

Full Moon of Virgo, sixth Full Moon of this Astrological Year, on Sunday, September 7, 2025, at 20:08:52 in Romania:

The main Keynote or phrase to consider for all Virgo Full Moons (each year): **“I am the mother and the child. I, God, I, matter am.”** The Virgo Full Moon Keynote of Light each year is: **“The blended dual Light.”** **“(Hint: Two lights are seen bright and strong, the light of form; one faint and dim, the light of God.)”** Consider the Keynotes at, or as close to, the time of the Full Moon as possible and what it might mean as a Group. Each of the constellations also have at least one, but also as many as five, Ray determining energies by which they rule and of which they rule. **The main Ray energy of Virgo is considered to be Ray 2.** So, Virgo is considered to have main energies of Love Wisdom or what is considered as Understanding. In other ways, A.A.B. writes in DINAI, page 109, “this ray is preeminently the teaching ray, the ray that is sometimes called that of “light-giving influence” or the “ray of the illuminator.” “The task of all true educators is to bring light to the minds of those they instruct, so that they may walk more securely in the way which leads to the goal for any particular incarnation.” It is a recommendation to consider the Virgo Keynotes as Ray 2 Keynotes. This is a direct correspondence to the information of our Color Consultations and the way this same Ray determining affects us individually and in our relationship to our group. So, our Color Consultation information can be reviewed and related to each of the Full Moon determining energies to determine the possible effects and opportunities each Full Moon offers each of us personally and in relationship with the group. This was explained and expanded upon from Esoteric Astrology (EA) in general in Addendum 1 from the past Aries Full Moon report (from April 2021 – please let us know if you would like that resent to you).

This year we are adding information and specific examples of how each Ray can and does effect the different parts of our being and our roles in a Monadic Manifestation Group as Addendum 1 below. We are again continuing, after last month's change, to take one example of a different individual's ray structures per month from the books, “Discipleship in the new age I & II” by Alice A. Bailey. Then we will add the corresponding colors and interpretations from a SAM2013 Synthesis color consultation/interpretation to the example. This will hopefully help each person see possible ways in which their color readings and hypothetically interpreted Rays may be affecting themselves and their relationships in groups. This will also hopefully help prepare for our work with the new set of Synthesis (Higher SAM Soma Aura Monad) color products being developed by Virginia at Favisan for us. And finally, for now, this will also hopefully help prepare for our work with the future 'Mergration' (Lower SAM Sycal Astral Mental) color products. Then there will be a complete set of SAM2013 Synthesis And Mergration color products which help show how the 'Mergration' of the Sycal Astral Mental bodies/vehicles/consciousnesses into the Soma or Personality then Synthesizes with the Aura and Monad. Or in reverse the SAM2013 Synthesis And Mergration products would help show how the Synthesis of the Soma Aura Monad bodies/vehicles/consciousnesses then 'precipitates into', determines, influences, governs, or even differentiates, splits or divides into the Mental Astral Sycal bodies/vehicles/consciousnesses from the Soma. From the simple and colorful basis of SAM2013 Synthesis And Mergration color system our internal and external relationships and interactions in life can be viewed, analyzed, discussed, patterns seen, 'paths of least resistance', rhythms and cycles identified and defined, and much more in the realm of conscious understanding and communication. More can be found at our website at: <https://www.sam2013.org/colorschooll.html>.

Virgo is the sixth sign of the new Astrological year and the third of the nine 'grounding or anchoring energy and consciousness' Full Moons of the year. It helps to continue to manifest the new 'birthing' energy of the higher building cycle for the astrological year which happened during the past full moons of Aries, Taurus, and Gemini (April, May, and June) which is also called the Higher Interlude. Then Virgo and the following six different full moons of the year continue to ground or anchor and manifest these higher interlude energies and consciousness and are considered the Lower Interlude. Addendum 3 from the past Aries Full Moon report (from April 2023) is some additional information on the full moons and possible meditation forms (please let us know if you need that resent to you or it can be downloaded from the website at the bottom of the page at: www.sam2013.org/group_consciousness.html).

The Key to the Ray 2 Method is: **“Let all the life be drawn to the Center, and enter thus into the Heart of Love Divine. Then from that point of sentient Life, let the Soul realize the consciousness of God. Let the word go forth, reverberating through the silence: 'Naught is but Me!'”**

Please continue to keep in mind, from the Gemini Full Moon Report (May 2024), Addendum 2 which was two papers titled, "Vision Paper: Unfolding Work for 2024-2026" by 2025 Initiative (www.2025initiative.org) and "More details about this proposed experiment and our groups' ideas about the unfolding opportunities of the period of 2024-2026". The addendum started with a note from us as an introduction about the papers and can also be found on the website at the bottom of the page at: www.sam2013.org/group_consciousness.html.

A. Notes on this coming Full Moon of September/Virgo:

- 1. Watch for any impressions** that may come to you before the Full Moon that may relate to the Ray 2 Keynotes and your specific Rays (from your Color Consultations), especially two days before the Full Moon, the day of the Full Moon and two days after the Full Moon. **If you want to share** any of your impressions with us please do. If you want any impressions shared with the group let us know and we will include them in the next month's meditation notes.
- 2. This is the sixth of twelve different Full Moons of this Astrological year** and is the third of the nine different full moons for grounding of 'Consciousness and Energy' full moons of this astrological year. The energy which is built and gathered during first three 'Building' Full Moons at the beginning of the astrological year, which is also called the 'higher interlude', will then be distributed over the last nine different Full Moons during the end of the astrological year, which is also called the 'lower interlude'.
- 3. This Full Moon will be a Full Moon lunar eclipse** and that is considered to have effects on increasing the potency of the energies of the full moon and especially on the Group Consciousness of the Full Moon.
- 4. This astrological month of Virgo will have two New Moons in it so that after the second New Moon of Virgo the Full Moons** for the rest of this astrological year will come before the New Moon in each astrological sign. This normally makes the meditations more difficult due to the next Full Moon impulse coming before the New Moon impulse and should be given consideration in our meditations for the rest of the year.
- 5. Previous addendum 1 from the Full Moon report of Aries (April 2021) gives reference into more insight and inspiration for how to** view some of the expanded awareness of these monthly and yearly Full Moon cycles as we continue through this seventh Astrological Year of this group formation and the group's functioning.
- 6. Addendum 1 below again relates to** information and specific individual examples of how each Ray can and does effect the different parts of our being and our roles in a Monadic Manifestation Group.
- 7. The 2025-6 astrological year Annual Keynote is, "LET THE GROUP EXPRESS THE QUALITY OF THE HIDDEN VISION:"** Hint: "The hidden vision is not "man's vision of God" but "God's own vision of His purpose."
- 8. The Fall Equinox will occur on Monday September 22, 2025 at 21:19:00 in Romania after this Full Moon.** The Fall Equinox is considered as the end or harvest of the last growing season and the beginning or seed of the new growing season. This is the time of the year when the energies of natural growth end and are at their lowest and at the same time the new is conceived and starting to get ready for birth.

B. Notes and Activities on or since the last Full Moon August/Leo:

- 1. SuonAngelMiriam meditated at the time of the full moon and new moon together with Safi (when she wanted). We had what we consider** very good meditations for the continued new Astrological year and of the grounding of consciousness cycle of the astrological year and of this year of Impact on the next 100 years. We are still having more experiences during the toning, chanting and vocalizing parts of the meditations and with the group exoteric, esoteric, and occult crystals and now also with some of the new hand held crystals this year.
- 2. All new crystals for this 2025 impulse year, that happens once every 100 years,** have been received and this culmination of the crystal grid as a blueprint for this group work has been anchored on this just past Summer Solstice Puja (see previous reports for more information and pictures of these crystals and the Puja).
- 3. Revised and renewed Hemp Museum suggestion** presented to Zoli, Virginia, and Leontina as a possible group project. There was similar input about local, village or household museums from the "Socio-Economico-Cultural Rebirth of the Romanian Village" conference in previous reports. Latest brief meeting was at Leontina and Zoli's spring 2025.

4. **Based on Leontina's previous intentions to establish an educational location near her home further discussions are going on about** a location, financing, possible links to other hemp projects and people. See previous reports. Leontina has decided to stop for the moment Sopronul Cultural and the building of the dome until the environment becomes more friendly to her projects. See previous updates. Pamantul Stramosesc has been dissolved as a formal association in 2025. July 27, 2025 there was a spontaneous meeting with a well known herbalist and shared meal with open discussion at Loredana's house.
5. **SuonAngelMiriam are continuing our interaction with Katharina documenting** how to manage and implement new and better ways of herb growing, drying, processing, soil regeneration, distilling, etc.
6. **SuonAngelMiriam are interacting with Virginia on her Bio-Resonance and Herbal and Aromatherapy courses, consultations** and treatments along with the consideration of the SAM2013 Synthesis Tri-Level Color Set as liquids. See previous reports. The first production of Virginia's Favisan samples of the SAM2013 Synthesis Tri-Level Color System have been made and are being tested for many characteristics. **The set tested well enough to use for color consultations.** The consultations are continuing. Please let us know if you are interested.
7. **SuonAngelMiriam are working with Remus and others on updating and expanding** one of his personal spirituality courses on Self Esteem as an Esoteric Group project. Anyone interested in knowing more or helping in this group project please let us know. Updated in October 2023. **Remus passed in May 2025** however, he is still being considered as part of the group and the project at present is continuing.
8. **SuonAngelMiriam are working with Aurellian on how some of the concepts of his book and course** on "The Numerology of the Soul" might relate and correspond to the SAM2013 Synthesis Tri-Level Color System numerology. Both Aurellian and Suon have had direct contact with Yogi Bahjan who taught the numerology of the soul concepts.
9. **SuonAngelMiriam are working with Mircea on ways of distributing SAMfume** and other products and working more closely together on the other projects listed above. Recent meetings held in September Singfest and at the Singureni Christmas Fair 2022 and then in June 2023 also. The last meeting in Bucharest in March, 2024 for a brief update. Phone meetings are on-going.

C. Previous Activities Archive:

1. **Hemp for cooperative research at BioFarmland (BFL) on hold after 3 years of testing.**
2. **2023 Timisoara Cultural Capital office cooperative event named 'SAMatate'. See FM Sagittarius 2023 for final update on this report.**
3. **SuonAngelMiriam have met personally with Georghe Piperea and joined his class action law suit against the constitutionality of mandates. Suit was lost, see previous report details.**
4. **We participated in Remus' course about Stress Management held through ANATECOR** which is related to Virginia's fitotherapy course. We also attended the prayer zoom meeting he and ANATECOR organized for the professor Mircea Stefea who passed in 2023.
5. **Poppy research at BioFarmland (BFL) at Virginia's suggestion.** After three years of starting to self propagate in 2025 the project has been stopped since it would require permits to continue propagation.

D. General Notes and considerations about the group, cycles, meditation and information flow:

1. **We are happy to get to know each other better**, or other ways that we may cooperate either personally, or as organizations. Please let us know if you would like any other meetings or if you have any other comments or questions.
2. **2025 continues the new seven year cycle started in 2020.** The final major group 'impact' has been made in 2019 prior to the next 100 year 'impulse' which happens this year 2025.
3. **It might be considered that these Group Meditations seek** to make use of the spiritual opportunities that the cycles of full moons, solstices and equinoxes, Group Festival Weeks and Centennial Impulse years provide. The unique energies associated with each constellation, season and longer cycles are directed into the consciousness as trans-formative qualities that can lift and expand our hearts and minds.
4. **It might be considered that Group Living tends to the fulfillment of free will in service** and, as this is gradually understood, coming together to co-operate on issues for the benefit of the whole without intentions to dominate, interfere or impose on others. The vision is there, the future is assured, but the key to its successful implementation is that co-operation has to be based on intentions that are based on the good of the whole rather than a focus on self-interest.
5. **In all meditation it is of value for the student to remember that**, from the standpoint of permanent benefit, it is easier to meditate effectively during the period from the new moon to the full moon, than from the full moon to the new moon. The first half of the lunar cycle is one of intensification, absorption and accretion; the second half is one of assimilation and distribution. More real progress over a long period can be made by observing this cyclic law.

- 6. Wisely utilizing newly acquired energies keeps in flowing and out flowing channels open** and prevents Sycal (psychical), Astral (emotional), Mental (intellectual) congestion, which may otherwise be experienced, with their accompanying physical consequences.
- 7. The following regular monthly cycle is for the group information flow:**
- Full Moon (five days): Two days before, the day of (meditation), and two days after Full Moon for getting impressions.
 - The week after the 5 days of the Full Moon: For letting us know or sharing of any impressions during the preceding 5 days. Plus us transcribing our own impressions.
 - Second week after Full Moon for 'Anchoring' or 'Grounding' impressions through gathering other information or following up on activities based on the impressions. Possible New Moon meditation by those who want and ending that Full Moon Cycle.
 - Third week after Full Moon (just after the New Moon): Starting to build up to the next Full Moon having any questions to impressions shared and answered and any activities based on impressions started or completed.
 - Fourth week after the Full Moon (just before the next Full Moon): Coming out with the Keynote and information and timing of the next Full Moon, including the shared impressions or activity from the last Full Moon.

ADDENDUM 1:

After last month's addendum on how the crystal grid corresponds with these continuing monthly addendums (during this 2025 Astrological year) and this once in 100 year, 'year of higher impulse' we will now continue with a person's Rays. However, this month will be the hypothetical generalizations of people who are in the process of integrating their Sycal, Astral, and Mental consciousnesses into an integrated personality or Soma. These monthly examples are designed to help each person understand and apply their Ray qualities, in their Color Consultations, to the opportunities available at the time of the Full and New Moons for gaining more conscious understanding and then applying that conscious understanding in their daily lives. Hopefully you will enjoy them independent of what changes in consciousness or life they may bring as long as what comes is 'higher and forward' – SAM.

A. Forward notes by SAM restated from the above Report:

This month we are continuing the year of adding information with specific and general examples of how each Ray can and does effect the different parts of our being and our roles in a Monadic Manifestation Group as Addendum 1 below. We are taking one example of a different individual's or a general type of individual's ray structures per month from the books, "Discipleship in the new age I & II" and "Esoteric Psychology I & II", by Alice A. Bailey. Then we will add the corresponding colors and interpretations from a SAM2013 Synthesis color consultation/interpretation to the example. This will hopefully help each person see possible ways in which their color readings and hypothetically interpreted Rays may be affecting themselves and their relationships in groups. This will also hopefully help prepare for our work with the new set of 'Synthesis' (Higher SAM Soma Aura Monad) color products being developed by Virginia at Favisan for us. And finally for now this will also hopefully help prepare for our work with the future 'Mergration' (Lower SAM Sycal Astral Mental) color products. Then there will be a complete set of SAM2013 Synthesis And Mergration color products which help show how the 'Mergration' of the Sycal Astral Mental bodies/vehicles/consciousnesses into the Soma or Personality then Synthesizes with the Aura and Monad. Or in reverse the SAM2013 Synthesis And Mergration products would help show how the Synthesis of the Soma Aura Monad bodies/vehicles/consciousnesses then 'precipitates' into, determines, influences, governs, or even differentiates, splits or divides into the Mental Astral Sycal bodies/vehicles/consciousnesses from the Soma. From the simple and colorful basis of SAM2013 Synthesis And Mergration color system our internal and external relationships and interactions in life can be viewed, analyzed, discussed, patterns seen, 'paths of least resistance', rhythms and cycles identified and defined, and much more in the realm of conscious understanding and communication. More can be found at our website at: <https://www.sam2013.org/colorschoo.html>.

Examples of a different individual's Ray structures are from the books, "Discipleship in the new age (DINA) I & II" and "Esoteric Psychology II", by Alice A. Bailey - AAB. This will hopefully help each person see possible ways in which their color readings and hypothetically interpreted Rays may be affecting themselves and their relationships in groups (Free online at: https://www.lucistrust.org/online_books/discipleship_in_the_new_age_vol_i_oobooks)

B. Forward Notes by AAB briefly restated from the previous Report (see previous Full Moon report of Cancer for full statement):

We are taught in the esoteric philosophy that seven great divine Emanations, Aeons or Spirits (in Whom we live and move and have our being) came forth from God at the time of the Creation. The same teaching can also be traced in the Holy Bible. Upon one or other of these seven Rays, the souls of all forms of life are to be found as well as the forms themselves. These seven rays produce the seven major psychological types.

These seven rays or emanations are:

1. The first Ray of Will or Power. Many great world rulers are found on this ray, such as Julius Caesar.
2. The second Ray of Love-Wisdom. The Christ and the Buddha are to be found on this ray. It is the great teaching ray.
3. The third Ray of Active Intelligence. The mass of intelligent humanity are found on this ray.
4. The fourth Ray of Harmony through Conflict. Aspirants. Struggling, well-meaning people. Workers for unity emerge along this line.
5. The fifth Ray of Concrete Knowledge or Science. Scientists and people who are purely mental and governed only by the mind.
6. The sixth Ray of Devotion or Idealism. Many Christian people. Fanatics. Numbers of earnest Churchmen of all the world religions.
7. The seventh Ray of Ceremonial Order or Magic. Masons. Financiers. Great businessmen and organizers of all kinds. Executives are found with these energies in their equipment.

However, only when a man is highly developed and nearing the Path of Discipleship is it possible for the esoteric student accurately to surmise what his ray may be. People of all kinds and professions are found on all the rays. **The conflict in a disciple's life is found to lie in the fact that the ray of his soul and the ray of his integrated personality are posed against each other. At the same time, his emotional nature, his mental equipment and his physical brain are also controlled by some one or other of the rays and in this five-fold relationship lies hid much of the problem of the evolving human being.**

C. Introductory Notes by AAB continued in Cancer 2025 are now continued in Virgo (after skipping last month in Leo):

This is an experiment likewise for me... **I ask for your aid and cooperation during these early stages of the work as far as the reaching of conclusions is concerned. I ask you to stand together - no matter what eventuates or what forces may seek to separate you. I ask my disciples to love each other in spite of character and ray differences and to work loyally together for group coherence and integrity - no matter what diverse opinions you may hold or what may occur as time elapses. If you can hold together down the years and throughout this life cycle, then the group can carry forward into the future and work together on other planes, thus conserving energy. Can you persist and carry on? Can such a telepathic interplay be set up that the barrier of death will eventually prove no barrier at all and continuity of communication persist?**

Many such questions arise and time alone will give the answer. **If there is persistence in effort, if there is the loyal link of love, if there is adherence to the group ideal and if there is mutual forbearance and understanding and patience, it may be possible that this group can be welded into a unit which will indeed be a living atom in the hierarchical body.** You are all on the Path of Discipleship at some stage or another; in this lies opportunity.

This is a body (small indeed) of disciples who - through devotion to truth, through their attempt to do their duty, and their mutual karmic relation both to each other and to me - have been chosen (in spite of limitations and faulty development) to work together towards the specific end of forming a nucleus of spiritual power and energy for the helping of humanity. **But above all else, it is a group formed to inaugurate the methods of the New Age as regards 'group work'**, and the training of disciples and their preparation for initiation, along with other groups all over the world who have caught the new vision and are working under the inspiration and the impression of the Masters. The foundation of these schools of the Mysteries which will later be restored to the world and to which I referred in "Letters on Occult Meditation", (by AAB) may be possible if all of you measure up to opportunity. This should be borne in mind. **The**

experiment may fail. Whether it does or not, real profit will in any case eventuate.... That you may one and all measure up to the opportunity and carry the work forward in the three worlds and in the kingdom where the light of the soul streams forth is my earnest wish and desire.

D. PERSONAL INSTRUCTIONS 5 – hypothetical generalizations of people who are in the process of integrating their Sycal, Astral, and Mental consciousnesses into an integrated personality or Soma:

Note: Some of the formatting for the Higher SAM Synthesis and Lower SAM Mergration below have been modified from the Aries, Taurus and Gemini Full Moon Report formats. This is to hopefully be more clear, especially involving the fact that the Monadic Ray is generally not specified in the DINA information but is in general being hypothesized in the SAM information.

**Higher SAM Synthesis
(Soma Aura Monad):**

<u>Vehicle/Body/Level/etc.</u>	<u>Ray</u>	<u>Synthesis color</u>
Monad (Spirit):	Not Given NG	2 nd Blue – Hypothetical
Aura (Soul or 'Spiritual Ego'):	1 st	Yellow
Soma (Personality):	4 th	Green

Synthesis Relationships:

Monad to Aura (Higher Equilibrium)	2 nd /1 st	Blue/Yellow = Green
Aura to Soma (Lower Equilibrium)	1 st /4 th	Yellow/Green = Olive Green
Monad with Soma (Soul-Ution)	2 nd + 4 th	Blue + Green = Turquoise
Aura to Soul-Union (Synthesis)	1 st /(2 nd + 4 th)	Yellow/Turquoise = Green

**Lower SAM Mergration
(Sycal Astral Mental):**

<u>Vehicle/Body/Level/etc.</u>	<u>Ray</u>	<u>Mergration color</u>

Mental with Sycal (Soma-Ution)	3 rd + 1 st	Violet + Red = Magenta
Astral to Soma-Ution (Mergration)	6 th /3 rd + 1 st	Indigo/Magenta = Violet

One of the first things which happens when a man has succeeded (alone or with academic psychological aid) in healing or bridging certain cleavages is the recognition of an immediate sense of well-being and of demand for expression. This in its turn, brings its own problems among which are these:

A sense of power, which makes the man, temporarily at least, selfish, dominant, sure of himself and full of arrogance. He is aware of himself as facing a larger world, a wider horizon, and greater opportunities. This larger sense can bring, therefore, serious troubles and difficulties. This type of person, under the influence of this extension of consciousness, is often beautifully motivated and actuated by the highest intentions, but only succeeds in producing 'inharmony' in his surroundings. These tendencies, when allowed to rule unchecked, can lead eventually to a serious state of egomania, for egomania is outstandingly a problem of integration. All these difficulties can be obviated and offset if the man can be brought to realize himself as an integral part of a much greater whole. His sense of values will then be adjusted and his sense of power rightly oriented. (SAM – This is a part of the protection that the triangular group work can provide.)

A tendency to over-emphasis may also show itself, turning the man (as a result of integration and a sense of well-being or power and capacity) into a fanatic, at any rate for a time. Again with the best motives in the world, he seeks to drive everyone the way that he has come, failing to recognize the differences in background, ray type, point in evolution, and tradition and heredity. He becomes a source of distress to himself and to his friends. A little learning can be a dangerous thing, and the cure for many ills, particularly of a psychological nature, is the recognition of this. Progress can then be made on the Path of Wisdom. (SAM – This is another part of the protection that the triangular group work can provide.)

The over-development of the sense of direction or of vocation, if you like to call it so, though the two are not identical, for the sense of direction is less definite than the recognition of vocation. In the schools of esoteric psychology, a phrase is sometimes used in connection with this sense of direction or inner guidance which runs as follows: "the bridging of the gaps induces a man continuously to run across the bridge." Certain aspects of the man are now consciously recognized, and the higher of these constantly attracts him. When, for instance, the gap between the astral or emotional body and the mind has been bridged, and the man discovers the vast field of mental activity which has opened up before him, he may for a long time become 'materialistically intellectual' and will tune out as far as he can all emotional reactions and psychic sensitivity, glamouring himself with the belief that they are, for him, non-existent. He will then work intensively on mental levels. This will prove only a passing matter from the point of vision of the soul (even if it last an entire incarnation or several incarnations); but it can cause definite psychological problems, and create in the man's perception of life, "blind spots." However, much trouble is cured by leaving people alone, provided the abnormality is not too excessive. (SAM – This is another part of the protection that the triangular group work can provide by not judging and 'silently standing by' a group member in such a position or sharing truthfully/deeply differences of direction for the group.)

Once the fact of the soul is admitted, we shall see an increasing tendency to leave people to the directing purpose and guidance of their own souls, provided that they understand what is happening to them and can discriminate between (SAM – This is again part of the protection that the triangular group work can provide.):

- a. The upward surging of the subconscious self into the lighted area of consciousness.
- b. The play and force and recognitions of the immediately conscious self.
- c. The downflow of the superconscious self, the soul, carrying inspiration, higher knowledges and intuitions.

These words—subconscious, conscious and super-conscious—need definition, for the purpose of this treatise; they are bandied about so freely and mean different things according to the school of psychological thought to which the student belongs:

I use the term subconscious to signify the entire instinctual life of the form nature, all the inherited tendencies and innate predispositions, all the acquired and accumulated characteristics (acquired in past incarnations and frequently lying dormant unless suddenly evoked by stress of circumstance) and all the unformulated wishes and urges which drive a man into activity, plus the suppressed and unrecognized desires, and the unexpressed ideas which are present, though unrealized. The subconscious nature is like a deep pool from which a man can draw almost anything from his past experience, if he so desires, and which can be stirred up until it becomes a boiling cauldron, causing much distress.

The conscious is limited to that which the man knows himself to be and have in the present - the category of qualities, characteristics, powers, tendencies and knowledges of all kinds which constitute a man's stock in trade and of which he is definitely aware or of which the psychologist is aware. These are displayed in his window for all to see, and they make him what he apparently is to the outer onlooking world.

By the super-conscious, I mean those potencies and knowledges which are available but which are as yet uncontacted and unrecognized and, therefore, of no immediate use. These are the wisdom, love and abstract idealism which are inherent in the nature of the soul but which are not yet, and never have been a part of the equipment available for use. Eventually, all these powers will be recognized and used by the man. These potencies and realizations are called in The Yoga Sutra of Patanjali by the interesting name of "the raincloud of knowable things." These "knowable things" will eventually drop into the conscious aspect of a man's nature and become an integral part of his intellectual equipment. Finally, as evolution proceeds and the ages pass away, they will drop into the subconscious aspect of his nature, as his power

to grasp the super-conscious grows in capacity. I might make this point clearer to you if I pointed out that just as the instinctual nature is today found largely in the realm of the subconscious, so in due time, the intellectual part of man (of which he is at this time becoming increasingly aware) will be relegated to a similar position and will drop below the threshold of consciousness. The intuition will then take its place. For most people, the free use of the intuition is not possible, because it lies in the realm of the super-conscious.

All these movements within the realm of consciousness, from the subconscious to the immediately conscious and from thence to the super-conscious are essentially crises of integration, producing temporary situations which must be handled. I would like here to point out that when an individual becomes aware of the higher aspect of himself which is demanding integration and is conscious of its nature and of the part which it could play in his life expression, he frequently becomes afflicted with an inferiority complex. This is the reaction of the lower, integrated aspects to the higher one. He experiences a sense of futility; the comparison which he makes within himself of the possible achievement and the point already attained leaves him with a sense of failure and of impotence. The reason for this is that the vision is at first too big, and he feels that he cannot make the grade.

Humanity today has made so much progress upon the path of evolution that two groups of men are thus powerfully affected:

1. The group which has recognized the need for bridging the cleavage between the emotional nature and the mind and has thus, through their integration, reached the level of intelligence.
2. The group that has already bridged this cleavage and is now aware of a major task which is the bridging of the gap between the personality and the soul.

These groups include a very large number of people at this time; the sense of inferiority is very great and causes many types of difficulty. If, however, the cause is more intelligently approached and handled, it will be found that the growth of a truer perspective will be rapid. (SAM – This is another part of the protection that the triangular group work can provide by not judging and 'silently standing by' a group member in such a position or sharing truthfully/deeply differences of direction for the group.)

Another real difficulty in the field of achieved integration is to be found in the case of those who have integrated the entire lower nature and have fused the energies of the personality. All the energies involved in this fusion have quality, and the combination and interplay of these qualities (each determined by some particular ray energy) constitute the character of the person. For a long while after integration has been reached there will frequently be much conflict, strictly within the realm of character and within the Man's immediate consciousness. First one energy and then another will assert itself and battle for the supremacy. It might be of value here if I posited **a 'hypothetical case', giving you the governing ray energies and reminding you that their fusion is the objective.**

In the 'hypothetical case' in point the subject has fused the personality vehicles into one functioning whole and is definitely a personality, but the major fusion of soul and personality has NOT been made:

Major energies:

Spirit (Monad)	Ray 2	The energy of Love-Wisdom .	Hypothetical
Egoic (Soul)energy (Aura)	Ray 1	The energy of will or power.	Not Active
Personality energy (Soma)	Ray 4	The energy of harmony through conflict.	Active

Minor Energies:

Mental energy	Ray 3	The energy of intelligence.	Active
Astral energy	Ray 6	The energy of devotion Idealism.	Active
Physical energy (Sycal)	Ray 1	The energy of will or power.	Active

Here we have a five-fold (six-fold with the hypothetical Monad) field of energy in which all factors are active except the energy of the ego, soul or Aura and super consciousness of the Monad. They have been definitely fused. There is at the same time a growing awareness of the need for a still higher or more inclusive fusion and the establishing of a definite relation with the soul. The process has been as follows:

First, the man was simply an animal, aware only of physical energy.

Then he began to include within his field of awareness the emotional nature, with its desires, demands and sensitive reactions.

Next, he discovered himself as a mind, and mental energy proceeded to complicate his problem.

Finally, he arrived at the life expression we are hypothetically considering in which he has (and this is the point of real interest):

- a. A first ray physical body, with a brain dominated and controlled by a third ray mind. This means capacity for intellectual achievement of a very varied kind.
- b. An emotional nature which, being governed by sixth ray energy, can be rapidly swung into fanatical orientations and is easily idealistic.
- c. The whole problem is further complicated by the rapidly emerging fourth ray energies of the personality. This means that the personality goal is the achievement of harmony, unity and skill in living, through an intensity of conflict, waged within the four-fold field of energy which constitutes the lower self.

You will, therefore, have a man who is ambitious for power, but with right motive, because he is truly idealistic; who will fight intelligently to achieve it, but will fight fanatically to bring about these ends because his fourth ray personality and sixth ray astral body will force him to do so, and his first ray body and brain will enable him to put up a strong fight. At the same time, his first ray soul energy is seeking to dominate, and will eventually do so through the medium of third ray mental energy, influencing the first ray brain. The first result of soul influence will be an intensification of every thing in the personality. The trouble will be localized in the mental body or in the brain and can range all the way down from 'idee fixe' and mental crystallization to insanity (if the stimulation becomes unduly powerful or the heredity is not good.) He can express arrogant success in his chosen field of work, which will make him a dominant and unpleasant person, or he can express the fluidity of the third ray mind which will make him a scheming manipulator or a fighter for immense schemes which can never really materialize. In this analysis I have not considered the tendencies evoked in past lives and lying hidden in the subconscious, or his heredity and environment. **I have simply sought to show one thing: that the conflict of energies within a man can produce serious situations. But most of them can be corrected through right understanding.**

It will be apparent to you, therefore, that one of the first studies to be made in this new approach to the psychological field will be to discover:

1. Which rays, major and minor, are conditioning and determining the nature of the man, and evoking the quality of his daily life.
2. Which of these five energies is (at the time of the difficulty) the most dominant, and through which body or vehicle it is focused.
3. Which of these ray energies is struggling against the imposed dominance, mentioned above. These can be either:
 - a. Varying aspects of the same energy within their own particular field.
 - b. Higher energies which are endeavoring to control the lower energies and therefore indicating a cleavage in the man's nature.
 - c. The energy of the fusion process itself, which unifies the lower energies into one functioning personality.
 - d. The adjustment of the bridging process between the two major energies. This will result in the at-onement of soul and of the personality.

These constitute the larger areas of difficulty, and in each of these fields of conflicting energies there are lesser centers of conflict. These are frequently brought about by enviroing circumstances and events.

Given all these factors, and considering our hypothetical case as being that of a man with a highly intelligent nature and a good equipment for daily expression, how would the esoteric psychologist proceed?

How would he deal with the man and what would he do? On what broad and general principles would he proceed? I can but briefly indicate some of them, reminding you that, in the case which **we are considering, the subject is definitely cooperating with the psychologist and is interested in bringing about the right results.** (SAM – This is another part of the protection that the triangular group work can provide by not judging and 'silently standing by' a group member in such a position or sharing truthfully/deeply differences of direction for the group.)

The answers to the following questions will be the goal of the psychologist's effort:

1. What are your reasons for wanting to be "straightened out"? This phrase, though an ordinary colloquialism, has deep significance, for it indicates the recognition of the need of alignment.
2. What brought this need to your attention and evoked in you the desire for a specific process of interior adjustment?
3. Realizing the nature of the inner constitution of man, in which vehicle is there the need for the bridging process? Where is the point of cleavage, and, therefore, the point of present crisis? Is this difficulty a major or a minor crisis?
4. What are the five ray energies conditioning the subject?
5. How far does the man's life pattern, his life vocation and his innate coherent desires, coincide with the trend set by
 - a. The soul ray type of energy,
 - b. The personality ray type?

With disciples much of the difficulty will be found to lie in this area of expression.

6. In what period of the present life expression did the cleavage make its appearance (SAM – this relates to the Personal and Spiritual ages, cycles, and rhythms in a person's life as indicated in the Color Interpretation age information)? Or has an achieved integration brought about the difficult situation? Is this problem:
 - a. One of cleavage, requiring a bridging process, and leading thus to a fusion of energies?
 - b. One of integration, requiring right understanding of what has happened, and leading to right adjustment of the fused powers to enviroing conditions?
7. Is the man at the point where he should be :
 - a. Integrated as a personality and, as a result, becoming more strictly human (SAM – this also relates to the Personal and Spiritual ages, cycles, and rhythms in a person's life as indicated in the Color Interpretation age information).
 - b. Developed as a mystic and taught to recognize the higher aspect and its relation to the lower, with a view to their unification.
 - c. Trained as an occultist and brought mentally to such a state of consciousness that the higher and the lower natures or aspects begin to function as one? This involves the blending of the forces of the personality and the energy of the soul, and fusing them into one divine expression of "the part within the whole."
8. What, in the last analysis, must be done to make "the lighted area" of the immediate consciousness of such a nature that the subconscious part of the man can be "lighted at will by the ray of the mind", and the mind itself can become a search light, penetrating into the super-consciousness and thus revealing the nature of the soul? **It is in fact the problem of the expansions of consciousness.** A wide field of psychological investigation lies ahead in connection with the use of the mind as constituting the "path of light between the subconscious nature and the superconscious nature, and yet focusing both as a brilliant point of light within the conscious nature."

(SAM – Note that all of the above 8 points can be brought into the Color Interpretations with the SAM Synthesis And Mergration Tri-Level Color System).

To esotericists, this whole problem of the at-one-ment is closely connected with the building of the antakarana (SAM – the 'Rainbow Bridge' between the lower concrete mind of intellect, the Auric or intuitive mind of the Soul and the higher abstract mind of the Monad or Spirit). This name is given to the line of living energy which links the various human aspects and the soul, and it holds the clue to the occult truism that "before a man can tread the Path, he must become the path itself." When the cleavages are all bridged, the various points of crisis have been surmounted and passed, and the required fusions (which are simply stages in process) have taken place, then unification or atone-ment (at-one-ment or atonement) occurs. New fields of energy then are entered, recognized and mastered, and then again new areas of consciousness open up before the advancing pilgrim.

The great planetary achievement of Christ was expressed by St. Paul in the words that He made "in himself of twain one new man, so making peace." (Ephesians II. 15)

In the two words "peace" and "good will" you have two keywords which express the bridging of two cleavages: One in the psychic nature of man, particularly that between the mind and the emotional vehicle which means the attainment of peace, and the other between the personality and the soul. This latter is the resolution of a basic "split", and it is definitely brought about by the will-to-good. This bridges not only the major cleavage in individual man, but it is that which will bring about the great and imminent fusion between intelligent humanity and the great spiritual center which we call the spiritual Hierarchy of the planet.

It has been the almost unconscious recognition of these cleavages and of the need for their fusion which has made marriage, and the consummating act of marriage, the great mystical symbol of the greater inner fusions.

May I remind you also that these cleavages are cleavages in consciousness or awareness and not in fact? Is that too difficult a matter for us to grasp? Let us ponder upon it.

AAB FINAL COMMENT NOTE:

These are a few general hypothesis for people in the process of integrating their personalities (Somas).

SAM Synthesis And Mergration Consultation and Interpretation Notes:

A. SAM Synthesis Interpretation Notes: There is a lot to note, however, this will be done only briefly and left to the rest of the group to carry further what has be said above and these brief comments to determine how this may relate to our own lives and our color readings.

1. Monad 'Hypothetical' Blue - 2nd Ray considered due to their indicated 'discipleship' in working with group members.
2. Aura Yellow - 1st Ray considered willfully Powerful ability to work out Auric, Karmic and Soul relationships, situations and feelings but has more to learn from the group work.
3. Soma Green - 4th Ray considered as a person Harmonizing their life of the integrated personality through Conflict.
4. Mental Violet - 3rd Ray considered a person who is mentally implementing a balance of spiritual and material intelligences.
5. Astral Indigo - 6th Ray considered also a person who is emotionally intuiting the path forward.
6. Sycal Red - 1st Ray considered a person who is physically incorporating will and needs in their life.
7. The Higher Equilibrium relationship of Blue Monad over Yellow Aura produces a Green of a harmonious person on the higher levels of being. This is hypothesized due to the Monadic love searching for Monadic group relationships influenced by an enlightened Auric Soul.
8. The Lower Equilibrium relationship of the Yellow Aura over the Green Soma considered as a soul sensitive personality with still some conflicts to work out to get to a higher harmony through the Olive Green combination color of Yellow/Green.
9. The Hypothetical Soul-Ution relationship of Blue Monad with the Green Soma or Turquoise is considered the real Soul-Ution of Aquarian or group consciousness.
10. The Synthesis is the Turquoise of the Soul-Ution plus the Yellow of the Aura which now form Green:

1. A true synthetic Harmony through Conflict of the person's being. but it could be 'capped' by the 'Illumination of the Soul' Yellow if the Soul is made the 'Goal' instead of going higher on to the Monad.
2. However, the Soul-Union could be 'capped' by the 'Illumination of the Soul' Yellow if the Soul is made the 'Goal' instead of going higher on to the Monad and Soul-Ution factors.
3. Much more could be said but for us, SAM, the insights lay in the Soul-Ution Turquoise, an Aquarian Group Consciousness and the consciousness that even the highest illumination of the Aura or Soul is not the goal.

B. SAM Mergration Interpretation Notes:

1. Mental Violet - 3rd Ray considered a balance of spiritual and material intelligence.
2. Astral Indigo - 6th Ray considered intuitive.
3. Sycal Red - 1st Ray considered strong and willfully connected to the personality needs.
4. Higher Balance relationship of Violet/Indigo can work together if the Mental accepts the intuition of the Astral.
5. Lower Balance relationship of Indigo/Red forms Magenta of higher forms, in this case, of 'lower' emotional and physical healing.
6. Soma-Ution (union of Mental and Sycal) Violet + Red = Magenta similar to item 5 just above.
7. Mergration of Astral Indigo over the Magenta of the Soma-Ution forming Violet of a person who could, if they can Mentally/Intelligently, Astrally/Desirously, and Sycally/Willfully lead a balanced personal life (Violet) and get over any inferiority or superiority psychological states, in service to an 'Activated' Illumined Soma/Personality, and ultimately go on to the super conscious state of Lovingly Wise Monad/Spirit of Aquarian Group Work (Turquoise).

SAM FINAL COMMENT NOTE ON ADDENDUM 1:

Hopefully everyone can see and focus on the Divine beauty, harmony, dance and game (Lila), symphony, intelligence, glory, universality, mystery, science, order, evolution, progressions, hierarchies, etc. in these concepts, hypothesizes, theories, realities, teachings, techniques, methods, insights, impressions, intuitions, thoughts, 'Kama-manas' (emotional thought forms), sensations, kingdoms, realms, etc. and increase their usefulness in our lives and increase the usefulness of our lives.

Conclusion (at this point) on ADDENDUM 1:

May we consider together entering into that higher state of (group/soul) 'bewilderment', especially at this cycle of Aquarian consciousness, yet strength and unity from our lower state of personal certitude and isolation to possibly obtain a universal group consciousness.
