

1. Full Moon of Taurus on Sunday, May 19, 2019 at 00:11:

1. The main Keynote or phrase to consider for all Aries Full Moons (each year): **“I see and when the Eye is opened, all is light.”**
2. Consider the Keynote as close to the Full Moon as possible and what it might mean as a Group.

A. Notes on this coming Full Moon of May/Taurus:

1. **Watch for any impressions** that may come to you before the Full Moon that may relate to the Keynote (especially the two days before the Full Moon, the day of the Full Moon and the two days after the Full Moon).
2. **If you want to share** any of your impressions with us please do. If you want any impressions shared with the group let us know and we will include them in the next month's meditation notes.
3. **This is the second ‘building consciousness and energy’ Full Moon of the Astrological year.** This is the continuation of the first ‘building’ Full Moon of the Astrological year of Aries in March. The energy for the new astrological year will continue building, during this Full Moon of Taurus and the following Full Moon of Gemini (in June). The energy which is built during the three ‘Building’ Full Moons at the beginning of the astrological year is then distributed over the remaining following Full Moons of the astrological year.

B. Notes on or since the last Full Moon April/Aries:

1. **Surya and Angel had strong impressions during the very short Full Moon meditation that we did at the exact time of the Full Moon together with Safi, our daughter.**

One of the sensations in Angel's meditation was a strong feeling of self hatred, which has come up in the past in her life, and which she is learning more about its source and how to allow its ‘undoing’. Much of the undoing came later that day when we discussed, shared, cleared our ‘short’ meditations for 2-3 hours while Safi slept next to us. It was a beautiful experience and by the end of the day the theme song that came for Angel was the “Titanium” song lyrics, "I'm bullet proof, Got nothing to loose, Fire away, Fire away, Recoche... You change your aim, Fire away, Fire away, You shoot me down but I won't fall, I am Titanium".

Surya's meditation focused on how the following two phrases relate to the people in the group: 1. “Let Go and Let God” and 2. “Hang On and Help God”. The impression about these phrases is to: 1. Let people and their personalities/individualities/separations go and let God relate them to the group and 2. Hang on to people and their spirits and group desires and help God relate them to the group.

2. **We met again with Leontina and Katharina and Christian (her brother) and have planted 2 hectare of hemp for research at BioFarmland (BFL) this year.** Last year, 2018, BFL made a test plot of nine acres of hemp on their own which was unsuccessful. It failed for several reasons including the seed variety. The crop was plowed back into the soil because the plants were too small and didn't have a profitable quantity of seeds to justify harvesting which was their main goal since they are mainly seed/grain producers. This year with cooperation from Leontina for seed and site selection and planting instructions we planted a two acre research plot on April 23, 2019. In addition to seed production we will be looking at hemp oil and other production possibilities from the crop. If anyone is interested or wants to participate let us know and we can give our specific dates for other aspects of the crop through the harvest.
4. **Surya, Angel had meetings with the Timisoara mayor's office and 2021 Timisoara Cultural Capital office on April 24, 2019 about possible events for the Cultural Capital celebrations in 2021.** We now have specific contact people and are getting more specific information on event requirements. We will give more information as we learn more of the requirements. If anyone else is interested in helping or participating in these events please let us know. We see this as general coordinating for possible cooperation between SAM2013, BFL, SolarCity (the Natural Way Association), the Hemp Museum, Favisan, Anatacor, and other groups.
5. **Since this past Full Moon meditation SuryaAngel have had the ‘Group Central Pillar Crystal’ completed and given a go ahead to have a metallic lighted stand made for the crystal. This crystal, which is from Russian quartz, we believe links the group geographically and**

geopolitically to Romania and this region. We are letting you know that this crystal could now start having an effect on the consciousness and meditations of the individuals in the group. A photo of the finished process of the crystal for our group work is included with this Full Moon correspondence at the bottom as: Attachment 1. Group Central Pillar Crystal (Finished Work). The timing would be to have the crystal ready so that it would be available for the festival meditation celebrations at the end of this year from December 21-28, 2019. The crystal weight is 5.9 Kg and it is approximately 30 cm high.

If anyone is interested in more information about this crystal, how it might effect or enhance the group, how it can be worked with more consciously, or in supporting the arrival of this crystal and its lighted stand by the end of the year please let us know.

C. General Notes:

1. **We are happy to continue to get to know each other better**, to talk more about these meditations, or other ways that we may cooperate either personally, or as associations or organizations. Please let us know if you would like any other personal or group meetings, if we can meet at Esoteric Fest May 11th or 12th, or if you have any other comments or questions as we move into this group formation year.
2. **We are ending a seven year cycle this year** and therefore are also entering into the start of a Festival year (Festival celebrated from December 21 – 28, 2019) which will be the start of a new seven year cycle and are looking forward to what this will bring to us and the group at the end of this year.
3. **It might be considered that these Group Meditations seek** to make use of the spiritual opportunities that the cycle of full moons provide. The unique energies associated with each constellation are directed into the consciousness as transformative qualities that can lift and expand our hearts and minds.
4. **It might be considered that Group Living tends to the fulfillment of free will in service** and, as this is gradually understood, coming together to co-operate on issues for the benefit of the whole without intentions to dominate, interfere or impose on others. The vision is there, the future is assured, but the key to its successful implementation is that co-operation has to be based on intentions that are based on the good of the whole rather than a focus on self-interest.
5. **The following is the regular monthly cycle and schedule for the group information flow:**
 - a. Full Moon (five days): Two days before, the day of (meditation), and two days after Full Moon for getting impressions.
 - b. The week after the 5 days of the Full Moon: For letting us know or sharing of any impressions during the preceding 5 days. Plus us transcribing our own impressions.
 - c. Second week after Full Moon for 'Anchoring' or 'Grounding' impressions through gathering other information or following up on activities based on the impressions. Possible New Moon meditation by those who want and ending that Full Moon Cycle.
 - d. Third week after Full Moon (just after the New Moon): Starting to build up to the next Full Moon having any questions to impressions shared and answered and any activities based on impressions started or completed.
 - e. Fourth week after the Full Moon (just before the next Full Moon): Coming out with the Keynote and information and timing of the next Full Moon, including the shared impressions or activity from the last Full Moon.
