

Full Moon of Virgo, sixth Full Moon of this Astrological Year, on Thursday, August 31, 2023 at 04:35:25 in Romania:

The main Keynote or phrase to consider for all Virgo Full Moons (each year): **“I am the mother and the child. I, God, I, matter am.”** The Virgo Full Moon Keynote of Light each year is: **“The blended dual Light. (Hint 1: Two lights are seen bright and strong, the light of form; one faint and dim, the light of God. Hint 2: This light is distinguished by a waxing of one and the waning of the other. It differs from the light in Gemini.)”** Consider the Keynotes at, or as close to, the time of the Full Moon as possible and what it might mean as a Group. Each of the constellations also have at least one, but also as many as five, Ray determining energies by which they rule and of which they rule. **The main Ray energy of Virgo is Ray 2 the same as last month for Leo.** So, Virgo has a main energy of Love and Wisdom. It is a recommendation to consider the Leo Keynotes as Ray 2 Keynotes. This is a direct correspondence to the information of our Color Consultations and the way this same Ray determining affects us individually and in our relationship to our group. So, our Color Consultation information can be reviewed and related to each of the Full Moon determining energies to determine the possible effects and opportunities each Full Moon offers each of us personally and in relationship with the group. This was explained and expanded upon from Esoteric Astrology (EA) in general in Addendum 1 from the past Aries Full Moon report (from April 2021). This year we are adding information on how each constellation works as a Triangle in what are called the Astrological or Galactic Triangles. Addendum 1 from the last Aries Full Moon report (from April 2023) is a general introduction about the triangles formed with the 12 Astrological signs and other more distant stars and galactic constellations, taken from EA. Addendum 1, below, relates specifically to Virgo and how it fits into the galactic triangles. Virgo is the sixth sign of the Astrological year and the third of the nine distributing or ‘grounding’ energy and consciousness Full Moons of the year. It continues and helps to distribute or ‘ground’ the higher building cycle consciousness from the first three months of the astrological year of Aries, Taurus, and Gemini (April, May, and June). Addendum 3 from the last Aries Full Moon report (from April 2023) is some additional information on the full moons and possible meditation forms.

A. Notes on this coming Full Moon of August/Virgo:

- 1. Watch for any impressions** that may come to you before the Full Moon that may relate to the Ray 2 Keynotes and your specific Rays (from your Color Consultations), especially two days before the Full Moon, the day of the Full Moon and two days after the Full Moon. **If you want to share** any of your impressions with us please do. If you want any impressions shared with the group let us know and we will include them in the next month's meditation notes.
- 2. This is the sixth of twelve Full Moons of this Astrological year** and is the third of the nine different ‘Distributing Consciousness and Energy’ full moons of this astrological year. The energy which was built and gathered during the first three ‘Building’ Full Moons at the beginning of the astrological year (of April, May June), which is also called the ‘higher interlude’, will now be distributed over the next last nine Full Moons during the end of the astrological year, which is also called the ‘lower interlude’.
- 3. Addendum 1 from the Full Moon report of Aries (from April 2021) gives reference into more insight and inspiration for how to** view some of the expanded awareness of these monthly and yearly Full Moon cycles as we enter into the fifth Astrological Year of this group formation and the group's beginning functioning.
- 4. Addendum 1 below** relates specifically to Virgo and how it fits into the galactic triangles. taken from EA.
- 5. The 2023-4 astrological year Annual Keynote is,** “LET THE GROUP AFFIRM THE WILL AS AN EXPRESSION OF THE LAW OF SACRIFICE.”

B. Notes and Activities on or since the last Full Moon August/Leo:

- 1. SuonAngelMiriam meditated at the time of the new and full moon, together with Safi (when she wanted). We had what we consider** very good meditations of positive grounding of this astrological year's continuing of the Lower Interlude and Angel had some significant experiences and insights on the NM meditation into the diffused light of the Keynote as fire. She also had an experience and insight of vibration and sound, at the NM meditation.

Since the first and highest of the Golden Light Presence crystals, 'MilkyWay' has arrived we are also tuning in to our respective Nirvana IV_{1&2} occult group of crystals during our meditations and sensing an increase of energy due to these crystals.

2. **SuonAngel are talking with 2023 Timisoara Cultural Capital office about a cooperative event possibly named 'SAMatate'** between Favisan, BFL/SolarCity (The Natural Way Assoc. - TNWA), the Hemp Museum, SAM2013 and possibly Anatacor and Aurellian's or other groups for the Cultural Capital celebrations rescheduled to 2023. See the previous meditation report for April for past historical information about this event.
3. **The Group Central Pillar Crystals** and the Esoteric and Occult crystal sets are now finalized along with any rearranging of the other crystals of the set for the 2025 impulse. Please let us know if you would like to explore any of these crystals or have any other input (see photo in previous FM report of Gemini of June 2022). **The three natural triple pointed crystal clusters** are always available for any group members who would like to meditate with them as another way to tune into group consciousness (see previous photo from March 2022 Pisces report). **Of three new 'Circumcentral' crystals two are still on a Lay-Away plan** to be here by the Summer Solstice of 2025 for the Hierarchical Group Impulse year of 2025 and the first has arrived before the recent past Full Moon of Taurus (see photo below).
4. **Poppy research at BioFarmland** (BFL) at Virginia's suggestion. New organic seeds arrived and were planted in October 2022 for the 2023 spring season. Some seeds appeared to be sprouting in April but did not grow. Seeds from this year's wild Poppy harvest were collected and planted in last June for growing during the 2024 season.
5. **Revised and renewed Hemp Museum suggestion** presented to Zoli, Virginia, and Leontina as a possible group project. There was similar input about local, village or household museums from the "Socio-Economico-Cultural Rebirth of the Romanian Village" conference in Item 2 above.
6. **Based on Leontina's previous intentions to establish an educational location near her home further discussions are going on about** a location, financing, possible links to other hemp projects and people. An initial estimate to get a small workshop space built on her land, for materials with mainly voluntary labor or construction, is 3,000 Euros.

Leontina has created the Sopronul Cultural (The Cultural Shack) which is a roof on the spot where people camped last time and where she is holding events together with Pamantul Stramosesc. She has organized there markets, courses for children, seeds exchanges, concerts, etc. The idea of the cultural space for the moment has moved there and she is focused on Pamantul Stramosesc where she is a founder member together with Calin Georgescu. There was an event now with the occasion of 1st of May, held at the Sopronul Cultural together with Pamantul Stramosesc which consisted of a Plama and Plasmatic water making and another of hemp soap making.

Following the event all present together with Leontina discussed about the possibility of building a geodesic dome structure, 9 meters in diameter and 4.5 meters high, as a protected space for the Sopronul Cultural workshops, courses etc. For the moment the period agreed upon for the beginning of the structure is the end of July, exact dates following to be settled together with Pamantul Stramosesc. Anyone who is interested in helping the building of this structure please contact us or Leontina directly. Due to challenges encountered with the political system at her home location, Leontina has decided to stop for the moment Sopronul Cultural and the building of the dome until the environment becomes more friendly to her projects.

7. **SuonAngelMiriam have met personally with Georghe Piperea** and joined his class action law suit against the constitutionality of mandates which is moving forward as discussed in the Full Moon cover letter for Capricorn (2021). September 2022 hearing produced a change in how and who the law suit will be claiming as the defendants and is continuing. Recent meetings at Singfest in September and December 2022. Let us know if you have additional comments or questions. Next meetings scheduled for June 30 to July 2, 2023 at Singfest 2023 were not able to be attended but the law suit is continuing.

8. **SuonAngelMiriam are continuing our interaction with Katharina documenting** how to manage and implement new and better ways of herb growing, drying, processing, soil regeneration, etc.
9. **SuonAngelMiriam are interacting with Virginia on her Bio-Resonance and Herbal and Aromatherapy courses, consultations** and treatments along with the consideration of the SAM2013 Synthesise Tri-Level Color Set as liquids. Updated at meetings in September and October 2022, continuing with Virginia's Certified Herbal and Aroma Therapy courses #1 and now #2 which was in March 2023 and had another meeting at EsotericFest in June 2023 (also see Item #2 above). The next meetings are planned for this Summer and Autumn.
10. **SuonAngelMiriam are working with Remus and others on updating and expanding** one of his personal spirituality courses on Self Esteem as an Esoteric Group project. Anyone interested in knowing more or helping in this group project please let us know. Latest update was at EsotericFest in June 23 with another meeting being planned for this autumn.
11. **We participated in Remus' course about Stress Management** held through anatecor which is related to Virginia's fitotherapy course. We also attended the prayer zoom meeting he and Anatecor organized for the professor Mircea Stefea who passed recently.
12. **SuonAngelMiriam are working with Aurellian on how some of the concepts of his book and course** on "The Numerology of the Soul" might relate and correspond to the SAM2013 Synthesis Tri-Level Color System numerology. Both Aurellian and Suon have had direct contact with Yogi Bahjan who taught the numerology of the soul concepts.
13. **SuonAngelMiriam are working with Mircea on ways of distributing SAMfume** and other products and working more closely together on the other projects listed above. Recent meetings held in September Singfest and at the Singureni Christmas Fair 2022 and then in June 2023 also.

C. Previous Activities Archive:

1. **Hemp** for cooperative research at BioFarmland (BFL) on hold after 3 years of testing.

D. General Notes and considerations about the group, cycles, meditation and information flow:

1. **We are happy to get to know each other better**, or other ways that we may cooperate either personally, or as organizations. Please let us know if you would like any other meetings or if you have any other comments or questions.
2. **2023 continues the new seven year cycle started in 2020.** The final major group 'impact' has been made in 2019 prior to the next 100 year 'impulse' which happens during 2025.
3. **It might be considered that these Group Meditations seek** to make use of the spiritual opportunities that the cycles of full moons, solstices and equinoxes, Group Festival Weeks and Centennial Impulse years provide. The unique energies associated with each constellation, season and longer cycles are directed into the consciousness as trans-formative qualities that can lift and expand our hearts and minds.

4. **It might be considered that Group Living tends to the fulfillment of free will in service** and, as this is gradually understood, coming together to co-operate on issues for the benefit of the whole without intentions to dominate, interfere or impose on others. The vision is there, the future is assured, but the key to its successful implementation is that co-operation has to be based on intentions that are based on the good of the whole rather than a focus on self-interest.
5. **In all meditation it is of value for the student to remember that**, from the standpoint of permanent benefit, it is easier to meditate effectively during the period from the new moon to the full moon, than from the full moon to the new moon. The first half of the lunar cycle is one of intensification, absorption and accretion; the second half is one of assimilation and distribution. More real progress over a long period can be made by observing this cyclic law.
6. **Wisely utilizing newly acquired energies keeps inflowing and out flowing channels open** and prevents Sycal (psychical), Astral (emotional), Mental (intellectual) congestions, which may otherwise be experienced, with their accompanying physical consequences.
7. **The following regular monthly cycle is for the group information flow:**
 - a. Full Moon (five days): Two days before, the day of (meditation), and two days after Full Moon for getting impressions.
 - b. The week after the 5 days of the Full Moon: For letting us know or sharing of any impressions during the preceding 5 days. Plus us transcribing our own impressions.
 - c. Second week after Full Moon for 'Anchoring' or 'Grounding' impressions through gathering other information or following up on activities based on the impressions. Possible New Moon meditation by those who want and ending that Full Moon Cycle.
 - d. Third week after Full Moon (just after the New Moon): Starting to build up to the next Full Moon having any questions to impressions shared and answered and any activities based on impressions started or completed.
 - e. Fourth week after the Full Moon (just before the next Full Moon): Coming out with the Keynote and information and timing of the next Full Moon, including the shared impressions or activity from the last Full Moon.

Addendum 1: Virgo, The Virgin, constellation hypothesizes and considerations on the Galactic Triangles from EA:

VIRGO, THE VIRGIN:

This study will fall into three parts as I earlier indicated:

1. Triangles of Energy—constellations.
2. Triangles of Force—planetary triplicities.
3. The Triangles and the Centres—planetary and human.

First Triangle:

The Pleiades . . . Cancer . . . Venus.
Humanity.

Second Triangle:

The Great Bear . . . Aries . . . Pluto.
Shamballa.

Third Triangle:

Sirius . . . Leo . . . Jupiter.
Hierarchy.

TABULATION IX - A COSMIC SERIES OF INTERRELATED TRIANGLES

(The Rays, Constellations and Planets)

		<u>Planets</u>	
		<u>Orthodox</u>	<u>Esoteric</u>
II. Love-Wisdom	Gemini	Mercury	Venus
	Virgo	Mercury	The Moon
	Pisces	Jupiter	Pluto
VI. Idealism. Devotion	Virgo	Mercury	The Moon
	Sagittarius	Jupiter	The Earth
	Pisces	Jupiter	Pluto

All these appearances, expressions of qualities and material evidences of life are the symbols or outer and visible signs of inner and spiritual realities or of Life, whatever you may mean by that term...

...Again and repeatedly, students must remind themselves that we are considering the impact of energy upon energy units (all qualified and producing appearance) and with the response of those energy units to the streams of force which reach them from "the furthest centre." It is in the development of response to distant points of contact and emanating sources of energy that the needed sensitivity is produced. Sensitivity, generally speaking, is of a threefold nature:

1. Sensitivity to that which is found within oneself. This, when the consciousness is adequately self-sufficient, opens a door for the entrance of energies coming from the "middle centre." I speak in symbols and for those whose knowledge of cosmic location and of points in time and space will enable them to comprehend; to the uninitiate, I simply say, "Respond to soul impact."
2. Sensitivity to that which emanates from the "centres left behind" or to those streams of vital energy which lie active and focussed below the threshold of the waking consciousness. They stir the threads of memory; they draw backward the glances (and there lies magic in the energy of the eye) of the onward moving Point, the Pilgrim on his way; they condition through ancient habit the responsiveness of the units in the form.
3. A developed sensitivity which emerges from the "furthest centre" at first unconsciously employed and later consciously directed and attuned—a fully magnetic and attractive sensitivity. Forget not that true interplay imposes the condition of reciprocity and that the two points or termini of a line eventually vibrate in unison.

... Four constellations have been omitted ...:

Leo	Virgo	Aquarius	Pisces
Self-consciousness	Christ consciousness	Group consciousness	Universal consciousness

They are basically concerned with the expression of consciousness on the outer external planes of expression or with the fusion of soul and form in order to demonstrate fully a state of awareness. These facts will become apparent if the four esoteric planets connected with these four constellations are considered and related:

The Sun	The Moon	Jupiter	Pluto
The Soul	The Form	Beneficent Life	Death

It will also be apparent to the astrologer of the future along which lines the chart of the soul must be drawn; the major triangles and the three cosmic Crosses will control his deductions as to the unfoldment of consciousness. The triangles indicate possibility; the Crosses indicate process and points of crisis...

... There is one triad of cosmic energy that is of supreme importance upon our planet and it is the united influence of its three constellations which will eventually bring about the initiation of the planetary Logos; this will warrant any future planetary expression of His life to be termed a "sacred planet." At present our Earth is not regarded as a sacred planet. Later, when these three energies have produced adequate effect and the needed planetary changes have been produced, the term "sacred" will be deemed correct and appropriate. This statement of course means little to any student at this time. When, however, he is able factually to realise two things, the case will be different. These are:

First, that the threefold energies which lie back of the activity of the centre at Shamballa concern the planetary Logos; humanity is slowly becoming sensitive to that influence, but only in mass formation and not individually. Only theoretically can a disciple take note of this fact.

Second, these influences are playing upon that aspect of human life which we call the Monad; they will, therefore, have a steadily increasing effect upon the Path of Initiation.

These three constellations are Leo—Virgo—Pisces. They are spoken of esoterically as "the Producers of that which knows, the Informers of that which is awakened and the Constructors of the modes of fusing Wisdom. They produce a unity; They shatter that which They have produced only again to produce it in greater beauty and in wider fullness." These words are clear. This triangle is, at this time, an inverted one with the Leo energies in the closest contact with our planetary life. The following triangle will show this more clearly.

These three are connected definitely and increasingly with the unfoldment of human consciousness in three main aspects.

There is the development of self-consciousness to be fostered and this is the major effect—as well you know—of the force of Leo. The influence of this constellation aids in the manifestation of individual will, individual love, and individual intelligence; it fosters the "ahamkara" or egoistic principle; it produces the emphasis upon the "I am" attitude which is so necessary a stage before the individual can merge himself as a conscious Self-respecting unit in the Whole. But behind this influence and pressing through into manifestation is the force of Virgo (the mother or custodian of the Christ-consciousness) which shatters eventually the synthesis and the lower unity already produced by the Leo energy; it stimulates the soul within the form as well as the soul within each atom in the form, because the genius and uniqueness of Virgo is that it produces the form as well as stimulates the life within that form and, therefore, nourishes and energises two lives simultaneously. It is a powerful dual energy, a potent expression of the anima mundi or the soul of the world. It was the recognition of this which made the ancient astrologers merge Virgo-Leo into one sign. Then as the dualism of the human spirit (spirit-matter) became a fact in the consciousness of man, the sign was divided into two signs and the war of the pairs of opposites became a "war with purpose" and is, incidentally, reaching its climax today. This fact will be obvious to all true esotericists.

Another stream of energy is also pushing through and producing effects upon those in the human family who not only respond to the Leo force and are consequently individuals in their own consciousness but are responding also to the steadily expanding Christ-consciousness; of this they are becoming increasingly aware in their own individual experience. This is the higher aspect of the energy of Pisces; it is awareness of the group, of the whole and of the universe. It is the energy of buddhi, the higher aspect of the lower psychic nature; it is the aspect of the mediator in contradistinction to the medium. It is intuitional control instead of the intellectual overlordship of Leo and the limitations of Virgo.

These three energies are today playing potently on humanity, producing:

1. The self-consciousness of man, as he emerges out of the mass.
2. The recognition of the Christ life and nature, as the aspirant for the first initiation emerges out of the group of world individuals.
3. The awareness, universal in nature, of the initiate, as he emerges out of the ranks of the world disciples.

All this is, therefore, brought about at this time by the steady inflow of the energies of Leo-Pisces-Virgo and these lie behind the very rapid unfoldment of the three types of consciousness to be found in varying degrees in humanity today.

There are, as I pointed out earlier, seven great crises in connection with the human being upon the path of evolution; they cover the earlier, the later and the final stages of his growth. These it should be borne in mind are precipitated through the conditioning influences of seven great constellations. Let us consider them for a moment. They are:

THE CRISES OF THE SOUL

Crisis	Quality	Constellation	Cross
1. Crisis of Incarnation	Individualisation	Cancer	Cardinal
2. Crisis of Orientation	Reversal	Aries	Cardinal
3. Crisis of Initiation	Expansion	Capricorn	Cardinal
4. Crisis of Renunciation	Crucifixion	Gemini	Mutable
5. Crisis of the Battlefield	Conflict	Scorpio	Fixed
6. Crisis of the Birthplace	Initiation	Virgo	Mutable
7. Crisis of Burning ground	Liberation	Leo	Fixed

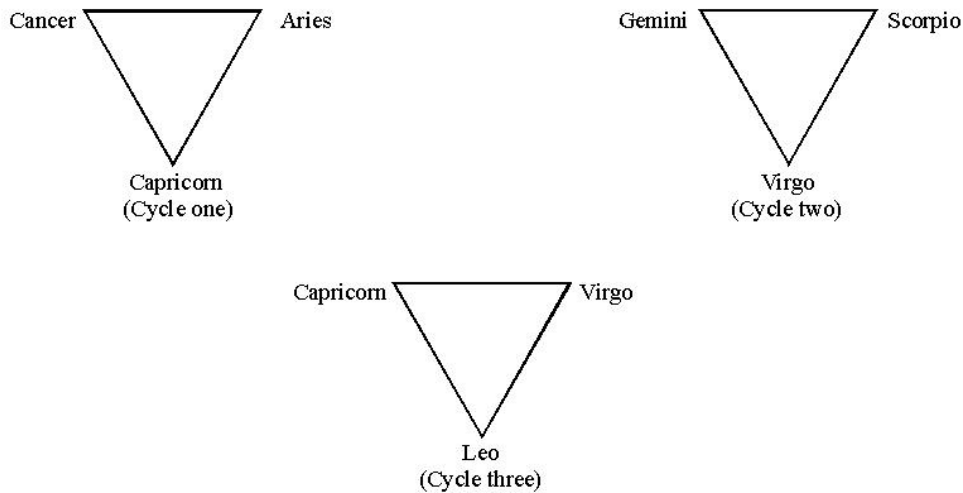

You will note that two of the constellations which we have just been considering—Leo and Virgo—are to be found in this list. Five constellations are not so intimately concerned with the mass human crises but are more definitely and specifically related to the unfoldment of the individual disciple. These are: Sagittarius, Libra, Taurus, Pisces and Aquarius. Pisces has, however, at this time a unique relation to the seven constellations which produce the great human crises; it also completes the final united effort of the Triangle: Leo, Virgo, Pisces. It has been the steady impact of Piscean force which has at long last brought humanity, the world disciple, to the very door of initiation. For over two thousand years, Piscean influence has been playing upon mankind; it has brought about the demand for world adjustment; it has developed the international spirit and has led to the formation of groups in every department of human living and so laid the foundation for the future synthesis in Aquarius. The influence of this triangle finds symbolic expression in the life of the self-conscious individual who reaches self-awareness in Leo; in the culturing care of Virgo and the final self-release in Pisces.

At this point I would like to pause for a moment and interpolate a word in answer to a perfectly normal question which is liable to arise in the minds of thinking students and aspirants today. Of what use is all this abstruse and abstract information to a world in agony and a world distressed? The major usefulness of this imparted information which will condition the astrology of the future lies far ahead in the period after the war when again the field of world service opens and men have time for thought and due reflection. World service is going on now perhaps in greater volume than ever before but it is restricted to the field of releasing from slavery and alleviation of pain and suffering, and, therefore, to the more strictly physical forms of help. The service to which I here refer is that educational process which will produce the coming civilisation and its attendant culture. This will be based on all the cultural processes of the past and of the present, but will discard all that has produced the disasters of today, as far as may be possible. That means a gradual future usefulness for the knowledge of the underlying potencies, for they can indicate the lines of least resistance to the emerging good and the developing crises which inevitably lie ahead in the period of reconstruction. But one potent good can emerge even at this time from a study of these matters, provided the student of esotericism rests not content with study (using it as an escape from the disastrous present) but parallels his understanding of the causes and conditions by a strenuous effort to be of aid in a practical and a definitely physical sense.

This is the dominant emerging fact to which all that I have said bears testimony: world conditions today - precipitated as they are by human greed and ignorance - are nevertheless basically conditioned by the will-to-good which is the primary quality of the energies and forces coming forth from the great Lives in which all that exist live and move and have their being. The Law of the Universe (and what is law but the working out of the purposes of these all-embracing Lives, of Their impulses and Their plans?) is to all eternity the good of the whole and naught can arrest this happening; for who can arrest the impact of these energies which play upon and through our planet. When I say this, I would at the same time point out that the attitude of many students, inevitably participants in world events, that "such is the Law and such is the Karma of people and nations and such is the pre-determined destiny" is far from right. They believe - sometimes sincerely - that all that should be done is simply to wait for results to appear and for karma and destiny to fulfil itself. Then and not till then, all will be well. But they forget that karma fulfils itself in relation to the form nature upon which it expends its energy and that where there is a static condition and a quiescent attitude, the process moves but slowly; the life then within the form fails to experience the needed, forceful awakening; inevitably then there lies ahead a repetition of the process until the time comes when activity and response is evoked. This then leads to resistance to the apparent karmic necessity and this brings about liberation. Only through resistance to evil (and in this world period and in this kali-yuga, as the Eastern teachers call it, it is an essential basic attitude) can karma be brought to an end. The law of matter still governs in the three worlds of human experience and "fire by friction" must burn up that which veils the steadily increasing brilliance of solar fire. It is the recognition of "solar fire"—as it shows itself in a transcendental idealism and radiance—by the unintelligent idealist, and his simultaneous refusal to

cooperate in this period of karmic necessity, that is prolonging the difficult and cruel situation and leading him individually to sink deep into glamour. The simplification of the world's problem in terms of matter comes through a recognition of the essential dualism underlying events. I commend this thought to all students, suggesting that they base optimism on the long range vision, endorsed by the Heavens and corroborated by the activity of the stars, and thus feel sure of the ending of this immediate tragic situation.

The influences of these seven constellations is symbolised by three triangles and a final synthesis or focal point. Esoterically, these triangles are usually depicted as superimposed but for the sake of clarity we separate them.

We have here three triangles but, at the same time, only seven influences for the effects of the conditioning forces of the two triangles predominantly active in the first two cycles are fused and blended in the third. These blended influences (with the aid of the remaining five constellations, Sagittarius, Libra, Taurus, Pisces and Aquarius) enable the disciple to escape out of the human kingdom into the kingdom of souls. We have therefore:

1. Seven constellations

Cancer, Aries, Gemini, Scorpio, Capricorn, Virgo, Leo, which bring the man from the stage of individualisation to the Path of Discipleship.

2. Eight constellations (which include three out of the seven) which bring the disciple from the stage of selfhood to that of the self-initiated and perfected soul.

It is not my intention to analyse these crises. These, the student who is in earnest and who is observant can work out for himself.

I would also point out that I have (again necessarily) only depicted the three triangles in a certain order with the lower points expressing the energy of certain constellations. In this form they depict the final outcome and the final results of a particular group of three crises. It must be remembered that only through much repetition and frequent focussed effort are these results attained. A crisis is brought about by a certain habit of mind, developed in the vehicle; it is surmounted in time only by a certain habit and rhythm of the spiritual content of the man's nature. It is the establishing of a certain objective rhythm which produces a crisis; it is the emergence of a particular subjective rhythm which enables a man to surmount the crisis and to capitalise on the opportunity. Please bear this in mind.

These seven crises can also be related to the seven centres in the vital or etheric body, and advanced students will later find that there is a close cyclic interrelation between:

1. The seven planes of divine expression.
2. The seven states of resultant consciousness.
3. The seven crises, leading to the expansion of consciousness.
4. The seven initiations, climaxing these expansions.
5. The seven centres wherein these results are realised.

Let me remind students that all the twelve constellations bring about man's evolutionary development and eventual release from the Great Wheel of living existence. Seven of these are, however, primarily useful in bringing about the seven crises of the soul whilst five of them are instrumental upon the final stages of the Way in enabling the disciple or initiate to utilise the experience gained and the values grasped in effecting entrance into the fifth kingdom in nature. You have, therefore, the 12 + 7 + 5, making 24 in all and in these are to be found the "24 episodes which mark the Cross of Life." From the standpoint of Christian symbolism (even though the interpretation is as yet inadequate) these seven crises correspond to the seven stations of the Cross which mark the way of an advancing world Saviour...

...I would remind you of what I said earlier in the treatise that the Science of Triangles is related to spirit and synthesis. I would remind you also that what I have written in this astrological section of the Treatise on the Seven Rays is intended for the instruction of disciples at the close of this century (SAM – this means now)...

Conclusion (at this point):

May we consider together entering into that higher state of (group/soul) 'bewilderment', especially at this cycle of Aquarian consciousness, yet strength and unity from our lower state of personal certitude and isolation to possibly obtain a universal group consciousness.
