth lying behind the two following statements:

1. The Science of Triangles is related to the total expression of the divine triplicity of manifestation: will, love and intelligence or life, consciousness and form. Until, therefore, the disciple can express in himself the integrated resemblance to these three aspects, he will not be able to grasp the meaning of this subjective astrological science.

2. On our planet, the Science of Triangles is related to the three major aspects, as they express themselves through Shamballa, the Hierarchy and Humanity. Again, therefore, we come up against the need for the approach of the integrated human being to this science because only the man who is responsive to these three focal points of energy can understand the interplay. Only, in fact, can the man apprehend the underlying truth whose two head centres and his heart centre form a triangle of flowing energies...

...I would remind you of what I said earlier in the treatise that the Science of Triangles is related to spirit and synthesis. I would remind you also that what I have written in this astrological section of the Treatise on the Seven Rays is intended for the instruction of disciples at the close of this century (SAM – this means now)...

**Conclusion (at this point):**

May we consider together entering into that higher state of (group/soul) 'bewilderment', especially at this cycle of Aquarian consciousness, yet strength and unity from our lower state of personal certitude and isolation to possibly obtain a universal group consciousness.
