

**Full Moon of Libra, seventh Full Moon of this Astrological Year, on Tuesday, October 7, 2025, at 05:47:35 in Romania:**

The main Keynote or phrase to consider for all Libra Full Moons (each year): **“I choose the way which leads between the two great lines of force.”** The Libra Full Moon Keynote of Light each year is: **“The Light that moves to rest.”** **“(Hint: This is the light that oscillates until a point of balance is achieved. It is the light which is distinguished by a moving up and down.)”** Consider the Keynotes at, or as close to, the time of the Full Moon as possible and what it might mean as a Group. Each of the constellations also have at least one, but also as many as five, Ray determining energies by which they rule and of which they rule. **The main Ray energy of Libra is considered to be Ray 3.** So, Libra is considered to have main energies of Active Intelligence or what is considered as Knowledge. It is a recommendation to consider the Libra Keynotes as Ray 3 Keynotes. This is a direct correspondence to the information of our Color Consultations and the way this same Ray determining affects us individually and in our relationship to our group. So, our Color Consultation information can be reviewed and related to each of the Full Moon determining energies to determine the possible effects and opportunities each Full Moon offers each of us personally and in relationship with the group. This was explained and expanded upon from Esoteric Astrology (EA) in general in Addendum 1 from the past Aries Full Moon report (from April 2021 – please let us know if you would like that resent to you or it can be downloaded from the website at the bottom of the page at: [www.sam2013.org/group\\_consciousness.html](http://www.sam2013.org/group_consciousness.html)).

This year we are adding information and specific examples of how each Ray can and does effect the different parts of our being and our roles in a Monadic Manifestation Group as Addendum 1 below. We are again continuing to take one example of a different individual's ray structures per month from the books, “Discipleship in the new age I & II” by Alice A. Bailey. Then we will add the corresponding colors and interpretations from a SAM2013 Synthesis color consultation/interpretation to the example. This will hopefully help each person see possible ways in which their color readings and hypothetically interpreted Rays may be affecting themselves and their relationships in groups. This will also hopefully help prepare for our work with the new set of Synthesis (Higher SAM Soma Aura Monad) color products being developed by Virginia at Favisan for us. And finally, for now, this will also hopefully help prepare for our work with the future 'Mergration' (Lower SAM Sycal Astral Mental) color products. Then there will be a complete set of SAM2013 Synthesis And Mergration color products which help show how the 'Mergration' of the Sycal Astral Mental bodies/vehicles/consciousnesses into the Soma or Personality then Synthesizes with the Aura and Monad. Or in reverse the SAM2013 Synthesis And Mergration products would help show how the Synthesis of the Soma Aura Monad bodies/vehicles/consciousnesses then 'precipitates into', determines, influences, governs, or even differentiates, splits or divides into the Mental Astral Sycal bodies/vehicles/consciousnesses from the Soma. From the simple and colorful basis of SAM2013 Synthesis And Mergration color system our internal and external relationships and interactions in life can be viewed, analyzed, discussed, patterns seen, 'paths of least resistance', rhythms and cycles identified and defined, and much more in the realm of conscious understanding and communication. More can be found at our website at: <https://www.sam2013.org/colorschool.html> .

Libra is the seventh sign of the new Astrological year and the forth of the nine 'grounding or anchoring energy and consciousness' Full Moons of the year. It helps to continue to manifest the new 'birthing' energy of the higher building cycle for the astrological year which happened during the past full moons of Aries, Taurus, and Gemini (April, May, and June) which is also called the Higher Interlude. Then Libra and the following five different full moons of the year continue to ground or anchor and manifest these higher interlude energies and consciousness and are considered the Lower Interlude. Addendum 3 from the past Aries Full Moon report (from April 2023) is some additional information on the full moons and possible meditation forms (please let us know if you need that resent to you or it can be downloaded from the website at the bottom of the page at: [www.sam2013.org/group\\_consciousness.html](http://www.sam2013.org/group_consciousness.html)).

**The Key to the Ray 3 Method is: "Let the Army of the Lord, responsive to the word, cease their activities. Let knowledge end in wisdom. Let the point vibrating become the point quiescent, and all lines gather into One. Let the Soul realize the One in Many, and let the word go forth in perfect understanding: 'I am the Worker and the Work, The One that Is.'"**

Please continue to keep in mind, from the Gemini Full Moon Report (May 2024), Addendum 2 which was two papers titled, "Vision Paper: Unfolding Work for 2024-2026" by 2025 Initiative ([www.2025initiative.org](http://www.2025initiative.org)) and "More details about this proposed experiment and our groups' ideas about the unfolding opportunities

of the period of 2024-2026". The addendum started with a note from us as an introduction about the papers and can also be found on the website at the bottom of the page at: [www.sam2013.org/group\\_consciousness.html](http://www.sam2013.org/group_consciousness.html) (or we can send you a copy).

**A. Notes on this coming Full Moon of October/Libra:**

- 1. Watch for any impressions** that may come to you before the Full Moon that may relate to the Ray 3 Keynotes and your specific Rays (from your Color Consultations), especially two days before the Full Moon, the day of the Full Moon and two days after the Full Moon. **If you want to share** any of your impressions with us please do. If you want any impressions shared with the group let us know and we will include them in the next month's meditation notes.
- 2. This is the seventh of twelve different Full Moons of this Astrological year** and is the forth of the nine different full moons for grounding of 'Consciousness and Energy' full moons of this astrological year. The energy which is built and gathered during first three 'Building' Full Moons at the beginning of the astrological year, which is also called the 'higher interlude', will then be distributed over the last nine different Full Moons during the end of the astrological year, which is also called the 'lower interlude'.
- 3. Last astrological month of Virgo had two New Moons in it so that now, after the second New Moon of Virgo, this Full Moon and all Full Moons** for the rest of this astrological year will come before the New Moon in each astrological sign. This normally makes meditations more difficult due to the next Full Moon impulse coming before the New Moon impulse and should be given consideration in our meditations for the rest of the year.
- 4. Previous addendum 1 from the Full Moon report of Aries (April 2021) gives reference into more insight and inspiration for how to** view some of the expanded awareness of these monthly and yearly Full Moon cycles as we continue through this seventh Astrological Year of this group formation and the group's functioning.
- 5. Addendum 1 below again relates to** information and specific individual examples of how each Ray can and does effect the different parts of our being and our roles in a Monadic Manifestation Group.
- 6. The 2025-6 astrological year Annual Keynote is, "LET THE GROUP EXPRESS THE QUALITY OF THE HIDDEN VISION:"** Hint: "The hidden vision is not "man's vision of God" but "God's own vision of His purpose."

**B. Notes and Activities on or since the last Full Moon September/Virgo:**

- 1. SuonAngelMiriam meditated at the time of the full moon, new moon and Equinox together with Safi (when she wanted). We had what we consider** very good meditations for the continued new Astrological year and of the grounding of consciousness cycle of the astrological year and of this year of Impulse on the next 100 years. We are still having more experiences during the toning, chanting and vocalizing parts of the meditations and with the group exoteric, esoteric, and occult crystals and now also with some of the new hand held crystals this year. We also had the opportunity to meditate with two other people who also normally meditated at the time of the Full Moons. Shortly after our meditation together we all watched the Full Moon Eclipse rising over the horizon in a star filled sky.
- 2. All new crystals for this 2025 impulse year, that happens once every 100 years,** have been received and this culmination of the crystal grid as a blueprint for this group work has been anchored on this just past Summer Solstice Puja (see previous reports for more information and pictures of these crystals and the Puja).
- 3. Revised and renewed Hemp Museum suggestion** presented to Zoli, Virginia, and Leontina as a possible group project. There was similar input about local, village or household museums from the "Socio-Economico-Cultural Rebirth of the Romanian Village" conference in previous reports. Latest brief meeting was at Leontina and Zoli's spring 2025.
- 4. Based on Leontina's previous intentions to establish an educational location near her home further discussions are going on about** a location, financing, possible links to other hemp projects and people. See previous reports. Leontina has decided to stop for the moment Sopronul Cultural and the building of the dome until the environment becomes more friendly to her projects. See previous updates. Pamantul Stramosesc has been dissolved as a formal association in 2025. July 27, 2025 there was a spontaneous meeting with a well known herbalist and shared meal with open discussion at Loredana's house.

5. **SuonAngelMiriam are continuing our interaction with Katharina documenting** how to manage and implement new and better ways of herb growing, drying, processing, soil regeneration, distilling, etc.
6. **SuonAngelMiriam are interacting with Virginia on her Bio-Resonance and Herbal and Aromatherapy courses, consultations** and treatments along with the consideration of the SAM2013 Synthesis Tri-Level Color Set as liquids. See previous reports. The first production of Virginia's Favisan samples of the SAM2013 Synthesis Tri-Level Color System have been made and are being tested for many characteristics. **The set tested well enough to use for color consultations.** The consultations are continuing. Please let us know if you are interested.
7. **SuonAngelMiriam are working with Remus and others on updating and expanding** one of his personal spirituality courses on Self Esteem as an Esoteric Group project. Anyone interested in knowing more or helping in this group project please let us know. **Remus passed in May 2025** however, he is still being considered as part of the group and the project at present is continuing.
8. **SuonAngelMiriam are working with Aurellian on how some of the concepts of his book and course** on "The Numerology of the Soul" might relate and correspond to the SAM2013 Synthesis Tri-Level Color System numerology. Both Aurellian and Suon have had direct contact with Yogi Bahjan who taught the numerology of the soul concepts.
9. **SuonAngelMiriam are working with Mircea on ways of distributing SAMfume** and other products and working more closely together on the other projects listed above. Recent meetings held in September Singfest and at the Singureni Christmas Fair 2022 and then in June 2023 also. The last meeting in Bucharest in March, 2024 for a brief update. Phone meetings and messaging are on-going.

#### **C. Previous Activities Archive:**

1. **2020 Hemp for cooperative research at BioFarmland (BFL) on hold after 3 years of testing.**
2. **2023 Timisoara Cultural Capital office cooperative event named 'SAMatate'.** See FM Sagittarius 2023 for final update on this report.
3. **2024 SuonAngelMiriam have met personally with Georghe Piperea and joined his class action law suit against the constitutionality of mandates. Suit was lost, see previous report details.**
4. **2024 We participated in Remus' course about Stress Management held through ANATECOR** which is related to Virginia's fitotherapy course. We also attended the prayer zoom meeting he and ANATECOR organized for the professor Mircea Stefea who passed in 2023.
5. **2025 Poppy research at BioFarmland (BFL) at Virginia's suggestion.** After three years of starting to self propagate in 2025 the project has been stopped since it would require permits to continue propagation.

#### **D. General Notes and considerations about the group, cycles, meditation and information flow:**

1. **We are happy to get to know each other better**, or other ways that we may cooperate either personally, or as organizations. Please let us know if you would like any other meetings or if you have any other comments or questions.
2. **2025 continues the new seven year cycle started in 2020.** The final major group 'impact' has been made in 2019 prior to the next 100 year 'impulse' which happens this year 2025.
3. **It might be considered that these Group Meditations seek** to make use of the spiritual opportunities that the cycles of full moons, solstices and equinoxes, Group Festival Weeks and Centennial Impulse years provide. The unique energies associated with each constellation, season and longer cycles are directed into the consciousness as trans-formative qualities that can lift and expand our hearts and minds.
4. **It might be considered that Group Living tends to the fulfillment of free will in service** and, as this is gradually understood, coming together to co-operate on issues for the benefit of the whole without intentions to dominate, interfere or impose on others. The vision is there, the future is assured, but the key to its successful implementation is that co-operation has to be based on intentions that are based on the good of the whole rather than a focus on self-interest.
5. **In all meditation it is of value for the student to remember that**, from the standpoint of permanent benefit, it is easier to meditate effectively during the period from the new moon to the full moon, than from the full moon to the new moon. The first half of the lunar cycle is one of intensification, absorption and accretion; the second half is one of assimilation and distribution. More real progress over a long period can be made by observing this cyclic law.
6. **Wisely utilizing newly acquired energies keeps in flowing and out flowing channels open** and prevents Sycal (psychical), Astral (emotional), Mental (intellectual) congestion, which may otherwise be experienced, with their accompanying physical consequences.
7. **The following regular monthly cycle is for the group information flow:**
  - a. Full Moon (five days): Two days before, the day of (meditation), and two days after Full Moon for getting impressions.
  - b. The week after the 5 days of the Full Moon: For letting us know or sharing of any impressions during the preceding 5 days. Plus us transcribing our own impressions.

- c. Second week after Full Moon for 'Anchoring' or 'Grounding' impressions through gathering other information or following up on activities based on the impressions. Possible New Moon meditation by those who want and ending that Full Moon Cycle.
- d. Third week after Full Moon (just after the New Moon): Starting to build up to the next Full Moon having any questions to impressions shared and answered and any activities based on impressions started or completed.
- e. Fourth week after the Full Moon (just before the next Full Moon): Coming out with the Keynote and information and timing of the next Full Moon, including the shared impressions or activity from the last Full Moon.

## **ADDENDUM 1:**

**These 12 monthly addendum (during this 2025 Astrological year) and this once in 100 year, 'year of higher impulse' are being written and designed** to help each person understand and apply their Ray qualities, in their Color Consultations, to the opportunities available at the time of the Full and New Moons, Solstices and Equinoxes for gaining more conscious understanding and then applying that conscious understanding in their daily lives. Hopefully you will enjoy them independent of what changes in consciousness or life they may bring as long as what comes is 'higher and forward' – **SAM**.

### **A. Forward notes by SAM restated from the above Report:**

This month we are continuing the year of adding information with specific and general examples of how each Ray can and does effect the different parts of our being and our roles in a Monadic Manifestation Group as Addendum 1 below. We are taking one example of a different individual's or a general type of individual's ray structures per month from the books, "Discipleship in the new age I & II" and "Esoteric Psychology I & II", by Alice A. Bailey. Then we will add the corresponding colors and interpretations from a SAM2013 Synthesis color consultation/interpretation to the example. This will hopefully help each person see possible ways in which their color readings and hypothetically interpreted Rays may be affecting themselves and their relationships in groups. This will also hopefully help prepare for our work with the new set of 'Synthesis' (Higher SAM Soma Aura Monad) color products being developed by Virginia at Favisan for us. And finally for now this will also hopefully help prepare for our work with the future 'Mergration' (Lower SAM Sycal Astral Mental) color products. Then there will be a complete set of SAM2013 Synthesis And Mergration color products which help show how the 'Mergration' of the Sycal Astral Mental bodies/vehicles/consciousnesses into the Soma or Personality then Synthesizes with the Aura and Monad. Or in reverse the SAM2013 Synthesis And Mergration products would help show how the Synthesis of the Soma Aura Monad bodies/vehicles/consciousnesses then 'precipitates' into, determines, influences, governs, or even differentiates, splits or divides into the Mental Astral Sycal bodies/vehicles/consciousnesses from the Soma. From the simple and colorful basis of SAM2013 Synthesis And Mergration color system our internal and external relationships and interactions in life can be viewed, analyzed, discussed, patterns seen, 'paths of least resistance', rhythms and cycles identified and defined, and much more in the realm of conscious understanding and communication. More can be found at our website at: <https://www.sam2013.org/colorschoo.html>.

**Examples of a different individual's Ray structures are from the books, "Discipleship in the new age (DINA) I & II" and "Esoteric Psychology II", by Alice A. Bailey - AAB.** This will hopefully help each person see possible ways in which their color readings and hypothetically interpreted Rays may be affecting themselves and their relationships in groups (Free online at: [https://www.lucistrust.org/online\\_books/discipleship\\_in\\_the\\_new\\_age\\_vol\\_i\\_oobooks](https://www.lucistrust.org/online_books/discipleship_in_the_new_age_vol_i_oobooks))

### **B. Forward Notes by AAB briefly restated from the previous Report (see previous Full Moon report of Cancer for full statement):**

We are taught in the esoteric philosophy that seven great divine Emanations, Aeons or Spirits (in Whom we live and move and have our being) came forth from God at the time of the Creation. The same teaching can also be traced in the Holy Bible. Upon one or other of these seven Rays, the souls of all forms of life are to be found as well as the forms themselves. These seven rays produce the seven major psychological types.

#### **These seven rays or emanations are:**

1. The first Ray of Will or Power. Many great world rulers are found on this ray, such as Julius Caesar.
2. The second Ray of Love-Wisdom. The Christ and the Buddha are to be found on this ray. It is the great teaching ray.
3. The third Ray of Active Intelligence. The mass of intelligent humanity are found on this ray.

4. The fourth Ray of Harmony through Conflict. Aspirants. Struggling, well-meaning people. Workers for unity emerge along this line.
5. The fifth Ray of Concrete Knowledge or Science. Scientists and people who are purely mental and governed only by the mind.
6. The sixth Ray of Devotion or Idealism. Many Christian people. Fanatics. Numbers of earnest Churchmen of all the world religions.
7. The seventh Ray of Ceremonial Order or Magic. Masons. Financiers. Great businessmen and organizers of all kinds. Executives are found with these energies in their equipment.

However, only when a man is highly developed and nearing the Path of Discipleship is it possible for the esoteric student accurately to surmise what his ray may be. People of all kinds and professions are found on all the rays. **The conflict in a disciple's life is found to lie in the fact that the ray of his soul and the ray of his integrated personality are posed against each other. At the same time, his emotional nature, his mental equipment and his physical brain are also controlled by some one or other of the rays and in this five-fold relationship lies hid much of the problem of the evolving human being.**

### **C. Introductory Notes by AAB continued in Virgo 2025 are now continued in Libra:**

#### **PART III**

**As you face this opportunity in a world which is passing through a major crisis, I would like to state that it is necessary for all working brothers and disciples to have three things in mind if they are to work efficiently and as desired.**

**First: Disciples should know that the Masters have three grades of workers.** There are those doing the difficult work in the outer world. They materialize the forms through which the Hierarchy can express its intentions and they make the [Page 18] human contacts. There are many such disciples and they are doing this work from their own free choice and because they have realized the immediate and coming need of humanity and have pledged themselves to serve. There are, secondly, those who act as links between the Elder Brothers of the race, the Masters of the Wisdom Who embody the divine plan and the workers mentioned above. I do not say that they act as links between the disciple and his Master for that is a direct relationship which none may touch, particularly in the more advanced stages. This second group of working disciples, however, act as intermediaries in the working out of the plan in the world and they hold themselves in readiness to go anywhere when requested, thus aiding with their wisdom and experience and supplementing the capacities of the field workers, conferring with them. There are several such that are being sent expressly into the field at this time to hasten the work whenever possible and to increase the magnetic attraction of those centers through which the spiritual force of the New Age can flow.

This is all being done preparatory to a supreme effort which the Hierarchy of Masters plans to make. Should all of you in the field at this time work with complete surrender and devotion—giving of all your time and interest to the cause—it may be possible to prepare the ground in such a manner that the coming effort of the Masters may prove adequate to the emergency.

The third group is that of the Masters Themselves and Their cooperating initiates. They work primarily upon the inner side. Their activities are confined largely to the mental plane and to the scientific use of thought. Thus They guide Their workers and helpers and influence and direct Their working disciples and the world disciples.

There is at this time an inner intention of blending the occidental and the oriental approaches to the ancient wisdom and to the Hierarchy. Cooperation and the mutual interchange of wisdom and of knowledge are essential if this is to be perfected. The objectives of both methods—the mystic and the occult—are the same...

### **D. PERSONAL INSTRUCTIONS 6 – J. W. K-P.:**

**Note 1:** Some of the formatting for the Higher SAM Synthesis and Lower SAM Mergration below have been modified from the Aries, Taurus and Gemini Full Moon Report formats. This is to hopefully be

more clear, especially involving the fact that the Monadic Ray is generally not specified in the DINA information by AAB but is in general being hypothesized in the SAM information.

**Note 2:** It is highly recommended to reread the previous **Virgo 2025 Full Moon Report Addendum 1 on the 'hypothetical generalizations of people who are in the process of integrating their Sycal, Astral, and Mental consciousnesses into an integrated personality or Soma' for its more detailed information on:** 1. The subsequent 'problems that may arise' from integrating our personality (Soma) and fusing it with our soul (Aura). 2. The definitions for the words subconscious, conscious and super-conscious used in these Addendum this year. 3. The two groups of people who are powerfully affected by this 'integrating process' (SAM – Synthesis And Mergration processes). 4. The process of establishing of a definite relation with the soul. 5. The self or therapeutic studies to be made in this new approach to help understanding of these processes. 6. What answers are the goal of this work. 7. How the two words "peace" and "good will" apply to this work. 8. SAM – the way these hypothesizes apply to our color interpretations.

November 1931

I would conjure you to face the future with joy and optimism. Courage you always have but joy you lack. With you, as with F.C.D., much of the physical plane activity is hampered by etheric devitalization, though the causes producing the existing condition differ. During the past years, I have many times conveyed to you a message the summation of which lies in the emphasis I lay on steadfastness in meditation. Etheric vitalization lies in meditation where you are concerned and the bringing in of energy to your physical body through its instrumentality. Diet, fresh air and freedom from concern all aid the process but the main cure for you and the source of success in all your work lies in your persistence in meditation and your contemplative endurance.

The conservation of energy is wise, yet you have untold reserves upon which to draw and as yet you use them not as you might. As before I have told you, you make not adequate use of the meditation period and your physical body suffers in consequence and therefore your work. There is much to be done and through meditation you can accomplish much. You might ask me how to utilize the meditation period so as to benefit from it physically. The physical body will take care of itself when the source of supply lies open to use. A modification of the attached meditation would be in order for you, omitting the detail of the stage of ascent but visualizing the inflow of energy to the centers in the etheric body and the vitalization, above all, of the heart and the throat centers. This should be carried forward in a rapid and definite manner and the rest of the meditation period should be given to group work, and to a consideration of the plans to be followed in the unfolding work of the larger group to which this group belongs.

You will comprehend what I mean, brother of mine, when I repeat to you the ancient formula:

"Out of the lotus in the head springs the flower of bliss.  
Its earliest form is joy.  
Out of the lotus in the heart springs the flower of love.  
Its earliest indication, wisdom is.  
Out of the lotus in the throat emerges the flower of living forms.  
The earliest sign is understanding of the Plan."

Joy, wisdom and the Plan! These are for you the three points which must be matured. For B.S.W. it was wisdom, strength and beauty. For you, these other three. You two are very close - closer than either of you have realized. Weakness for you both lies in the failure of one or other of the manifestations of power to flourish. When B. S. W. knows the true significance of beauty and you of joy, release and fuller service will be yours.

June 1933

I say to you again and again, "Let the joy of the Lord be your strength." There is much to be done and in many ways. Steps have been taken to fit you for what you have to do. Go forward as at present. **Let the Plan absorb you but remember at the same time that it works out step by step and that the true helper of the Plan is he who visions it as it may be in the cycle of the life but who also sees the small and immediate step ahead. Therein lies the difference between the mystic and the occultist.**

You are in much better physical condition and your registration of joy must work out also in happiness and eventually in bliss. For you, too, today I have a mantram which may be of service:

"Joy settles as a bird within the heart but has winged its way from the secret place within the head. I am that bird of joy. Therefore, with joy I serve."

**You will know whereof I speak when I say that your personality detachment must develop into a deeper attachment to the souls within the forms.** Thus understanding grows. There is a vice of detachment as well as a vice of attachment and the true servant of the Plan seeks the middle way. You have a sphere of potent usefulness within my group. You give stability and you carry the gift of assured belief. Each member of my group has been chosen for what he can contribute to the whole....

June 1934

I would like at this time to make the comment - one of major importance to you - that you are now entering upon the work for which you incarnated. The members of the New Group of World Servers - even when

they work without mental realization (not as you do, for you know somewhat of the Plan) - are, nevertheless, working "under impression," as it is called. Their main duty, and the duty to which their souls call them, is to preserve an inner sensitivity. This they do in the majority of cases and, where there is not your background of esoteric knowledge, their intense interest in their work makes them one-pointed and dedicated to their task. Therefore, all personality reactions are subordinated to the work in hand and the lower man presents no impediments to that impression. With you, as with all the members of my group, there is a realization of the Plan and an inner determination to cooperate and this facilitates the work. For you, therefore, in the immediate future, two things are required. Your sensitivity to inner impression must grow and increase; your will also must be more dynamically used.

These two points I have in view as I consider the nature of the meditation which I must assign to you. The condition of increased sensitivity is dependent upon a perfected alignment and the other upon the right seizure of opportunity, upon directed skill in action and upon a sustained egoic one-pointedness.

**Therefore, there must be a preservation of such characteristics - with persistence - throughout the day.** Your morning meditation should be of a brief and yet potent character and can best be described by the following words: Alignment. Dedication. Directed thought. Recognition of the Plan. Clear-cut realization. Steady Will. For you, meditation is an assuming of an attitude and its preservation throughout the work of the day. My brother, we can translate all the above into four stages which definitely relate to your life theme, if I may so call it. Begin always with the fourth or final stage and work through to the first:

1. You live with the idea and you constructively embody it. This is being or realization.
2. The purpose becomes your purpose and your will is, therefore, the will of the Plan. Towards this higher will, your personal will is steadily directed.
3. This "qualifies" your life in the three worlds and you become potently characterized by the quality of the unfolding Plan. Upon this quality you must meditate.
4. Realization of the nature, the purpose and the quality of the Plan to which it is your purpose to contribute. This conditions the form which your work will take.

Your task is to work with the Law of Supply. The demand is already there. Your work is to contribute to the success of the New Group of World Servers and to the spreading of the truth and to do this, as ever, with joy. As the demands of the work increase, you must learn to preserve your physical poise and good health, by due attention to food and exercise. You must learn to live increasingly the dual life of the disciple - a life of outer activity and of inner sensitivity. You have but little to fear, for much is already accomplished upon the inner planes. The seizure of opportunity, the recognition of opening doors and skill in activity - to these direct your attention. Your work for the New Group of World Servers is now beginning. There will not be asked of you more than you can accomplish. Use the instructions I give you and strengthen your link with me, for that is for you also an opening door of increased usefulness. Cultivate love for your fellowmen or rather the externalizing of that love which you have in full measure. In this will lie the recognition of those who constitute the world group. Here D.R.S. is of service to you for he throws a light on people.

In quietness and in confidence go forward along the Lighted Way and with expectancy as your keynote. Preserve a readiness to handle all that may eventuate. The link between you and your Master strengthens daily.

January 1935

You face the three most strenuous years of your life and by the time you are forty-nine years old, your work will have fallen into such definite lines that you will see the Plan for future service with much greater clarity and will have acquired the desired momentum. Your work ahead lies now in cooperating with those who are the New Group of World Servers and in organizing the financing through which much of their work may become possible. The work as it takes shape on the physical plane must be directed towards the spiritual uplift of the thinking people of the world in the first case and in the second place through them will come the uplift of the masses.

Your work must be largely selective and in the main educational. It will also involve the finding and the training of those who can cooperate. Workers increasingly will be drawn to Great Britain and to the

continent of Europe. From the United States of America, the teaching must go out. But Europe is the field for the educating of the world in the ideas of a true world unity and for the wise presentation of the Plan. From that continent can the inspiration go forth to the East and to the West.

Go forward into this work with sure courage and with no sense of pressure. Blend the wise methods of the present organizations with the vision of the newer types of work. This is a spiritual work in which you are engaged and it has educational objectives which have for their goal the dissemination of those principles which must govern world-living and world attitudes during the coming New Age. In the presentation of the work which the New Group of World Servers can do, certain definite and immediate possible programs can be indicated, such as the educating of public opinion in the principle of non-separativeness. But to do this, much meditation and much clear thinking will be involved. The technique to be followed and the methods employed to arouse interest and to evoke the needed support are for Western disciples and workers to decide and not for me. I can but stimulate your soul to clarity of perception, to wise vision, to true understanding and to right planning. The rest of the work and the materializing of the project lies in your hands and with those who respond to the ideas presented.

As regards your personal development and training, I can but enjoin upon you a consideration of the meditation work I gave in my last instruction to you and a renewed effort to meet its demands. You have no idea how a fresh access of power will come to you could you but discipline yourself into giving a dynamic twenty minutes each morning - prior to descending to the day's routine. This has for years been your problem. Yet this scant twenty minutes, taken each morning with regularity at the hour of 8 A.M. would give you not only the joy you need in your strenuous service, the power and insight you require to stabilize your work, but also a larger measure of physical strength. Your body nature is so constituted that it responds to spiritual healing more than do the bodies of the majority.

July 1935

Last year I wrote to you in detail and outlined to you the work of the coming years. I change not that work or my suggestions, for if I did so there would be no true synthesis in the output of this group. I am working on a prearranged Plan of my own which was the result of several years' close observation of the members of my group. I have seen no reason to change my original ideas or plan, because you have all developed as I foresaw, though one or two of the group are learning more slowly than the rest whilst one member of my group has unexpectedly leaped ahead.

Your work is being steadily consolidated and, as you lay the foundations deep and begin the superstructure, you must guard the original idea and the initial thoughtform from all possible deterioration. **The difficulty of the spiritual builders and the architects of the Plan only really begins when that which they are constructing becomes public property and subject, therefore, to criticism and outer help. Then the task of preserving the original purity of idea and of purpose becomes onerous.**

Be prepared for expansion of the work. But expand according to plan and not according to emergency, for you are building in collaboration with the inner Builders and the two structures must be counterparts. Ponder on this, yet be not rigid on non-essentials.

Take the tensivity of your inner pressure off the work for awhile. The momentum at this time is adequate to carry the plans forward. Therefore, hold steady, brood deeply but drive not.

January 1936

**Every perfecting organism must have in it those elements of life and power which embody the energy of the three aspects of divinity (SAM – three major Rays of aspect). It must likewise have those force channels through which the other four types of divine energy may express themselves (SAM - four minor Rays of attribute). This may be provided by those disciples who are on each of the seven rays indicated, or by those disciples who can, through their purity and consecration, carry any type of energy which the Hierarchy may choose to project into an organism through their agency.** The New Group of World Servers is a rapidly developing organism which must be preserved from undue crystallization and over-organization. It must, however, express itself through all the seven ways of divine manifestation. You and your associates have - if you so choose and because we have offered you the opportunity - much to do with the right organization of the outer expression of the New Group of World

Servers. After the initial, preparatory period is over, what has been done subjectively and objectively will be so definite in its effects that the future lines of emergence and the policies and activities will be relatively stable and unalterable. This is a responsibility which must be faced.

**The task is, however, complicated because the New Group of World Servers has in it so many aspirants and some disciples of whom you can know nothing; these are also working actively and under the new impulses, frequently without being aware of their affiliation as cooperators.**

**It is necessary, therefore, for you and other members of my group of workers to hold yourselves sensitive to the new factors and to the people whose task it is - equally with the group to which you belong and recognize - to precipitate the new group activities, the new attitudes and the new techniques. Hence, again, the necessity for a trained inner attentiveness, not only to the voice of your own soul, to my voice and to group impression but also to the voices of those who will be attracted to the group whom you recognize by similarity of purpose, of method and of attitude. This is not easy.**

This year should see you achieving a greater inner freedom and a clearer spirit of true liberation which will express itself in an attitude of real, and not assumed, joy and peace and a less weighed down spirit of responsibility. It must be remembered that this is a group responsibility. Your task is the attaining of a keener and more sensitive reaction to subtle and spiritual impression and to the group impulses of the New Group of World Servers. As you go forward with this task, the right method of approach to those working in the New Group of World Servers will appear, the needed doors will open and the correct way of evoking interest will easily become apparent. **The work upon the inner planes is already done and only the awakening of the brain and of the objective mind remains to be accomplished in connection with these individuals.**

One other point, your orientation to the Plan is right, and you have wisdom and strength. Conserve, however, your strength and remember that right relaxation is just as much a part of the service you can render as the strenuous, unremitting work which leads to enforced and perhaps inconvenient interludes of gaining physical strength. **The steady, unbroken, inner push, carried forward through right organization of the outer factors of time and physical strength is essential.** It is not possible, unless there is a balanced life of service, of recreation and again of service.

June 1936

You are in process of gathering together your forces for another cycle of activity in connection with the New Group of World Servers. Forget not, **all creative processes proceed with a cyclic rhythm. The rhythm set by the New Group of World Servers is a three year cycle** and to this rhythm you will find yourself conforming. The end of one such cycle came in May, 1936. Another towards which we will proceed in a mounting crescendo of work and of success will be in May, 1939. The third will come in May, 1942. Have these dates carefully in mind and thus lay your plans for the future. Thus will you be working with the law and along the lines of least resistance. **Make each three year cycle conform to the rhythm of creation. In the first year, lay your emphasis upon the activity of the manifesting principle, using that which appears and with which you have to work. In the second year, let the clarity and the quality of the note to be sounded by the manifesting form appear and be heard. In the third year, behind the form and expressing itself through the quality, let the livingness and the work of the indwelling life emerge for all to see. Bear this in mind as you consolidate the work. The keynote of the first year's work is consolidation, that of the second year must be expansion whilst the keynote of the third year must be the making of a definite impact upon the public consciousness, by the sounding and the emphasizing of some one clear note.** If this cyclic measure is kept thus in mind, no serious mistakes will be made. The New Group of World Servers must work in these three year cycles and the foundation of cyclic attainment must be laid. This cyclic rhythm will release from strain and yet enable the workers in the Group to feel that there is no failure. It is impossible to do good work where a sense of failure or lack of attainment is found.

One thing I would like here to point out and that is that there are many in other countries, scattered all over the world, who have a close and intimate work to do because they are actively associated with the New Group of World Servers. They have not yet made their contact with you or with those in my particular group of disciples. You must learn, as must the other members of my group, to recognize them. **Where there is a recognition of principles, of impartiality in service and pure intelligent goodwill, then give freely of your time and help. Hold out the hand of fellowship.** Where there is life and the type of seed is one, then the same flower will appear throughout the world in all lands. Naught can alter the expression of the type and the genus of the manifestation.

Bear this in mind.

Keep close to your own soul. Walk carefully and guardedly. Tread fearlessly and joyously in the light of your soul and in the blended light of your group brothers.

January 1937

With true first ray brevity, you have replied to certain questions which I have put to you and yet these replies are most disclosing. With you, as with F.C.D. and R.S.U., the main difficulty is lethargy, based on a genuine physical disability. It is not my intention, therefore, to urge you to a greater activity but to a greater organization upon the inner planes and greater intuitive reflection. This group of disciples has undertaken to do two things:

1. To assist the work of the New Group of World Servers in linking them, widely and consciously, to the men of goodwill throughout the world. This has to be done in order to bring in right and new conditions upon the earth.
2. To find and organize the needed funds for this task. The last is in many ways the outer expression of the first, for just as money has been in the past the instrument of men's selfishness, now it must be the instrument of their goodwill. I commend this to you as a real thought and so to continue to use it (employing an American phrase) as a talking point.

The above is simply a summation of the task immediately ahead of all of you who are seeking to aid in our work and to this task I urge you and all associated with me. The walls of difficulty must go down and success must follow effort - the united pressure of determined souls pushing through to victory in spite of real odds. This united and definite effort must be carried forward without discouragement or questioning - with due attention to the time factor and with a sense of urgency. This will negate all lost motion and will permit no opportunity to slide. There are many who will give their cooperation but who, at this time, sidetrack their cooperation, owing to fear or to the over-emphasis of non-essentials. I refer here to those men of goodwill who are today aware of the urgency of the Master's work but still hold back assistance in full measure. There are those also who do not realize the urgency and are unaware of the immediacy of the Plan or even that there is a Plan. They, however, when faced with the issue will give.

It is not for me to deal with this problem, as we shoulder not the responsibilities of the World Servers. I present it to you, my brother, and to my group, and I throw behind you the weight of my strength and the stimulation of my love. One-pointed, directed effort can achieve results in spite of world conditions, misrepresentation by those who do not understand and the failure of responsive interest on the part of one's co-disciples - throughout the world or close at hand.

Brace yourself, therefore, and with the other members of my group push through. Stand steady and do not be so seriously troubled as to the progress of the work which seems not yet to move as rapidly as desired. **When the movement does come, it will be rapid.**

The following three sentences may aid you in handling your problem and help your progress as a worker:

1. The sense of responsibility shines forth in flickering flames from every soul which has sought and found alignment. Fan those flames into a steady fire in every soul you meet. Ponder on this.
2. **The sense of sacrifice is faintly seen in every soul that loves the Plan. Teach them that sacrifice must touch the depths of giving and not call forth that which upon the surface lies or that which can be known. The unseen sacrifice must go with that which can be seen. Teach this.**
3. **The sense of comradeship is surely known by each and all of you but needs the deepening of service shared. Shew this and draw it forth. The comradeship of burdens shared, the sense of deep response to need, the comradeship of service rendered, the urge to sacrifice - teach these to those who seek to work within the Master's plan and show all three yourself.**

July 1937

Your mental body, my brother, is upon the fourth Ray of Harmony through Conflict. Hence your power to harmonize, to unify and to comprehend. At the same time (thus indicating soul purpose), it took a fourth ray mental nature (with its love of harmony through conflict) to handle the particular task which your soul assigned, and the undertaking upon which you are engaged in the aiding of the Plan.

Your second ray astral body greatly facilitates your work, giving you understanding and harmlessness; your emotions thus do not interfere with your judgment and your decisions. But the combination of a fourth ray mental body and a second ray emotional vehicle requires careful watching so as to preserve the first ray balance as you grow older and tendencies crystallize into habits. **The only way to do this is to deepen and establish the soul contact which (although of the first ray) is, as you will remember, the first subray of the second ray.**

As you have already guessed, your physical body is on the seventh ray. Hence your Masonic opportunity and your ability to organize and to rule. **I would remind you all that when the statement is made that the physical body is upon the seventh ray, it means that the atoms of the brain, in particular, are colored and motivated by seventh ray energy. So it is with all the rays upon which a physical vehicle may be found.** This provides a definite opportunity to those so constituted at this time in connection with the seventh ray, as it is coming into influence so rapidly. At the same time it provides a problem - that unending problem of the balancing of forces which is the major task of the initiate or of those in training for initiation. Viewing you, therefore, as a complete unit, your rays are:

1. The soul (Aura) ray—the first Ray of Power or Will.
2. The personality (Soma) ray—the second Ray of Love-Wisdom.
3. The ray of the mind—the fourth Ray of Harmony through Conflict.
4. The ray of the astral body—the second Ray of Love-Wisdom.
5. The ray of the physical (Sycal) body—the seventh Ray of Ceremonial Order.
6. The ray of the Monadic vehicle – the second Ray of Love-wisdom – hypothetically SAM

1. Your soul (Aura) first Ray energy seeks expression through and is focused in the 7<sup>h</sup> Ray Physical (Sycal) Body - SAM.
2. Your personality (Soma) second Ray force is focused in the 4<sup>th</sup> Ray Mental Body – SAM.

January 1938

Three words I gave to you in my last communication. They were: Responsibility, Sacrifice and Comradeship. I urged on you the task of awakening the aspirants by whom you are surrounded to an understanding of their significance. You comprehend them yourself, but they must be exemplified, explained and nurtured in all whom you draw into the circle of group influence as collaborators and cooperators with the Plan. Responsibility you can shoulder and have always shouldered. Sacrifice you have always rendered and understood. Your values are sound on this and you want nothing for the separated self. Comradeship, you are learning and it is not an easy lesson at any time for first ray souls to master and express. The littleness of the personalities and the pettiness of individual points of view are irksome to the server of the Plan who stands, serene and detached, upon a first ray pinnacle of vision and resultant comprehension.

I have three points to take up with you and my message to you is brief. I seek not to impose upon you a definite meditation, beyond suggesting that, as you face and shoulder an increasingly wide financial responsibility, you persist in that brooding meditation in relation to the problem which I gave you a while ago. You are coming - as a first ray disciple who is proving himself - under a closer supervision by your Master. My task is now only to stand by. The three points which I would impress upon you are as follows:

1. Waste not time in backward looking nor in futile consideration of the wisdom or the non-wisdom of past undertakings. Go forward with confidence and intensity. Months of focused and intense action lie ahead of you and, rightly carried forward, success awaits you in the gathering of the needed equipment to do the Master's work and aid the Plan.

2. Handle with care the force which flows through you as you shift increasingly into the consciousness of your first ray soul and into a first ray Master's group. See to it that your second ray personality can rightly deal with that force, blending it with love and tempering its power with understanding. **The first ray force must deal with circumstance and must not make its impact upon personalities. It is needed to force issues and determine results (note that phrase) but not to shatter and to hurt.** True impersonality must be borne in mind and your personality must note its effect upon other personalities and offset its innate and oft most useful destructive work.

3. Ponder on joy, happiness, gaiety and bliss; these release the channels of the inner life and reach - in a wide circle - many kinds of men. They heal and cleanse the physical body and help you do your work with little effort, a proper sense of values and a detachment which is based on love and not isolation.

In closing I would say: I am not dissatisfied with the work which has been done by you and the workers in the field but I call you all to deeper understanding and increased activity.

For you I have this word, let not the glamour of fatigue and of disappointment over world conditions lead to abortive work. Fight not the glamour which seeks to impose itself upon you with your first ray indifference - a potent attitude easily assumed by you as by all first ray types. Fight it by non-recognition and by complete absorption in the immediate task; I refer to a wise absorption which neglects no due physical care nor due time for relaxation. The work goes forward in the world along the correct, indicated inner lines. The disciple who has achieved a measure of sensitivity to the Whole must learn to discriminate between aspects of that whole. You are too sensitive to the desire and feeling aspects of the world personality and the glamour of your own reaction to this. Learn to register with equal sensitivity the mass of the world idealisms and aspiring thought; then the glamour of fatigue and of innate disgust will give place to a keen interest and understanding of the glamour-free disciple.

January 1940

The pressure of the work is heavy upon you and it still remains. I have no particular instruction to give you at this time because what has been initiated will achieve its own momentum and travel towards its inevitable conclusion. I will only add that the effort you are making to meet the demands of the work which I have outlined, draws forth my approval and - if persisted in - should prove of prolonged service to humanity. I would ask you to note the word "prolonged" because you are building for the future and, in the future, the true significance of accomplishment will be yours. Proceed, therefore, with patience, with skill in action and with an unmoved persistence.

**In reference to the work of fusion at which you must arrive in connection with your bodily forces and your soul energy, I would call your attention to the fact that your soul energy is focused in your physical equipment, thus bringing together the energy of your soul and the force of your seventh ray brain. There is, consequently, a direct alignment between soul and brain and this must be deepened, understood and utilized. Your personality energy (which is of the second ray) is focused in your fourth ray mind. This leaves your astral body as a unity - by itself, from our standpoint of consideration - and this is, in your case, as it should be. You have a powerful astral body of sufficiently poised control to proceed with the task and the solution of personal relationships, without the undue pressure of personality reactions. Some day a study will be made of the fact that practically all reactions are of an astral or emotional nature, except the reactions of the physical mechanism to the outer tangible environment. This is not yet sufficiently noted by orthodox psychology. The reactions of the personality to the soul and of the astral body to the subjective life are of vital interest to the esotericist.**

The fusion must, therefore, be made between the mind and the brain, each of which expresses one of the two major energies (even forth Ray mind and odd seventh Ray brain - SAM). That fusion already partially exists. When it is consummated, the mental goal of harmony through conflict will be superseded by the inflow of love, working with power through the brain and (incidentally) your general physical health will speedily improve. How shall this be brought about? **The first stage is one of real difficulty, particularly to first ray people. It comes through the power of visualization. That is why ritual is of value to such as you and Masonry - being on the first ray and emanating, consequently, from Shamballa - aids the process of visualization.** It gives color and performance of a tangible kind to inner, subjective activity. **Visualization is a powerful agent in the evocation of the creative imagination... If you use this idea in the planning of the work which you seek to do, and if you carry into all that work the ideal of**

**ritual, of rhythm and of energy distribution, you will evoke a synthetic pattern, a unified procedure and a harmonious working out of the Plan.**

Therefore, I would ask you to give ten minutes each day to the pictorial visualization of your entire work and program. See each phase of it as a lotus of living beauty, connected with all the other phases by lines of fiery energy, thus bringing all parts of it into one whole. All the different phases will form a great unity of light and love, expressing itself through the will-to-good. Be not side-tracked when doing this. Use the building energy of your second ray personality and the seventh ray energy of your brain, because through your brain, your first ray soul energy is expressing itself. You do not here consciously work as a soul. You work with as much soul energy as can express itself at any given time through your brain. If you worked with pure soul energy and from soul levels, you would bring in too much of the Shamballa force for the delicate structure with which you are dealing.

Precede all that you do with a definite effort to bring about the following alignments and in the following order:

1. The alignment of all personality forces with the energy of the personality, focused in the mind nature. This means an aligned personality with the focus of the attention in the intellect.
2. The alignment of the personality with the soul. This means bringing the mind—which is focusing all the lower energies - into direct relation with the soul.
3. The alignment of soul and brain. This is brought about by dropping the personality and all its forces out of your consciousness altogether and relating soul and brain by an act of the will.

When you have done this, then swing back into the mind nature and, focused there, proceed with the work of visualization, as I have above suggested. Build your picture stage by stage.

Go forward with courage, hope and joy, plus understanding. Train those who work with you with painstaking care, for much depends upon them. Remember always that you do not work alone.

#### **AAB FINAL COMMENT NOTE:**

This disciple is still actively engaged in the work.

#### **SAM Synthesis And Mergration Consultation and Interpretation Notes:**

**A. SAM Synthesis Interpretation Notes:** There is a lot to note, however, this will be done only briefly and left to the rest of the group to carry further what has be said above and these brief comments to determine how this may relate to our own lives and our color readings.

1. Monad 'Hypothetical' Blue - 2<sup>nd</sup> Ray considered due to their indicated 'education' in working with group members.
2. Aura Yellow - 1<sup>st</sup> Ray considered willfully Powerful ability to work out Auric, Karmic and Soul relationships.
3. Soma Orange - 2<sup>nd</sup> Ray considered as a person striving for Love Wisdom in life of the integrated personality.
4. Mental Indigo - 4<sup>th</sup> Ray considered a person who is mentally implementing intuition to resolve conflicts.
5. Astral Orange - 2<sup>nd</sup> Ray considered also a person who is emotionally desiring Love Wisdom on the path forward.
6. Sycal Violet - 7<sup>th</sup> Ray considered a person who is physically incorporating ceremony, order and rhythm in their life.
7. The Higher Equilibrium relationship of Blue Monad over Yellow Aura produces a Green of a person striving for harmony on the higher levels of being. This is hypothesized due to the Monadic love searching for Monadic group relationships influenced by an enlightened Auric Soul.
8. The Lower Equilibrium relationship of the Yellow Aura over the Orange Soma considered as a soul directed personality with still some desires and emotions to work out to get to a Love-Wisdom through the Golden combination color of Yellow/Orange.

9. The Hypothetical Soul-Ution relationship of Blue Monad with the Orange Soma or Blue Brown is considered the real Soul-Ution through either the Violet path of balance or the Green path of harmony.
10. The Synthesis is the Blue Brown of the Soul-Ution plus the Yellow of the Aura which indicates the main Green path of Harmony through Conflict mainly on Mental levels if the emotional Astral levels are subdued.
  1. A synthetic and more technical confusion of the person's being which can be 'capped' by the 'Illumination of the Soul' Yellow if the Soul is made the 'Goal' instead of going higher on to the Monad and harmonizing of higher conflicts.
  2. However, the Soul-Union could be 'capped' by the 'Illumination of the Soul' Yellow if the Soul is made the 'Goal' instead of going higher on to the Monad and Soul-Ution confusing factors.
  3. Much more could be said but for us, SAM, the insights lay in the Violet or Green paths of the Soul-Ution, and a harmonious resolution of the Mental conflicts with the consciousness that even the highest illumination of the Aura or Soul is not the goal.

#### **B. SAM Mergration Interpretation Notes:**

1. Mental Indigo - 4<sup>th</sup> Ray considered an intuitive movement towards harmony through conflict.
2. Astral Orange - 2<sup>nd</sup> Ray considered desire for Love-Wisdom.
3. Sycal Violet - 7<sup>th</sup> Ray considered orderly and connected to the personality balance.
4. Higher Balance relationship of Indigo/Orange which forms Red Brown can work together if the Astral accepts the intuition of the Mental and the appropriate path of Violet, Red, Green or Orange is used through the Astral.
5. Lower Balance relationship of Orange/Violet which forms Red Brown if the higher Auric soul is influencing and again the appropriate path of Violet, Red, Green or Orange is used through the Astral into the physical Sycal vehicle.
6. Soma-Ution (union of Mental and Sycal) Indigo + Violet = Violet Indigo forming an intuitive balance.
7. Mergration of Astral Orange over the Violet Indigo of the Soma-Ution forming Red Brown of a person who could, if they can successfully use either the path of Red, Violet, Green or Orange guided by a willful and powerful Aura and impulsed by a Lovingly-Wise Monad become a significant group member.

#### **SAM FINAL COMMENT NOTE ON ADDENDUM 1:**

Hopefully everyone can see and focus on the Divine beauty, harmony, dance and game (Lila), symphony, intelligence, glory, universality, mystery, science, order, evolution, progressions, hierarchies, etc. in these concepts, hypothesizes, theories, realities, teachings, techniques, methods, insights, impressions, intuitions, thoughts, 'Kama-manas' (emotional thought forms), sensations, kingdoms, realms, etc. and increase their usefulness in our lives and increase the usefulness of our lives.

#### **Conclusion (at this point) on ADDENDUM 1:**

May we consider together entering into that higher state of (group/soul) 'bewilderment', especially at this cycle of Aquarian consciousness, yet strength and unity from our lower state of personal certitude and isolation to possibly obtain a universal group consciousness.
